Bayonets.

(By Associated Press.)

CONSTANTINOPLE, April 14.—Constantinople is quieter this morning after the exciting occurrences of yesterday and business is being gradually resumed. A majority of the garrison, however, still occupies a position in front of the Chamber of Deputies and the War Office where it awaits the formation of a new cabinet. The night, however, was one of alarm. The troops have been granted practically all their demands, including the dismissal of the Grand Vizier.

Late this afternoon detachments of sailors, came ashore to join the mutineers and the panic among the people was renewed in increased proportions. Bands of soldiers and other malcontents are parading the streets of Stamboul and Pera, two principal quarters of the city, with fixed bayonets. Rapid-fire guns have been mounted on Stamboul bridge.

There was no official announcement today regarding the formation of a new cabinet.

TAFT'S SUMMER HOME BEVERLY

President Leases Evans's Cottage at Woodside Point, Mass., For Season.

(By Associated Press.)
WASHINGTON, D. C., April 14.—

Official announcement was made at the White House today that President Taft has leased as a summer home the cottage of D. Evans at Woodside Point, Beverly, Mass.

Lindebeck and Holm were ordered paid \$200 on their Prospect avenue contract. Hagquist and Bjorqvist were ordered paid \$300 on their Prospect avenue contract.

J. A. Helm was ordered paid \$76 for extra work on the Broadway contract.

Hugh McLain was ordered paid \$350 on his Baltes street sewer contract.

City Engineer Sandberg was requested to furnish a list of street names so that the street signs can be put up promptly.

Councilman Nelson reported that he expected to have a dredge at work this week to fix up the East-side ferry slip.

Street Sweeper's Pay.

There was quite a long argument over what the city should pay the street sweepers. They have been receiving \$2.00 per day but one of them wants \$2.50. Councilman Nelson said that \$2 a day was sufficient. Councilman Albrecht said that \$2.25 per day was the prevailing price of common labor and he thought the city should pay that much. Tom Coke said that he wished the city was able to pay \$4 a day for the work.

Councilman Savage said that \$4 was more than a man could earn at that kind of work in eight hours. He said he personally would be glad to take the job at \$4 per day.

It was finally left to the street committee to decide how much should be paid.

Old Bill Unsettled.

Hugh McLain wanted to know what the council had done about paying the balance on his contract for constructing the Cedar street improvement. He said that owing to some of the crossings not having been put in, he had agreed with a committee of the council to take \$400 in full payment of his claim and to accept it in a general fund warrant owing to the difficulty that was being encountered in collecting it.

Councilman Albrecht said that if Sacchi hadn't interfered, the Cedar street property owners would have paid their deficit assessment in full.

NO ACTION WAS TAKEN ON IT.

Want to Know About Nightwatch.

Councilman Coke wanted to know if it was true that a second nightwatch had been employed by the city. President Savage said that he didn't know that there had been. No one else appeared to know about a second man having been put on.

Councilman Albrecht said that inquiry had been made in order that the council might have an opportunity of knowing about the matter as he said it had been reported that a second man had been appointed. He said that when a bill for a second man should come in, it would not be paid.

Roused from their slumbers at an early hour this morning by the alarm of fire, seventy-five guests at the fashionable Keilworth Inn, three miles from this city, barely had time to don scanty articles of clothing and make their escape from the burning building. Several persons were injured by jumping from windows. The loss is estimated at three hundred thousand dollars.

LOCAL NEWS BRIEFS.

Want Night Watch.—Some of the front street property-owners and merchants will hold a meeting at the Chamber of Commerce Thursday evening to discuss the advisability of securing a special nightwatchman for that district. They believe that another man is needed to properly guard their stores from robbery and the danger of fire.

Left On the Alliance.—Besides those on the list of the outgoing passengers of the Alliance as printed in The Times yesterday, the following caught the steamship just before she sailed for Portland: Wm. Olson, W. G. Pefkins, Gertrude Sharp, E. M. Ward, I. A. Bono, J. Hanna, W. Hanna, C. L. Warner, Geo. Winkler and wife and four children, Dr. Watson and six steers.

Completed June 1.—Contractor Horn of North Bend, who has the contract for the construction of the Oregon Coal and Navigation Company's new warehouse, was in Marshfield today arranging to begin driving piling. About five hundred piling will be driven and two pile drivers will be kept busy. The building is to be completed June 1 instead of July 1 as has been erroneously stated. The contract provides that Mr. Horn is to receive a bonus of \$10 per day for each in advance of that date that he completes the structure and is to pay a penalty of \$10 per day for each day after June 1 that he requires to complete the structure.

APRIL JURORS ARE SUMMONED

Sheriff Gage Summons Thirty-One For Coming Term of Court.

