**BOSTON AND NEW YORK TO HAVE A DAILY BALLOON SERVICE—ESTIMATES 1000 WILL MAKE VOYAGES IN 1939.**

**BOSTON, Dec. 8.**—Charles J. Glidden, the millionaire autoist and aeronaut, announces the completion of plans for an aerial line between this city and New York, a distance of 220 miles, to be equipped with eight balloons and to be in daily operation after May 1.

The Aerial Navigation Company has leased two acres of land in Newton, six miles out, says the Globe, and has secured landing privileges on Commonwealth avenue, near the Allston Golf club, which is right in the heart of the best residential section.

The building to house and inflate the dirigible will be erected on the Newton Center lot, but with the passengers, the dirigible will sail over the Charles river to the temporary landing place.

The company's experts are working on the details of the contract submitted by Captain Baldwin, who built the dirigible for the United States government. He promises the delivery of the dirigible not later than May 1 and will make the initial trip personally and instruct an operator.

With eight spherical balloons and one dirigible in service in Massachusetts it is estimated that 1000 persons will make aerial voyages in 1939.

**DESPITE RELATIVES AND THE COURT, EVERGREEN MR. CATLIN FINDS FIFTH MATE.**

**TORRINGTON, Conn., Dec. 8.**—Henry H. Catlin, seventy-five years old, was a widower four times over; four times he had been bereaved of "the dearest woman in the world." But he cannot shake off the habit of falling in love. Such has been his weakness for marrying that his relatives and friends had the court appoint a conservator of his person and estate lest he give away everything he owns in a foolish moment.

The stingy court allowed Mr. Catlin \$25 a month, which is not a fortune even here. Nevertheless, he kept his unalterable purpose in mind; he yearned for a fifth wife and he meant to take her; his desire to round out a quintet of helpmates never faltered. His prodigality of love made him miserly of money; he stinted himself; out of his meagre income he saved enough to set up housekeeping in a modest way.

Then he advertised for a wife. Once he travelled to the Isle of Pines, once to Montreal, once to New York State to answer in person letters he had received from ladies inclined to matrimony. One coldly told him she had two grand-fathers, the number nature allows. The Canadian lady, more flippant, retorted to his pleadings that her fad is to collect coins, not fossils. The York State woman rejected him because, she said, he is not as good looking as he advertised.

But Hope sprang eternal in Catlin's evergreen breast. Recently he got an answer to his "ad." from Mrs. Betsy Baker, who dwelt in Portland, Me. Thither Catlin hastened.

O, joy. He found that, if he were Adam, Betsy Baker was his Eve; if he were in the front row she was the whose chorus; she was his true affinity; his soul-mate. Mrs. Baker, of Catlin's age precisely, has been widowed thrice. It was love at fourth sight for her. At fifth for Catlin. They were married and have come to Torrington.

"I am very happy," said Catlin today. "I do not have to say now, of course, but I will petition the court to grant me a larger allowance."
