Steamer Minnehaha Strikes on Submerged Rocks in English Channel. CITY-SIX PASSENGERS ARE TAKEN TO SAFETY

Fishing Boats Make Way To Her through Fog—Name-sake Lost Same Place (By Associated Press.)

HUGHTOWN, St. Mary's Scilly Islands, April 18.—The Steamer Minnehaha of the Atlantic Transportation line struck the submerged rocks near Bishop Rocks at two o'clock this morning. Her passengers were removed in safety. The vessel is badly damaged. The Minnehaha, from New York for London, was feeling her way cautiously into the English channel in a dense fog that obscured the light of Bishop Rocks and ran too close to the dangerous Scilly Islands and struck. She carried 66 passengers who were considerably alarmed but the officers and crew prevented a panic. Wireless calls brought a fleet of fishing boats to the scene which took the passengers and landed them at Bryher where a boat is expected to take them to the mainland, and thence by train to London. The Minnehaha struck almost in the identical spot that her namesake a sailing ship was driven ashore.

RAMONA TAKES OUT FULL LIST

Steamship Sails Sunday For Portland With All She Could Carry.

With a capacity passenger list and a fair cargo of freight, the Ramona sailed from here for Portland early yesterday morning. The vessel was unable to carry all who desired to sail on her.

The Ramona will make one more round trip between here and Portland before she will be replaced by the Breakwater which will sail from San Francisco for Coos Bay a week from today.

Among those sailing on the Ramona were the following: Capt. J. Moomaw, Mrs. Moomaw, F. Juz, F. K. Hamilton, F. E. Hall, R. A. Harrison, R. Harrison, A. L. Smith, G. A. Perry, F. E. Klise, Rev. NEW CITY HALL IN MARSHFIELD

J. W. Bennett and Mayor Straw Point Out Necessity Of It.

The question of erecting a new city hall in Marshfield which has been talked of more or less for the past couple of years promises to be brought up for definite action in the near future; J. W. Bennett in a letter to Mayor Straw the other day called the city executive's attention to the matter. Concerning his view of the matter, Mr. Bennett writes as follows: "Kindly permit me to call your attention to a matter which suggests itself more forcibly to my mind recently than formerly and that is that the population of Marshfield and the valuation of the property therein and the amount of the City business has outgrown the present City Hall and in case of a fire it is probable that it would be almost impossible to save papers now in the wooden structure, which ought to be in a fire proof vault.

"My idea would be for you to call attention of the council to the matter and get plans and specifications prepared with the view of determining the cost and be ready to submit the proposition to the voters, as I presume will be necessary, in order to procure the necessary money.

"A city hall will have to be built whether by a direct tax or an issue of bonds, is yet to be determined, but I presume the issue of bonds for enough to pay for it would be the easiest way as there are so many improvements to be made in a new town like this.

"Any way, an inspection of the present building and the way the papers and books of the town have to be kept, will satisfy any one that a more suitable and modern building for the city officials is absolutely necessary."

Mayor Straw's View.

Mayor E. E. Straw replied to Mr. Bennett as follows:

"Your letter of April 14th duly received. Replying to same will say that since the matter therein contained is of a public nature I shall ask your permission to have the letter published in full. My object in doing this is to bring the matter before the tax payers and citizens of Marshfield.

"The proposition of building a city hall has been more or less discussed by the members of the council recently, but so far nothing definite has been decided upon. There is absolutely no question in my mind as to the advisability of immediately commencing to make the improvement you have so timely suggested and I feel that if all of the tax payers in Marshfield were familiar with the situation they would petition the council to call a special election for the purpose of voting an issue of bonds to secure the necessary funds. "Assuring you that I appreciate the interest you have taken in this matter, and trusting that you will use your influence to further this plan, I beg to remain, Yours truly, E. E. STRAW."

BIG BOUT NEXT SATURDAY.

Advance Sale of Tickets for Neill-Day Contest Large.

More interest is being manifested in the twenty round boxing bout between Al Neill and Jess Day which will be pulled off at the Marshfield Skating Rink next Saturday night than in any event that has ever been pulled off on the Bay. Both contestants are well known here and are apparently evenly matched so that the exhibition should be far the best ever seen in this section. The advance sale of tickets is reported by the Bell Cord to be large and the choice seats are going rapidly. Reserved seats are selling for \$3 and general admission for \$2.