Sheriff W. W. Gage is serving the summons for the jury panel for the coming term of court which will convene at Coquille April 26. Judge Coke will be present a couple of days earlier to dispose of motions and clean up some of last term's calendar. A grand jury will be drawn from the thirty-one summoned for jurors.

There are no important criminal cases to come up this term unless District Attorney George Brown should renew his efforts in the J. C. Wilcox matter, Wilcox having had the previous conviction and punishment set aside through the Oregon Supreme Court and Gov. Chamberlain. A number of damage suits are to come up so that the term will probably last about two weeks.

The recent suits which R. A. Graham started against the Coos Bay-Roseburg and Eastern railroad will probably not come up for trial at this term. Owing to Judge Coke having been named as one of the defendants, it will be necessary to have another judge sit during their trial.

The following are the jurors drawn for the term:

J. B. R. Shelton of Coquille; J. A. Yates of Coquille; H. L. Carl of Norway, Victor Anderson of North Bend, S. C. Bradon of Myrtle Point, Wm. Hamilton of Arago, S. B. Cathcart of Marshfield, Robert Marsden, Jr. of Marshfield; Richard J. Coke of North Bend, F. A. Walker of Coquille, Hayes Temple of Marshfield, A. E. Simpson of Coquille, C. H. Jackson of Marshfield, Wm. Wheeler of Coquille, J. W. Catching of Sumner, H. C. Noble of Marshfield, Thomas Guerin of Myrtle Point, Nels Rasmussen of Marshfield, Frank Burkholder of Coquille, Lee Goodman of Coquille, F. P. Norton of Marshfield, G. W. Tribby of Marshfield, Lawrence Jennings of Remete, H. E. Wilcox of McKinley, W. H. Morgan of Marshfield, C. W. Wolcott of Marshfield, A. J. Savage of Marshfield, John Hickam of Coquille, Albert Garfield of Bandon, Thomas Anderson of Bandon, A. H. Stutsman of Marshfield.

RIVER STEAMER SUNK.

Many Have Narrow Escape On Ohio River.

(By Associated Press.)

PITTSBURG Pa., April 14.—Following a series of accidents and tempestuous voyage the steamer Virginia, Cincinnati to Pittsburg was finally wrecked last night in the Ohio river near Wellsville, Ohio. The boat, the largest plying on the upper Ohio, went down after striking a rock and tearing a large hole in her hull. The passengers, numbering fifty, highly nervous as a result of minor accidents earlier in the evening became panic stricken and with difficulty the crew of seventy-five men restrained them. Although handicapped by darkness and a high wind, and drenching rain, the crew managed to place the passengers safely in boats and put them ashore. From there they were taken scantily clothed to a fire at the engine house in Wellsville, Ohio, and later to a hotel. The passengers were brought to this city today by railroad none the worse for the experience except being greatly excited.

City Council There Will Decide at Special Meeting Thursday Night.

WILL DO SO IF THERE IS LEGAL WAY

Adopt Ordinances Licensing Vehicles and Amusements There.

The North Bend city council at its regular meeting last night instructed City Attorney Maybee to make a written report to a special meeting to be held Thursday night on the legal rights of the city to erect and maintain a warehouse and public wharf. This action was taken owing to the likelihood of there being considerable delay in the rebuilding of the warehouse which was destroyed by fire last week. A committee was appointed to confer with the Simpson Company regarding their plans and will also report at this meeting.

The council also provided to connect up the salt water fire protection mains with the North Bend Manufacturing Company's system. They also arranged to co-operate with the North Bend Lumber Company in extending a fire main to deep water in the bay. Furthermore, they appropriated \$300 to purchase a fire-alarm bell for North Bend.

During the early part of the session, Recorder Derbyshire and Councilman Loggie had a rather warm tilt over the records. Mr. Loggie did not want the records to show certain developments in the last meeting and made a motion that it be stricken from the records. The motion carried but Mr. Derbyshire refused to alter them, declaring that he had recorded the proceedings truthfully and carefully and that they must remain that way. After he had explained the matter, the council passed a motion adopting the proceedings as read.

An ordinance licensing drays and all vehicles for hire was adopted. It provides a license of \$20 per year for two-horse vehicles and \$12 per year for single-horse vehicles.

An ordinance licensing all shows and attractions except those conducted by North Bend organizations, was adopted. The ordinance provides a daily license of from \$20 to \$50 for circuses, \$5 per day for freak shows \$3 per night for theatrical performances, \$60 per year for moving-picture shows, \$30 a year for museums, \$1 per day for merry-go-rounds, \$1 per day or \$7.50 per quarter for shooting galleries and \$5 per day for all other attractions.

An ordinance providing an annual license of \$2 and \$3 for dogs was adopted.

The street committee was instructed to secure plans and specifications for opening Washington street forty feet wide to the water front and also to connect up Stanton avenue and Washington street. Meade avenue was ordered graded between Connecticut and Montana streets.
