Bees Swarm Early.—W. A. Roselle of Bridge, has a colony of bees which swarmed on the 17th of this month. This is said to be the earliest bees have been known to swarm in this part of the state.—Coquille Herald.

May Buy Enterprise.—Jas. Hayes, the veteran net knitter who has spent several years plying his trade for the late R. D. Hume, was in Port Orford Sunday night on his way to Wedderburn, where he says he is going for the purpose of endeavoring to purchase the gasoline schooner Enterprise.—Port Orford Tribune.

To Engage In Business.—H. W. Painter who has been connected with the F. S. Dow Commission Company for some time has resigned and will represent a number of Portland firms on the Bay, selling at wholesale only. As he has secured some good lines, the success which his friends wish him is practically assured.

Boy's Hard Luck.—Earl Schroeder, eldest son of Mr. and Mrs. W. H. Schroeder, of this city, had the misfortune to fall and break his left thigh bone last Friday. This is the third time the limb has been broken in the same place in about two years. He has the sympathy of many friends in his afflictions.—Coquille Sentinel.

News From Fight.—John Herron received a telegram Saturday night late, from Gene Sullivan announcing the results of the go at Colma, Cal., on Friday night in which Chick Hudson won over Johnny Murphy and Montana Jack Sullivan won over Al. O'Neill. The telegram also stated that Krant, a boxer that Herron is trying to match against Lupie Carranza, is a good man and puts up a good fight.

Meets Accident.—S. C. Rogers met with an unusual accident last week which will compel him to use crutches for a time. He was pumping water from the scow and had a plank placed between the launch and the scow when a heavy swell raised the launch and plank and let him down very hard. The jar strained

some tendons and settled in the right foot resulting in a painfully swollen member making crutches necessary.

Wilhelmina Sails Tomorrow.—The Wilhelmina leaves tomorrow for Bandon with a good cargo of freight included in which will be an engine for the Cody mill that weighs 30,000 pounds.

New Priest Takes Charge.—The Rev. Father J. Moran yesterday assumed the pastorate of St. Monica's Catholic church. In taking charge, he took occasion to pay a handsome tribute to the work of the Rev. Father E. Donnelly, the retiring pastor. During the month of May, he announced that special services would be held each Friday morning and each Sunday evening in addition to the regular services.

Eagles Memorial.—Marshfield Aerie of Eagles held its annual memorial exercises at the Marshfield cemetery yesterday afternoon. The Eagles Band under the direction of George McCutcheon furnished the music while the ritual was read by C. C. Going, the chaplain of the Aerie and special addresses were delivered by C. A. Howard and Wm. Holland. There was a large attendance. The graves of seven members, the departed brothers of the Aerie, were decorated at the conclusion of the ritual program.

Play Here Two Nights.—The Coos County Stock Company will play here Friday and Saturday nights this week instead of the regular one night stand. Friday night, they will put on a Coos county play "In Old Coos County" in which the characters will be taken from Coos Bay, Coquille, Myrtle Point and Bandon and W. V. Mong says it is bound to make a hit. Saturday night, they will play "Comrades." Last Saturday night, they presented "The Failure" to a fair sized audience at the Masonic and the production was one of the best ever seen on the Bay, deserving of a much better attendance than was accorded it. Ashley Cooper who came here to join the Keane Company took part in the play Saturday night, taking the place of Harry E. Deputy who was called to Eugene by the illness of relatives.

Go Deep Sea Fishing.—Twenty-five or thirty Marshfield men yesterday tried deep-sea fishing and according to all reports, the deep-sea fish got more of them than they did of the deep-sea fish. They started about 6 o'clock on the launches Fish and Coaster. Although it was a beautiful day and almost perfectly calm, everyone of them with possibly two or three exceptions got the worst attacks of seasickness that they ever experienced. They were so sick that they didn't try to fish at first and then the fog came in and made it impossible for them to do so. Some of the Coaster party succeeded in getting off at Big Creek and walked back in rather than to face the ride over the bar again. If you want to know how sick they got ask Wm. Ekblad, George Goodrum, O. L. Hopson, P. Tully, Chas. Hunter, W. F. McKee, or any of the party.

LITTLE TALKS

ABOUT TOWN

A GRIST OF COOS BAY GOS-SIP GATHERED HERE AND THERE ABOUT THINGS OF PASSING INTEREST.

"Did you ever notice how a woman strikes a match?" remarked Frank Parsons as he applied a diminutive fire stick to his after-dinner cigar. "Just watch the next time you see a woman lighting a match and ten chances to one she will strike it away from her. Men always strike matches toward them. It is tobacco that causes the difference between the sexes in match striking," he said. "All of us unconsciously strike matches toward what we are going to light. Woman always is going to light a lamp or a fire; that is further off than the match, so she strikes her match away from her. But man is always going to light a pipe or cigar, that is nearer, so he strikes his match toward him."

"Why don't some of you Coos Bay boosters agitate and invite the Milwaukee road to Coos Bay," remarked a traveling man at the Chandler today. "Do you know," he continued, "that the Chicago, Milwaukee & St. Paul railway is numbered among the great transcontinental lines of the country, as a result of its extension to Tacoma, Wash. This gives the road a total mileage of 9,000 miles and it is thought that the rapidity of construction of the new link in the system has established a record. Work was begun just three years ago and in that time 1,400 miles of track has been built, which called for the excavation of 60,000,000 cubic yards of material, the driving of 350,000 yards of tunnels and twenty miles of bridges built, with the laying of 200,000 tons of 85-pound rails. The total cost has been \$85,000,000."

"I see," remarked a traveling man at the Chandler today, "that your City Marshal pays five cents each for rats. Did you know that the United States Biological Survey, which is taking especial notice of the damage done to property by rats, estimates it at high up in the millions of dollars annually in this country, thinks that the problem of the extermination of the pests may be solved, if the use of rat skins shall become more general. The Survey reports from England to the effect that in London alone rat skins to the value of \$200,000 are annually utilized in various industries. Sanitary measures taken by Denmark and Great Britain for killing off the rodents have led to the use of their skins in many ways, among them for bookbinding, photograph frames, and for thumbs for ladies' gloves. To such an extent has the demand grown that many persons have been earning as much as 90 cents a day in capturing the rats. The Survey had already proposed a vigorous campaign for this summer against rats as destroyers of property and as carriers of disease, and the industrial utilization of the skins is welcomed as an effective ally."