NEW COMPANY GETS THE SURVEY SOUTHERN PACIFIC MAIL TRAIN

Coos Bay, Oregon and Idaho Railway Becomes the Coos Bay and Oregon Central Railroad Company.

The survey of the Coos Bay, Oregon and Idaho Railway has been transferred to another company, according to the Portland Telegram. Beyond the transfer of the survey to a newly incorporated company, little new is told in a lengthy article concerning the project in that paper which tells of Chief Engineer Haines' previous connection with and the subsidies that he may represent the Northwestern or some other big system. Pres. Francis H. Clarke of the old company is now en route to Portland but before leaving Mr. Clarke did not mention the transfer or intimate that any change would be made that would affect his connection with the road. Concerning the matter, The Telegram of Saturday says in part:

"Articles of incorporation were filed at Salem today, for the Coos Bay & Oregon Central Railroad Company, capital \$4,000,000. The purpose of the organization, as set forth in the articles, is to build a rail line

between Coos Bay and Boise, Idaho. C. F. Hendrickson, Sam Connell and J. H. Cole, all of Portland, appear as the incorporators.

"Further than this, the record shows nothing and the participants in the new enterprise say little. But it has been learned that an actual survey has been made from Coos Bay to Roseburg, and it is also rumored on the basis of good authority that preliminary surveys are being pressed up into the Cascade mountain range. It is also known definitely that Engineer F. A. Haines is in charge of the preliminary work, and that this new company has taken over the rights and interests possessed by the Coos Bay, Oregon and Idaho Railway, which has been busy for the past year in the reach between Roseburg and Marshfield.

"None of the incorporators for the new project will discuss the possible backing. They cannot build the line, it is conceded, and they have no local connections capable of doing anything effective, but it is explained that a representative of the company will go East at once and make such arrangements as are necessary to have active construction work to commence this summer."

PLANT SAILS SOUTH TODAY

Steamship Leaves For San Francisco With Large Cargo This Morning.

The M. F. Plant sailed at 6 o'clock this morning for San Francisco, having been delayed by an unexpectedly large cargo of freight. The cargo was the most general one that she has taken out in a long time. She had a good passenger list, a number boarding her at North Bend just before she sailed and whose names could not be obtained here.

Among those sailing on the M. F. Plant were the following:

A. Gundelfinger, E. C. Walrath, A. Dewitt, R. W. Hume, Miss Cooper, Mrs. Pollock, Master H. Smith, Mrs. H. F. Smith, Edna Dean, Geo. P. Smith, Mrs. Smith, A. Simpson, J. F. Coakrel, Mr. Hahoney, G. C. McAtee, R. C. Edwards, D. E. Jones, G. Stewart, Mrs. G. Stewart, H. McLain, L. H. Tennison, Chas. Olson, E. Otteson, Geo. Bammell and Mr. Johnson.

DISGRACED AND LOSES WEALTH

Capt. Carter Who Was Mixed In Savannah Frauds Penalized Again.

(By Associated Press.) WASHINGTON, D.C., April 18.—Dismissed from the United States army put into the penitentiary for his alleged connection with the fraud on government in the improvement of the harbor at Savannah, Ga., former Captain Oberlin M. Carter had a \$400,000 fortune swept out of his hands today as a further outcome of that transaction. This is the result of a decree by the United States supreme court.

The decree is based on the claim against Carter for an equitable accounting of the money he had got fraudulently. The government claimed it had lost \$2,000,000 through the manipulation in connection with the contract and that of this amount Carter got one-third. The suit was to obtain real estate, securities, in which it was claimed the money was invested. Suit was commenced against I. S. Carter, a brother, and Robert F. Westcot, his father-in-law, for the recovery of property "screened" by them. Today's decision was against them and the property will now revert to the government.

DOE TO GET LOCAL LEASE

Rumor That North Pacific Steamship Company Will Take Alliance's.

