

## GOVERNOR GOES TO SAN FRANCISCO

Will Investigate Labor Troubles And Determine Whether To Call Out State Troops.

### 400 POLICE DETAILED

Few Cars Are Running and the People Are Dependent on a Wagon Service.

San Francisco, May 10.—The street car strike has developed into a fight to a finish. Neither side is willing to accept arbitration, and a citizens' committee appointed to secure industrial peace was unable to find any basis for settlement. It has been demonstrated that the present police force is inadequate, and that stronger measures are necessary to insure a general resumption of service, if the struggle is conducted on the present lines. Several cars were run, accompanied by police on cars and in automobiles. No violence was offered. On another trip the cars were unaccompanied, and the objects of attacks by missiles, and several persons were injured. The mayor and chief of police claim the police are competent to cope with the situation. Meanwhile the public must walk or pay five prices for desultory wagon service.

Reduced to an arithmetical aspect, the problem is this: If fifty police are required to afford safe conduct to two street cars daily over six miles of tracks when no passengers are carried, how shall 200 cars be operated with passenger traffic over 250 miles of tracks with a total force of only seven hundred police. During a portion of the trip the cars today were showered with flowers from windows in a hotel. They were picked up and distributed among the strikebreakers.

Governor Gillette left Los Angeles today to come to San Francisco and personally investigate the labor conditions, and determine whether it is necessary to order out the state troops and preserve peace during the industrial struggle now in progress. The railroad company announced tonight that it will attempt to operate cars on a more extensive scale tomorrow. Four hundred police have been detailed into the district through which the cars run.

The steamer Alliance will probably bring a shipment of three cars of rails to the C. A. Smith Lumber and Manufacturing company mill on the next trip. The rails are on the dock at Portland now awaiting shipment to this place. The company will also soon have a shipment of large boilers for the new mill. Mr. Mareen, who is now in the east, has placed the order for the boilers with one of the large manufacturing companies of Minnesota.

### IN DANGER OF RUIN.

Messina, May 10.—The eruption of Mount Stromboli was violent today, and apprehension is felt. The violence of the eruption is said to be without precedent, even the oldest inhabitant not remembering such threatening conditions. Nearly all the inhabitants have made their escape.

Ashes from the volcano have destroyed everything on the island. At the same time the activity of Mount Etna on the northern coast of Sicily has increased. People living in the vicinity are panic stricken, and are flocking to the churches to pray for intercession and protection.

## SULLIVAN SCORES OVER HUGO KELLY IN TWENTY ROUNDS

Los Angeles, May 10.—Jack "Twin" Sullivan, of Boston, and Hugo Kelly, of Chicago, fought twenty rounds to a draw here tonight.

### VISITORS SHOULD INVESTIGATE

Will Find Many and Varied Beautiful Spots.

No visitor should leave Marshfield until the surrounding country has been well covered, either on foot or, if time be limited, by vehicle. Within a dozen miles of this city are to be viewed many picturesquely beautiful spots—spots where nature alone has created the shadow, the placid lake, the worn and roughened cliff, while in the foreground the ceaseless waves toss their sun-rays here and there. Every highway and every glade is bright with brilliant flowers—while the uncared spots are filled with the odors of growing berries.

And this trip, aside from the scenic attractions, will show the observant one the amount of improvements which push and progress can accomplish in a comparatively short time. It will prove to him that under proper incentives a community can be brought into conspicuous prominence with almost the speed of the famed Aladdin's lamp.

While again, handicapped by swollen reserve, what might be a thrifty community is held back till the residents lose hope and ambition.

By all means urge visitors to view all of the easily accessible portions of this county before departing for their homes. Let all resources be shown. Let all districts be exploited. Varied minds require varied localities—yet what builds up one portion of the county aids and helps the whole.

### INTERESTED ONE.

### FINE OPPORTUNITY HERE.

Turpentine Plant Is Said to Be Rich Product.

There is a splendid opportunity for the location of a turpentine plant in this county, and some private capital could be well invested in such an enterprise. There are untold quantities of this valuable product going to waste each day.

No one, even the consumers, seems to have brought the matter to the attention of those who are anxious for new enterprises. It remains for outsiders to suggest that such a plant would be a valuable acquisition, and urge that steps be taken to secure figures in the matter.

### CLAIM FIGHT WAS FAKE

Los Angeles, May 10.—Half a dozen sporting men who occupied \$30 seats at the Burns-O'Brien fight have employed an attorney to bring action against Manager McCarey of the club to compel the return of the price, alleged the money was obtained under false pretenses. District Attorney Fredericks will investigate the fight with a view of suppressing fighting in this city, but it is doubtful if it can be done, owing to the state law permitting twenty-round goes.

Professor Miller Of Portland On Coos Bay Ascertaining Possibilities Opening Business College.

### NOW AT NORTH BEND

Was Present at Chamber of Commerce Meeting in That City Friday Night.

North Bend's Chamber of Commerce met Friday night, and the important event of the evening was the speech by Professor Miller of Portland, who has come to Coos Bay for the purpose of establishing a business college. He has been connected with one of the leading schools in Portland for a number of years, but believes the prospects here are much brighter than in that city.

The courses included in the college will be stenography, bookkeeping and English. The Chamber of Commerce appointed a committee of five to co-operate with Mr. Miller in the matter.

