## SUGAR BEET MEETING

Will Be Held In Eugene Saturday April 28.

A mass meeting will be held at the court house in Eugene, Oregon, Saturday, April 28, at 1:30 o'clock in the afternoon for the purpose of considering matters relative to the establishment of a sugar beet factory at this place. The attendance of farmers and business men alike is essential to the success of the undertaking, and is earnestly requested.

This factory means more to this section of the Willamette valley than any other enterprise which has come to us with a proposition for location, on account of its magnitude, and on account of the large number of men it will furnish employment for, directly and indirectly. The success of this meeting and the enthusiasm manifested at this time will be an index to what may be expected for future work. Let every one who can attend. The raising of beets affords remunerative employment and will prove a steady income to the farmer, so let all come prepared to state how much land will be pledged to be sown with sugar beets. If a disposition is shown to do this then active work can be begun to secure those concessions necessary to assure the erection of the factory. It will be the greatest day the Willamette valley has witnessed when it is known for a certainty that the factory will be built in this city. It means smaller farms and larger revenue. It means an increase of the laboring population. It means a greater prosperity consequent upon a large and industrious population. It means the development of resources which have long lain dormant. It means an awakening to the possibilities in store for us.

### GERMANS SENTENCED AT CAPE TOWN.

Special to the Guard.

LONDON, April 19.—Renewed fears are expressed at the war department that the Boers are blowing up the Johannesburg mines. Nothing of a definite nature has been received, but the trend of belief is in that direction. Millions upon millions of dollars worth of property will be destroyed by this act, and the industry for which England has been so solicitous, will have been crippled sadly, if not destroyed.

Two Germans were sentenced to one year each at Cape Town for having in their possession a quantity of rifles, which they were trying to conceal, leading to suspicions of connection with the Boer army.

### SUSLAW LOGGING.

A Splendid Write-Up of This Lane County Stream.

We take the following from the Oregon Lumberman, published in Portland, for April:  
"The Suslaw river is one of the best driving streams on the Pacific coast. Logs can be floated for a distance of 40 miles, with practically no expense after they are put in the water. The timber tributary to the Suslaw river is almost limitless in quantity and of good quality. Until last winter there has been no logging above tide water, and what little logging has been done has been on a small scale and mostly hand logging outfits. The following are the logging firms: M. D. Johnson, Williams & Stevens, Mound; Henry Hinkson, Alma; Lyons Bros., Walton. These loggers log above tide water. There are in the neighborhood of 30 camps, all told, in operation on the Suslaw, and several more are contemplated this spring. Logs are contracted for by the mills until January 1 next at \$3.75 per M. Boomage charges are 50 cents. One dollar per M is being paid in some cases for stumpage. The Suslaw mills load from one to two schooners weekly, with cargo capacity of 200,000 to 400,000 feet. One drawback to Suslaw has been the poor condition of the bar. The government last month commenced work on a system of jetties for which \$30,000 has been appropriated, which, it is expected, will materially better the condition of the entrance. With better shipping facilities there is little doubt the timber industry of Suslaw will show rapid strides."

### Electricity and Life.

It has been demonstrated that an animal killed by electricity may be brought to life. An ordinary current does not produce instant death, and if it were possible to have in readiness suitable apparatus, consciousness could be restored by the infusion of de-fibrinated blood. In a like manner, Hostetter's Stomach Bitters, the well known tonic, infuses life into debilitated bodies, by revitalizing and purifying the blood. This wonderful medicine permeates and distributes nutritive material to every part of the body. If its quality or circulation is deranged, trouble follows. Constipation, dyspepsia, liver and kidney disorders all spring from a weak condition of the digestive organs, which affects the blood, and through it the entire body. The Bitters cures all such disorders and is an excellent spring tonic.

A NEW CONSTABLE.—Geo. C. Fleeman resigned yesterday as constable of the Eugene district and the commissioners court appointed J. L. Simpson to fill the vacancy.

### FRUIT O. K.

Lane County Will Have a Large Crop.

### ITALIAN PRUNES UNINJURED.

Daily Guard, April 19

We have interviewed several Lane county orchardists today, and all are of the opinion, from present indications, that Lane county will have a large crop of all kinds of fruit.

Norris Humphrey, one of our largest growers, said today: "The frost has left the Italian prune trees with a full crop on them; the Silver and French are too full. All other fruits are also in fine condition."

This is most excellent news. Reports are printed saying: In Marion 75 per cent of the crop of Italians are killed and that they have been badly hurt in Clackamas, Benton, Linn, Polk and Yamhill counties.

### PUBLIC SPEAKINGS.

Hon. E. R. Skipworth Will Address Spencer and Cottage Grove People.

### A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery saying that it had more than once saved her life, and had cured her of consumption. After three small doses, she slept easily all night, and its further use completely cured her." This marvelous medicine guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1.00 Trial bottle free at W. L. DeLano's drug store.

BLUE RIVER MINES.—Halsey correspondence in Albany Herald: J. E. Cross, who is chief engineer at the Lucky Boy stamp mill at the Blue River mines, came down last week for a short visit. He gives glowing accounts and says among other improvements to be made is a saw mill. Lumber now costs about \$40 per thousand, delivered at the mines."

BORN—About three miles north of Eugene, April 16, 1900, to the wife of Ansel Miller, a 10 pound son.

Mrs. Calvin Zimmerman, Milesburg, Pa., says: "As a speedy cure for coughs, colds, croup, and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take. I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption. Vincent & Co., Corner Drug Store.
