Three wagon loads of movers from Tulare county, Cal., passed through here on their way to the Willamette valley where they expect to pass the winter, just for a change of climate.

We are under obligations to F. M. Nicholson, County Clerk of Josephine county, for the following summary of the assessments of that county for 1880.

Assessment of land 40,759; value \$185,288; or \$4.50 per acre. Town lots, 32,358. Improvements, \$49,564. Merchandise and implements, \$43,685. Money, notes, accounts, etc., \$21,817. Household furniture, etc., \$19,633. Horses and mules, 720; value, \$30,835, or \$42.82 a head. Cattle, 2,877; value, \$36,736, or \$9.29 a head. Sheep and goats, 8,293; value \$12,077, or \$1.47 a head. Swine, 1,179; value, \$2,234 or \$1.90 a head. Gross value, \$403,932. Exemptions, \$52,872. Total value of taxable property, \$351,060. Number of polls, 340.

Levy of Taxes—State tax, 7 mills; School tax, 3 mills; County tax, 15 mills; Total 25 mills.

Speech of Hon. Geo. H. Williams.—On Thursday night last, the citizens of Jacksonville and vicinity were treated to one of the clearest and most pointed speeches of the campaign by Hon. Geo. H. Williams, late Attorney General of the United States. A good house greeted the speaker whose fearless advocacy of Republican principles and sound political reasoning, kept the audience spell-bound for nearly two hours. In comparing the record of the Dem. party with that of the Republican party, great historic truths were uttered—dared conviction to every unbiased mind. So far, the Republican campaign orators who have visited Southern Oregon have made a good impression upon the thinking masses of the people. Every position taken by the Republican party has been sustained by an unbroken chain of evidence, fortified by truth, argument and eloquence. The Garfield forces have increased in numbers at every meeting, and the wanted Hancock "boom," in spite of the Herculean efforts to stifle it up, has a downward tendency. With an honest vote and a fair count James A. Garfield will be our next President.

JACKSONVILLE STEAM MILL.—Jacksonville can today boast of having one of the finest and best steam flouring mills on the Pacific Coast. There has been no pains or expense spared to make it a success, which it is in every particular. By the skillful supervision of A. E. Hammond of Ashland, one of the most thorough machinists and millwrights in the State, the mill has been made to turn out the best flour ever made west of the Rockies. The bolting chest, one of the finest in the country, was made after a pattern brought from Yankton, Dakota T., by Mr. Hammond. Messrs. McKinzie & Foudray deserve great credit for their untiring perseverance to accomplish so great an enterprise and so noble an ornament to the city of Jacksonville. We wish them success and prosperity.

WILL GO FOR STRAHER.—When President Hayes was in Jacksonville, we directed his attention to a paragraph going the rounds of the papers, that the President of the United States could not constitutionally take an ocean trip from Portland to San Francisco, he replied that there was no law to that effect. That as long as he was under the flag of this country, no matter how many leagues he were from shore, the law would consider him on American soil. In the early days of the Republic he said, Presidents frequently had to take trips on the Atlantic to get to and from the seat of Government. He also said that he and his party would take the steamer from Portland to San Francisco.

SENT TO THE ASYLUM.—John M. Caylor, aged about 26, was taken to the Insane Asylum on the 5th instant, in charge of J. B. Coats. For the past few days he had been on our streets, acting very strangely. He said the people had charged him with the crime of setting Alturas on fire, which charge he declared was utterly untrue, and could not have been as during the conflagration he lay sick, and had to be carried on a blanket out of the burning building. The recent stage robbery also seemed to work on his mind, and he presented his innocence. It was evident that the poor fellow was used to get him into the vehicle that took him.

FIRE AT PROXBURG.—Last Saturday evening the alarm of fire was sounded in the town of Proxburg which soon thereafter proved to be the barn owned by Dr. D. A. Covert. The barn and contents proved a total loss but the fire was prevented from spreading to his house and adjoining buildings. On the following day Dr. Covert was arrested on a charge of arson, but his trial had not come to a close up to the time of going to press. The main cause of the suspicion seems to be that Dr. Covert had insured his property only a short time before the fire.

Miss Ada Walton, who has been teaching a Summer term of school at Central Point, left here on the 4th instant for Silverton, Southwestern Colorado, where resides a sister of hers. Silverton is the most elevated mining camp in Colorado, being 13,000 feet above the level of the sea. The atmosphere is exceedingly rare up there, entirely too much so for weak lungs.

Wm. Dehoff, son of a well known German miner on Jackson creek, lately deceased, left here on Sunday for San Francisco, where he goes to visit relatives and to seek an opportunity to learn a trade. William is a good boy, and we hope he will succeed in getting a good place.

Miss Belle Young leaves on today's stage for Salem, where she goes to attend the wedding of her brother John to Miss Lollie Borna. Before her return she will also visit San Francisco.

A number of the Democratic ladies of this place are now engaged in making a banner for the Hancock and English election to be presented them after the election of the Democratic Presidential ticket. If it is intended that the club shall make any use of the banner we would suggest that it be presented at once, as the party making the presentation speech won't know what to say after the election is over.
