The expedition which left for Cuba on Monday, was larger than at first reported. The steamer Arago carried nearly 1,000 men. Everything was done openly. Six thousand rounds of ammunition, several pieces of light artillery, a large quantity of small arms, 1,000 breach loaders, uniforms and a small quantity of marine

stores, completed the cargo. Minister Washburne will not go directly to Paris, having received leave to go to Hamburg and the springs of Germany for the benefit of his health.

It is stated that Motley's written instructions are being prepared at the State Department. Although he will be allowed a large discretion in matters that may come before him, the instructions relative to the Alabama claims are known to be based on Sumner's speech, which seems to have been made our ultimatum. MEW York, May 3 .- A correspondent has interviewed Sumner on the Alabama claims and the opinions of the British press. Mr. Sumner thinks the assertions of the British press should be received with caution, for the reason that England never likes to be told the truth, particularly when in the wrong. He did not express surprise at the alarm which now exists in that country, as the British people have seen the unanimity with which the Senate supported him in his views and rejected the Johnson-Stanley treaty to which state of facts they will soon have added-despite the shifts of the London Times-the disagreeable alternative that President Grant coineides completely with his views. Mr. Sumner thinks the difficulty will not lead to war, as he appears fully confident that England will pay the amount of the bill in preference to fighting. The Senator declares there shall be no yielding on the part of the American people after Mr. Motley has made known their wishes to the English Cabinet.
