

# PAY TRIBUTE TO COOS BAY

### Minnesota Night Program Before Chamber of Commerce Last Evening.

The "Minnesota Night" program before the Chamber of Commerce Friday evening was one of the most entertaining that has been given before that organization. In addition to the regular program, Joaquin Miller, "The Poet of the Sierras" was present and spoke briefly. Those who participated in the "Minnesota Night" program were Mrs. Hall, John D. Goss, Isaacson Brothers, Frances H. Clarke and a chorus of the younger members of the Minnesota colony. Dr. J. T. McCormac presided. While the speakers of the evening paid every tribute possible to Minnesota, it was always done in drawing a parallel to Coos Bay and showing how this section of Oregon might duplicate or exceed the progress that has been made in the gopher state in recent years.

#### People Must Act.

John D. Goss said that the remarkable development of Minnesota had been due entirely to the efforts put forth by its citizens along commercial lines in general and in railroad building in particular. He declared that it was transportation that made Minnesota what it is today. He said that Coos Bay and Oregon boosters spent much time in telling of the wonderful natural resources of this section and in this connection he wanted to tell them that they could talk of these self same wonderful natural resources until time immemorial but the present inhabitants and the rest of the world would not get any benefit from them unless someone got busy and arranged for their development. He thought that better transportation facilities was the great need of this section. He said the people could hasten it and may be some one might take the initiative and build railroads like A. B. Stickney or J. J. Hill did in Minnesota. Unless something is done by the people themselves, he thought that the future might witness a duplication of the experiences of a pioneer at Port Orford. He said that he had met the old gentleman recently in Curry county and asked him how long he had lived there and what he had been doing and the answer was that he had been there thirty-six years and had been waiting for a railroad to come. The railroad hasn't reached Port Orford yet and there are no indications of its coming immediately.

#### Coos Bay's Future.

Frances H. Clarke told of the development of Minnesota and the growth of its cities and towns. He called attention to the fact that Minnesota and Oregon had been admitted to the Union together fifty years ago. The great distance that separated Oregon from the world's market had prevented its development but Minnesota being in the path of the growth of the United States had profited thereby. He said that the next twenty-five years was certain to see a greater development in Oregon than the last twenty-five years had witnessed in Minnesota. The building of the Panama canal, he believed would be a great factor in furnishing a market for the products of Oregon and in developing commerce on the Pacific coast. Coos Bay with its wonderful harbor, natural resources and the great possibility of the development of agriculture and fruit growing in the fertile lands that surround is bound to enjoy a large portion of the fruits of this growth. Mrs. Hall's story of the pioneer days in Minnesota was a clever tale of the usual experiences in the early days of the west.

The mandolin selections by the Isaacson boys brought hearty applause and encores from the audiences that filled the hall.

#### Likes the West.

Joaquin Miller paid a pretty tribute to Oregon. He said that in the past quarter of a century he had travelled far and wide throughout the world but in all his travels he never found a place that he would rather make his home than in the west. He said that he was a native of Oregon and always considered Oregon his home as he had been a tax payer in this state ever since he could remember. The natural beauties of the country appealed to him even more than the commercial possibilities.

# BASEBALL TO OPEN SUNDAY

### All in Readiness for Season's Play—Bandon and Coquille Tilt.

Everything is in readiness for the opening of the Coos County Baseball League season next Sunday, North Bend playing Marshfield at Marshfield and Coquille playing Bandon at Bandon. All of the teams have been practising more or less and will be in shape to put up good ball, it is believed, from the start.

Manager Arthur McKeown is enthusiastic over the prospects for Marshfield. A few days, a subscription list was circulated among local business men and about \$500 was promised, some of the pledges made by saloonmen being conditional on the outcome of today's election. He is having the grounds and grand stand put in the best condition they have ever been in. The suits for the team have arrived.

Saturday, the management of the Bandon and Coquille teams got into a tilt that threatened for a short time to disrupt the league. The Coquille management claimed that Bandon was importing a half dozen or so fast players from California. The matter was finally adjusted and all is moving serene now.

Manager McKeown of the Marshfield team proposes to put its affairs on a business basis. In order to this, he has issued notice that the Marshfield baseball association will not be responsible for any debts contracted except on a written order from himself.

#### Revised Schedule.

The baseball schedule, which was revised on account of the bad weather necessitating a postponement of the opening, is as follows:

At North Bend—Bandon June 26 and August 9; Coquille, July 26 and August 23; Marshfield, June 14, July 5 and August 30.

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that I kept it in stock and lost no time in obtaining it, and was promptly cured," says M. J. Leach, druggist of Wolcott, Vt. For sale by JOHN PREUSS.