He intends to open up a business college at some place on the Pacific coast, and Coos Bay appears to be an excellent field for such an institution.

After the game the steamer Flyer will be at North Bend to bring back the crowd.

There is a great deal of interest being manifested in baseball the past few days. The local squad has been strengthened a great deal, and a good game is promised those who attend.

The local baseball men will go to North Bend this afternoon to practice infield work on the North Bend diamond. The local ball grounds have not yet been put in proper condition, making it impossible for them to get the required work-out they need. The personnel of the local team has not yet been decided upon by Captain McKeown. He will probably pick his team this afternoon, after the practice game.

Mrs. Shafer is claimed to have set a price of \$600 on the lots, but when Mr. Sweetman sold them for \$850 she refused to make out a deed closing the deal. The case will be appealed.

## Strike In New York Presents Serious Phase And Labor Leaders Say Eighty Thousand Men Will Be Idle.

Salt Lake, May 10.—The plant of the American Smelting and Refining company at Murray, employing over one thousand men, with a monthly payroll of \$75,000, closed down indefinitely tonight, owing to the demand of 900 Greeks and Austrians for a flat advance of 25 cents a day. The company offered 10 to 25 cents advance on the sliding scale. It was 25 cents or nothing with the foreigners, hence the shut-down.

### New York Strike.

New York, May 10.—The steamship officials state their determination not to yield to the demands of the

striking longshoremen. Patrick Connor, president of the Longshoremen's Union and Protective Association, predicts a full victory within twenty-four hours. Twelve big liners are due within 48 hours, and seven are scheduled to depart. Connor says that eighty thousand men are idle, and asserts that he will bring out all market truck drivers, and will also try to get the coal trimmers to strike so that vessels will be in serious need of coal. So far as coastwise shipping is concerned, the strike is virtually ended, as the companies show a disposition to compromise.

## DIES AT HOME IN MARSHFIELD FRIDAY

Mrs. Virginia F. Lyons Was One of the Pioneer Citizens of Coos County.

Mrs. Virginia F. Lyons, one of the old and respected citizens of Coos county, died at her home near Marshfield May 10, 1907, at the age of 77 years, 4 months and 20 days. The body will be buried Sunday at the family burying ground at Scottsburg, Douglas county, by the side of her husband and five daughters, the body being taken from here at 3 o'clock this morning.

Virginia Fayette Putnam was born in Lexington, Kentucky, December 20, 1829. She was married June 20, 1849, to D. J. Lyons, who died about twelve years ago. In 1853 Mrs. Lyons accompanied by her husband, removed to this state, where she resided continuously until time of death. Mrs. Lyons was the mother of eight daughters, three of whom are still living. They are Mrs. T. M. Dimmick and Mrs. Rose Arrington of this city, and Mrs. Lillie Peterson of San Pedro, California.

### MOYER FORMER CONVICT.

(Special Times Dispatch.)  
Chicago, May 10.—The Journal today prints a long story in which it is alleged that Charles H. Moyer, president of the Western Federation of Miners, who is about to be tried at Boise, Idaho, for complicity in the killing of Former Governor Steunenberg, served as a convict in the Joliet penitentiary in this state in 1886 and 1887. The date of his discharge is said to have been January 4, 1887. The story, apparently, is a very circumstantial one, dates and incidents being given with explicitness and confirmed by police authorities and penitentiary officials.

## FRENZIED MOB STORMS JAIL

Seek Revenge For Shooting Of Cole? Suspected Bandit, By Butte Patrolman.

## BROTHER LED THE MOB

Man Shot Thought to Have Been Implicated in Hold-up of North Limited.

Butte, Mont., May 10.—Patrolman Charles Jackson tonight shot and killed Harry Cole, later an angry mob of 5,000 people led by the brothers of Cole made an ineffectual attempt to lynch Detective Charles McGarvey, the crowd laboring under the impression that McGarvey did the shooting. Cole was arrested by McGarvey on a forgery charge, and was suspected of being one of the bandits who several days ago held up the North Limited near Welch's spur, killing Engineer Clow and wounding Fireman Sullivan.

Cole's brother, George Cole, is now serving sentence at Deer Lodge penitentiary for the robbery of the Burlington Flyer near here two years ago. Harry Cole was arrested tonight and while being sweated he defiantly declared that he knew all about the holdup of the Limited, and then made a dash for the door and ran down an alley leading from the police station. Jackson, who witnessed the attempted escape, shot and killed Cole.

The mob gathered under the impression that McGarvey had killed an innocent drunk. Led by Cole's brother, Timothy, the mob went to the county jail and attempted to force its way past the armed officers. Inside the jail were other armed officers. A rope was secured, when Deputy Sheriff Wyman stopped the leaders and told them that McGarvey was not inside the jail. He offered to let them search and they accepted without result. Timothy Cole addressed the mob, asking revenge, and on the way to the police station several thousand more joined the mob. With drawn guns the officers prevented the mob from searching the station and the crowd made its way to Sunstone, where it secured guns, but for some reason no ammunition was obtained. The mob leaders declare they will have the life of Cole's slayer. If an attempt is made to raid the city or county jails blood will be spilled, as the officers are not in a mood to surrender to the rioters.

The police restored quiet at 11 o'clock tonight and arrested Timothy Cole and a youth named Flynn, who carried the rope, and a man named Sullivan and a cousin of Cole. They were released after the mob dispersed.
