What Does it Mean?

There has been for several days quite an excitement in and about Pendleton in regard to the 10th and 36th Sections on the Umatilla Reservation. Applications have been made to School Superintendent Arnold to have nearly all of such Sections appraised. These applications have been filed with the Superintendent here.

Weston, Pendleton and Umatilla Railroad.

There is a project now on foot to build a railroad, to be owned and run by the citizens of this county, from Weston via Pendleton to Umatilla Landing. Already citizens have agreed to subscribe stock enough to grade the road.

Such a road if built will accommodate a section of country unequaled in its agricultural resources, and will pay from the start. Prominent citizens at Weston favor the scheme and the road can and will be built. In order to effect harmony of action, a meeting of the citizens of the county is called for, Saturday the 1st day of December next at the Court House in Pendleton at 1 o'clock P. M. Everybody in the county interested in the matter are requested to come out, so that the company may be thoroughly organized, and books opened for subscription at that time.

THE SILVER DOLLAR.—In 1873 Congress declared that silver should be legal tender to $5 and no more. The wording of the act was so obscure that few understood it. Congress will now consider the subject of restoring the silver dollar to its old standard, that is, of making silver as much money as gold, the same as it has been for thousand of years. In China and India gold does not pass at all among the people; they will take nothing but silver, and the American trade dollar is in great request. Wall street speculators and foreign bond holders are opposed to making silver legal money.

The silver dollar has varied in value and weight at different times as explained by the following from the *N. Y. Post*:

1. Under the law of 1792 the silver dollar weighed 416 grains 891 4-10 fine; and parts in same proportions. Weight of $1,000, 866 2-3 ounces.

2. Under the law of January 18, 1837, the silver dollar weighed 412 1-2 grains 900 fine, and the parts in same proportions. Weight of $1,000, 859 3-8 ounces. This is the dollar which was demonetized in 1873.

3. Under the law of March 3, 1853, the half dollar and smaller silver coins were reduced in weight, the half dollar to 192 grains, the "quarters," "dimes," "half dimes," in the same proportion; $1,000, of these coins weighed 800 ounces.

4. Under the law of February, 1873, the half dollar was raised in weight to twelve grains, and the smaller silver coins in the same proportion: $1,000 of these coins weigh 792 3-4 ounces. By the same law the "trade dollar" was authorized, to contain 420 grains; $1,000 of these coins weigh 875 ounces.—*Lawmaic Sentinel.*

Marriage.

Canon Adopted by the Episcopal General Convention.

Section 1. If any persons be joined together otherwise than as God's Word doth allow, their marriage is not lawful.

Sec. 2. No minister shall solemnize the marriage of any person who has a divorced husband or wife still living, if such husband or wife be put away for any cause arising after marriage, but this canon shall not be held to apply to the innocent in a divorce for the cause of adultery, or to parties once divorced seeking to be united again.

Sec. 3. If any minister of this church shall have reasonable cause to doubt whether a persons desirous of being admitted to holy baptism or communion or to confirmation, has been married otherwise than as the word of God and the discipline of this church allow, such minister, before receiving such person to these ordinances, shall refer the case to the Bishop for his godly judgement thereupon.

Sec. 4. Questions touching the facts of any case arising under section 2 of this canon shall be refered to the Bishop of the diocese or the missionary jurisdiction in which the same may occur, or, if there be no Bishop of such diocese or missionary jurisdiction, to some Bishop to be designated by the standing committee; and the Bishop to whom such questions have been refered shall theoeupon make inquiry and deliver his judgement in the premises.—*Portland Bee.*

WAR ON THE CHINESE.—ROCKLIN, Nov. 5.—Yesterday notices were posted all over town calling an Anti-Coolie meeting at 7 o'clock last evening. When the citizens assembled it was announced that there was a chinaman employed in the family of A. D. Hathaway. A committee was appointed to wait on Mr. Hathiway and notify him to discharge his Chinaman by 7 o'clock this evening or suffer the consequences. At 7 o'clock this evening the meeting was again called to order, when Senator Norton, who was present, addressed the meeting and stated that he had heard what was about to take place, and had therefore called upon the parties employing the Chinaman and advised them to discharge him, which they agreed to do at 6 o'clock to-morrow morning. It was then agreed to meet to-morrow morning and rossed up Secret Ravine, to drive out the Chinese residents who have returned since the last excitement.—*S. F. Examiner.*

THE MAYOR.

