A Manual of Health.

An edition of between nine and ten millions of copies of a very useful work is now ready for gratuitous distribution, and can be had for the asking at any drug store in the United States, the British Colonies, Spanish America or Brazil. The work referred to is Hostetter's Almanac for 1874. The medical portion of it treats of the various ailments to which the human system is subject, and sets forth the peculiar properties of Hostetter's Stomach Bitters—the purest and best tonic at present known—as a preservative of health and strength, and as a remedy for debility and disease. The Almanac is printed in all the principal languages of the civilized world, and reaches a larger number of families and individuals than any other medical treatise that ever issued from the press. No man or woman who has a due regard for that choicest of heaven's blessings, bodily vigor, should fail to read the plain, simple and convincing articles which this truly practical publication contains. The miscellaneous matter is varied, instructive and amusing, and the calendar department copious and comprehensive—Hostetter's Almanac is, in short, a household convenience, adapted to the use of all classes and callings. The farmer, the planter, the miner, the merchant, the mechanic, the laborer, the professional man, all need it; and to invalids of both sexes it is literally an article of prime necessity. The medical technicalities which render so many medical treatises intended for popular use unintelligible to the general reader, have been carefully avoided in this pamphlet. All is clear, explicit, forcible, and reconcilable with reason and common sense.

The proprietors, Messrs. Hostetter & Smith, Pittsburgh, P., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood.

THE SUN.

WEEKLY, SEMI-WEEKLY AND DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation; but the reasons which have already given it fifty thousand subscribers, and which will, we hope, give it many thousands more, are briefly as follows: It is a first rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible, and interesting manner.

It is a first rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste. It is a first rate story paper. The best tales and romances of current literature are carefully selected and lightly printed in its pages. It is a first rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no collar. It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country, and threaten to undermine republican institutions altogether. It has no fear of knives, and asks no favors from their supporters.

It reports the fashions for the ladies and markets for the men, especially the cattle markets, to which it pays particular attention. Finally, it is the cheapest paper published. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have the Weekly Sun at this rate. Any one who sends a single dollar will get the paper for a year.

We have no traveling agents.

THE WEEKLY SUN.—Eight pages, fifty-six columns. Only \$1.00 a year. No discounts from this rate.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun. \$2.00 a year. A discount of 20 per cent. to clubs of 10 or over.

THE DAILY SUN.—A large four-page newspaper of twenty-eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription price 50 cents a month, or \$6.00 a year. To clubs of 10 or over, a discount of 20 per cent. Address, n2816 "THE SUN," New York City.
