

# Malthoid Roofing

Mr. A. L. Baird, Gen. Mgr. Princes Court Proprietary, Limited, Melbourne, writes as follows: "I have much pleasure in informing you that the Malthoid lining of our Chute Lake has proved, after three months' severe testing, highly successful, and, as far as I can judge, is entirely watertight, the only loss of water appearing to be from evaporation and splashing."

### The Conveniences of Electricity

In the house are manifold. It is not only for illuminating and cooking purposes, but for the quick and clean performance of other household duties—such as ironing, for instance, that electricity is desirable. With an electric chaffing dish delicacies can be literally "made in a minute." With electrically heated irons your laundry work is done expeditiously and in a most cleanly manner. We install electrical apparatus everywhere.

### The Collar Question

Do you get the satisfaction your money ought to bring when you have your collars or cuffs laundered? Are the edges smooth? Are the folds or points neatly turned? Is the color a delicate, pearly white? Is the finish that soft effect so much preferred by fastidious dressers? We succeed in all these things. Surely our work is worth a trial. You will be a steadfast patron.

**To Restrict Hunting.**—Local nirods are talking of presenting a petition to the Oregon Legislature to enact a law that will prohibit wild fowl hunting on the bay in gasoline boats. They claim that the continual chasing of the ducks by the gasoline boats not only makes them wild but by preventing the birds getting a rest and time to feed results in their migrating to other feeding grounds.

**Huntley Visits Here.**—Jeremiah Huntley was in the city today on business and visiting friends who are congratulating him on being acquitted by the jury in the federal court at Portland where he had been on trial in connection with the land fraud case of the Pacific Furniture & Lumber Company. yesterday and will sail today for Bay City with lumber from the C. A. Smith mill. She will not have any passengers down this trip.

**Lodge Is Surprised.**—The Modern Woodmen of America were given a great but pleasing surprise last evening when their auxiliary organization, the Royal Neighbors swept in on them and entertained them at a spread. The lodge work was progressing nicely when Sentinel Geo. N. Bolt was called to the door by a gentle, gentle tapping that became almost a knocking, knocking while he waited a moment and peep through and see who was there. About thirty of the Royal Neighbors brushed him aside and filed into the lodge room while the astounded Woodmen were hastily putting away their paraphernalia. The new comers informed the Woodmen that if they would adjourn, all would partake of a feast that the Royal Neighbors had prepared in the banquet hall. It is needless to say that lodge work was postponed for a week. After the spread, all united in games and other diversions.