It was reported here today that Chas. P. Doe of the North Pacific Steamship company is figuring on taking over the warehouse leases of the Alliance people in Marshfield with a view to putting on regular steamship service between here and outside points. The rumor could not be confirmed, Roger Sherman, the local representative of the Alliance people, saying it was all news to him.

However, the Newport, one of Doe's boats, will make her first trip here from Portland April 25. It was originally announced that the Newport would ply direct from Coquille to Portland but this plan appears to have been changed. This together with the report that the Alliance is to be chartered by Doe to take the Santa Clara's place causes many to place credence in the report of Doe's taking over the local warehouse. He already owns the Coquille river lines.

LAND CASES UP NEXT MONDAY

Government Will Try to Cancel Part of C. A. Smith's Timber.

PORTLAND, Ore., April 18.—The second greatest suit brought in the state to restore to public entry lands alleged to be wrongfully withheld, will open in the Federal District Court today. Three cases are to be tried, Frederick A. Kirbs and other associates will be asked to surrender title to about 57 timber claims, most of them situated in Linn county embracing an acreage of approximately 9120, which would probably cruise 450,000,000 feet of timber or more.

Ex-Senator John M. Gearin, local attorney in the case, has introduced as his associate counsel ex-Governor Lind, of Minnesota, and announced that today counsel would be ready to argue a pending preliminary motion. Trial of the cases on their merits is scheduled to follow immediately. As it is not a jury hearing, it is probable that all can be heard within six or seven days.

The case hinges on the point whether the present owners had guilty knowledge of fraud when the locations were first made. Several cases involving title to lands Kirbs holds have already been tried, and he has won more than he has lost. S. A. D. Pater and all of the old ring that figured in the Heney prosecutions are expected to appear as witnesses.

GOT FIVE SACKS OF REGISTERED MAIL

Gang Thought to Have Occupied Cabin Near Scene For Three Weeks.

(By Associated Press.)

SAN FRANCISCO, April 18.—Up to noon, no clue to the whereabouts of the daring bandits who held up train No. 10 on the Southern Pacific a few miles east of Benicia Saturday night securing five sacks of registered mail, had been discovered, although the hills in Contra Costa county between Martinez and Oakland in which they are thought to be hiding swarmed with armed men. It is believed the pursuit is converging toward the base of Mt. Diablo east of hills back of Oakland. There is little doubt the unknown men who lived near Martinez for three weeks prior to the hold-up and in whose cabin a dynamite fuse was found are the bandits. Two suspects are under arrest at Benicia but they tell a straight story and detectives do not believe they are implicated. They will be held for further investigation. There is nothing definite as to the exact number of robbers engaged. Railroad officials believe there were three.

L. W. MAUZEY DIED SUNDAY

Well Known Marshfield Man Succumbs to Long Illness.

Levi Wilcoxon Mauzey, a well known resident of Marshfield for the past twenty years, died at his home here yesterday after a lingering illness of a complication of his due to his advanced years. Death was not unexpected but it came as a shock to the many friends he had made during his residence in this section.

The funeral will be held at 2:00 o'clock Wednesday afternoon from the Marshfield Baptist church. The casket will be open from 1:30 to 2 o'clock at the church for friends who wish to view the remains.

Levi Wilcoxon Mauzey was born in Jamestown, W. Va., February 9, 1836, he removed to Vancouver, Wash., where he remained until about 1870 when he settled at Salem, Ore. In 1877 he removed to Eugene where he resided five years and then he moved to Ashland and was identified with the building of the Southern Pacific. In 1890 he moved to Marshfield and has been a resident here ever since, being engaged in the transfer and ranching business until a few years ago.

Mrs. Mauzey preceded him to the Great Beyond about four years ago. Three children, Cora, Henry and Maggie died while the family resided in Salem, and one son, Jimmy, died in Marshfield. The surviving children are Mrs. Jas. Hibbard of Yreka, California, and Walter, Edgar, Leonard, Jasper, Mabel, Alpha, and Homer Mauzey of Marshfield.

It was first planned to hold the funeral Tuesday but a telegram was received this afternoon saying that Mrs. Hibbard would reach here Wednesday noon, so it was postponed. The bereaved family have the sympathy of a host of friends.
