MERITED COMPLIMENTS.

Robert M. Veatch lived five years in Roseburg and the acquaintance of those years gives the editor of the Roseburg Daily Review the opportunity for bestowal of merited compliments. The Review says:

Hon. R. M. Veatch, the Union nominee for joint senator for Lane, Douglas and Josephine counties, was a wise choice for the position. Mr. Veatch has in past years faithfully served his constituency in both branches of the Oregon legislature. He also gained many friends by his able administration of the office of register of the Roseburg land district. As a citizen and neighbor Mr. Veatch is a prince among men. He is scrupulously honest in public and private life. He has excellent business and legislative ability, and his experience in the management of public affairs will make him a valuable member of the Oregon senate for the next four

POLITICAL ROTTENNESS.

And now Senstor Hanna's health will preclude his accepting the chairmanship of the National Republican committee for the campaign this fall. The truth is Hanna's connection with trusts, his open and notorious use of money for the purchase of the presidency in 1896, and later the Ohio penatorship have made the very name of Hanna a stench in the nostrils of men who hold political

Hanna must be got out of sight. Yet he will conduct the McKinley campaign, no matter as to the figurehead who will take the name of chairman. The Republican party has too bright a page in the history of the country to allow its honor to be further trailed in the dust by this prince of corruptionists. Better a fair defeat than the possession of stolen honors.

The announcement comes from Minnesota that a strong move 18 under way to secure the vice-presidential nomination for Hon, Chas. A Towne, Silver Republican, of that state. Mr. Towne is one of the ablest men in public life in the United States, and would creditably fill any office within the gift of the people. If every other section of the country will bring out a favorite son of the character and standing of Mr. Towne the convention at Kansas City will have no difficulty in selecting a worthy running mate for Mr. Bryan.

The Belgian hare "craze" is the latest. It may turn out something similar to the carp crotchet that afflicted so many of our people about fifteen years ago. The hare or rabbit is very destructive of grass, tender vegetation and young trees. The fanciers may unwittingly be introducing a pest.

DANISH COMMUNITY

Matters of Interest Connected With the Enterprise.

WILL ARRIVE SOON.

Mr. Edward L. Thompson, of Portland, representing the firm of Hartmen, Thompson & Powers, is in the city on business connected with the location of the Danish colony in this vicinity. As stated in the GUARD before, the Danish people, through their missionary, Rev. P. L. C. Hansen, have closed a deal for the purchase of the farm of E. C. Smith, west of this city, and various families of Danes will at once locate on the same, boying tracts of land of from 40 to 80 acres each, making a community of no small proportions which will be tribu tary to this city as a marketing point for the various products of their little farms, such as fruit, butter, eggs,

poultry, etc. Mr. Smith has been interested in this matter for some time, and his work has happily had good results so far. To insure success in the undertaking, however, it will be necessary to secure the co-operation of the business community of this city, and also to receive assurance that other of realty valuations. Such a move at several of the leading stores in would tend to destroy the intention town. and object of the people who desire to come here for location. Mr. Smith states that the Danes, who are all members of the Danish church, desire church erected, where the members of the community can hold their religious services, and a subscription will soon be solicited for this purpose.

The location of these people is not in a colony sense, for they will own their own lands in severalty, and only desire to buy together in order that that they may have a church accessible by all. In their business affairs tony will have dealings as individuals.

Rev Hansen, the missionary, will attend the meeting of the United States association of Danish churches at Blair, Nebrasks, on June 7, and at Lane county will be brought up. Every detail of land, climate, market, G Warner et al vs Chas Bruneau et al, temperature, fertility of soil, and other foot in diameter and three feet long, from Douglas county, filed. Costs in things of interest will be prepared for number will want to come out, It only remains to be seen whether a sufficient amount of and in the vicinity vicinity of the Neis hopyard. can be secured at a reasonable price

There are only two other communi-The latter has been organized but struck the earth has yet been made. three years yet has 450 families. The cold of Dakota, however, is inducing the Danes to seek a climate more mild valley will prove to be their Mecca,

Mr Smith, who has taken a great interest in this matter, is satisfied that the success of Lane county depends on intensified farming and will continue to look into the matter for the proposed EMSALMERS and FUNERAL DIRECTORS emigrants, to the end that their desires and objects may be attained; that they may have their community organization as a church and at the same time secure the little tracts of land, which as an industrious people they will make productive.

Cold Steel or Death.

"There is but one small chance to save your life, and that is through an operation," was the awful prospect set before Mrs I B Hunt, of Lime Ridge, Wis, by her doctor, after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price, 50c, at DeLano's drug store.

Death From Hunger.

Among the sad nations of today, India stands first. It is the normal thing for 40,000,000 to go to bed hungry every night, but now more than 60,-000,000, a population almost equal to that of the United States, is exposed to all the horrors of famine. The country had not recovered from the famine of '97 and now a worse one is on. For eight months no crop can be expected and the famine will be at its height from April to September! One thing that makes this famine so bad is that the water supplies are giving Death from starvation is an out. every day occurrence; parents are abandoning and killing their children because they are unable to support

Emacis ed men, women and chil dren are met on the roads walking or trying to walk 100 miles to a government relief camp. In these camps the government is trying to meet a part of the crisis by giving work at from one cent to four cents per day. But millions are too weak to break rock all day at any price and death is the result.

Here is an opportunity to answer the call of bumanity. Five cents will save all'e for a day; five dollars will save a life during the famine. Onhundred dollars will dig a well that will insure bountiful crops on several acres of land,