Now, Grauntie, lat ye're welcome noo,
To freedom of this auntient toon!
Siccan a chieftain ne'er saw light
Sin' days of Bruce and Wallace Wight.
The purse of gowd ilk burgess seeks,
Just tak' and stkw it i' your breeks.
My certie, mon, it gars me greet
To hail ye here in Arthur's seat;
'Tis not that penny fee, ye ken,
But een mann greet, and men are men,
The winds are cauld, and mists are blawn
Abune the frith betimes the morn;
I'm thinking, lad, ye'll nae forget,
A mutchkin aye keeps out the wet;
Our whuskeys gude, and here's my hau',
I'll help ye crush a nuckle ean.
A burgess noo ye manna tear
To hand per sin wi' gude Scotch cheer.
Whene'er ye dinner, nocbing loth.
Ye'll tak' a sup of cockie broth;
Ye'll eat o' haggis, great or sma'
And singit sheep's head woo' and a';
But will I yea, or will I not,
Saul, mon, ye'll mak' a bonnie Scot.

GENERAL GRANT.

My thanks are due you, Mr. Mayor,
Above all else for hints of fare;
Cock broth, you named, and head of sheep,
With wool thereon, long fleeces and deep,
Cocktail and lamb's wool, both I know
I drink them hot in time of snow;
Whiskey or whuskey well becomes
My martial fame—I gauge four thumbs.
So, Mr. Mayor, come soon or late,
I'll pledge you deep. I take it straight.

Communication.

INDEPENDENCE, Nov. 12, 1877.

MR. EDITOR:—This place is beginning to assume the aspect of a thriving camp, and whatever may be said to the contrary will be the business center of the surrounding quartz mines.

People are beginning to secure town lots, and quite a number of buildings are in process of erection, and in contemplation. When another year shall have passed we will have a town of no mean proportions. The mines are capable of supporting a town of several thousand.

The Monumental Tunnel is progressing rapidly, and will in a short time tap the mine at the depth of nearly three hundred feet. Should the ore prove as good at this depth as on the surface, there will be an enthusiasm awakened which will soon bring stock to par. Other incorporations are being formed, the principle one of which is the Phil Sheridan. It is needless to speak of the future of this mine, as it is proved to be a large vein and assays up in the thousands. The Rattler Tunnle is going on and soon will be to the ledge. This mine is being developed in a substantial manner and when the tunnel is completed it will be ready for a mill.

These three mines alone will insure the future of Granite Creek, and there are numerous mines besides. It may be slow work to interest capital, but it will come, for mines located as these are will attract attention soon.

We have a semi-weekly stage, and Mr. Kellogg intends to keep the roads open throughout the coming winter, giving the people of Granite Creek the benefit of news from the outside world.

There is a feature that has long been noted here, namely, the quantity of grouse that infest the town. The boys sit down quite often to a grouse supper, got up in style by R. Williams who, as an artistic and scientific cook, is hard to beat. The principal hunters are Mr. John Cobb and Lew. Gue, who often bag from three to six birds. The method they use in hunting is to take a line with a hook attached, and put a small piece of meat on the hook, and soon the bird will follow one anywhere—they become very much attached. Such is life.

Mart Taylor was here a short time ago; he followed his nose until he "fetched" up at Independence where he gave one of his most elaborate entertainments. His little "purp" is a wonderful animal and ought to make Marts fortune.

The principal amusements about this town are music and dancing. The music is furnished by Haggart's band, and the dancing by the elite of the town, who assemble at "Big" Steves saloon and have what would be termed down South, a hoe-down. It is very refreshing to see the graceful figure of the bull-whacker mingled with that of an honest miner in the mazy waltz or a hazy quadrille, keeping splendid time to the music, but as I remarked before such is life.

Yours truly, L. H.

One hundred and thirty seven Mormon converts arrived at New York from the old country. They are too late to see their prophet.
