Preparations are being made for spring ork and when the three feet and more of rost which binds the earth in a frozen chain disappears there will be hurrying to and fro. There will be but little wheat sown as very often the seed only, and sometimes not that, is realized from the crop. Till within the last three years, corn has been the farmers staple, but oats and rye also do well. A great many are turning their attention to hay and cattle raising and therein lies an element of future prosperity. The tame grasses do well in this region, and wherever this is the case cattle will thrive. But here stock require to be fed for a period of from five to seven months during the year. In this respect and in the mildness of its climate Oregon excels. But I think the condition of morals is very much in advance and education receives more attention in this country than it does there.

Saloons are not so numerous and the legis lature of the state, now in session, proposes to prohibit the liquor traffic altogether, a bill to that effect having passed both houses. Double Murder Divulged.

SAN FRANCISCO, March 23 .- The Chroni-Corvallis, Benton County, Oregon, Friday cle will publish to-morrow a shocking story March 28, 1884. Persons calling for same of a double murder in Sonoma county and a charge that Thos. J. Geary, prosecuting at-

torney for Sonoma, assisted in hushing it up and assisted the murderer to escape from the country. It is charged that Frank Meacham, son of a wealthy farmer, lived for several years in an isolated place belonging to his father, keeping there in improper relation with himself a woman named Eurilla Bray, who was induced to live with him on the promise of marriage when she should procure a divorce from Bray, who had deserted her. During this time she give birth to two children both of whom were smothered by their father, Meacham, in presence of their mother. His failure to keep the promuse of marriage caused her to divulge the dreadful story. Examination proved all her

charges, and the bodies of the children were dag up by detectives from the yard of Meacham's house. After all this proof had been presented Geary ordered the matter dismissed on a pretense that it would be

built up a new home. The following two years were spent in learning the wagon makers trade of a neighbor, Jacob H. Wellsher, who was also a blacksmith, and in t 1e fall of 1859 deceased, his brother Horace a id Mr. Welsher formed a partnership for

the purpose of engaging in the manufactory of wagons and carriages, and all moved to Monroe, in Benton county, where they con-

tinued in that business until the winter of 1863, during which time they built up a

large trade, their wagons being justly appreciated for their neatness, durability, light draft and the evident care with which they

were constructed found ready purchasers, even from long distances away from the place of manufacture. The deceased about

the time of moving to Monroe also entered in partnership with his brother W. C. Woodcock for the purpose of conducting a general merchandise business at that place, which business was continued until the

winter of 1869. In the spring of 1874 the deceased with his wife and daughters moved to East Portland, and in the fall following they purchased a part of the William Herron farm near Salem and there resided and built another home, until the spring of 1882 when he sold the farm and during the following summer accompanied by wife and youngest daughter he visited the old home in Wisconsin where his aged mother then 78 years old still resided on the land he had helped to clear for her and his father in his early boyhood days. Returning to Oregon after a brief visit he moved in April 1883 to the present home about a mile west of Salem near the state insane asylum, where he once more commenced to build a home for his old age in which he hoped to

rest from hard work and care and where after an illness of a few weeks he died surrounded by loved ones and kind friends, aged fifty-nine years, eight months and two days. On the 11th day of last mary he went to serve on the jury of Ma county. He served during a spell of weather in which a part of the time t was deep snow on the ground. During first week he caught a severe cold and tinued to serve as juror instead of as the court to excuse him, until the end of weeks, at which time the cold had devel into a severe case of pneumonia w finally resulted in his death.
