JOHNSON WINS IN 15 ROUNDS

(Continued from page 1.)

The jaw wobbled with left and right swings to the jaw and the blood spouted from Jeff's mouth in a stream. Jeff was looking a sight at this stage, but he suddenly electrified the crowd by making a round end rally, landing his right to the jaw and a hard left to the body that brought the crowd to its feet.

Round Twelve. The men clinched after they both missed hard lefts to the jaw, remaining in this position half a minute. Jeff rushed in and Johnson met him with a straight left and a right upper cut on the jaw.

The men fought without damage to either, and wrestled about the center of the ring, Johnson breaking it up with a volley of rights and lefts to the face and mouth.

Round Thirteen. The men fought without damage to either, and wrestled about the center of the ring, Johnson breaking it up with a volley of rights and lefts to the face and mouth.

Round Fourteen. Jeff was met with a straight left as he got up and a moment later another spiteful jab went to the mouth. Johnson placed his stomach within Jeff's reach and cried, "Ain't it a nice belly? Why don't you hit it?"

Round Fifteen. A clinch opened the round and then Johnson rushed his man to the ropes, flooring him. Jeffries was counted out.

WIRELESS TO CLOSE SHOPS

(Continued from page 1.)

was sent out of tremendous profits resulting from a string of stations doing commercial work across the continent.

The first story of the collapse appeared briefly in The Times last week. This has been further confirmed by notices of a discontinuance of a number of the Oregon stations.

"Operator Julien, of the Newport station of the United Wireless Company, received orders to-night from the head office in New York, ordering him to close the local office and go to Seattle.

High Officials Nabbed. The full story of the arrest of high officials of the company as told in a press dispatch from New York is as follows:

United States postoffice inspectors raided the handsome Broadway offices of the United Wireless Telegraph Company and caused the arrest of Christopher C. Wilson, president of the company; Samuel S. Bogart, first vice president, and Wm. W. Tompkins, president of the New York selling agency.

Chief Inspector Mayer subsequently gave out a long formal statement in which he charges that although the company has been running at a loss the price of its shares has been advanced by manipulation of fictitious values and that individual officers of the company have sold out their stock to the general public at a profit estimated in one instance at between \$5,000,000 and \$10,000,000, with other instances in proportion.

Wilson was released on \$25,000 bail and Bogart on \$10,000 bail for appearance on July 12, when a further hearing will be held by a federal commissioner.

The complaint on which the warrants were issued is drawn under the federal criminal code on information of Carter B. Keene, a postoffice inspector.

The specific instance of alleged fraudulent use of the mails is given as the mailing of a letter on March 3, 1910, to Michael O'Brien of Waterbury, Conn.

"There are 28,000 shareholders of the company," said Inspector Mayer in his statement, "many of whom have placed their savings in the stock of the company through false representations made by its officers."

"The real assets of the company, consisting of land stations, patents, manufacturing plants and real estate of all kinds appear to be worth at a conservative estimate \$400,000, or an actual worth of two cents a share at par value."

Two million shares have been issued at a par value of \$10 a share, but the stock has recently been put up to \$50 a share. Thus, argues the inspector in his statement, "by taking the last amount quoted (\$400,000 of actual assets) at \$50 a share, the stock is really worth as \$400,000 is to \$1,000,000, or \$4.0004 a share."

The inspector says the company was originally incorporated as the Amalgamated Wireless Securities Company in 1904. In 1906 it took over the assets and business of the defunct American De Forest Wireless Telegraph Company, which was then running at a loss and in default in interest on its bonds.

"At this time," says the inspector's statement, "when officers of the De Forest Company were secretly conspiring to abandon it, and leave the stockholders a mass of worthless securities its stock had been forced to an alleged value of \$12.50 a share or \$2.50 above the par."

"Another item in the statement sent out to stockholders was patents and patent rights, \$5,520,233. The affairs of the company were recently audited by a firm of licensed accountants, who placed the book value of all patents at \$20,233."

"The officers of the company have sold to the public thousands of shares, claiming all the while that they were holding their own shares and putting the money received from the public into the plants of the company. One of the officers is believed to have cleaned up \$5,000,000 at \$10 a share and possibly \$10,000,000 at the ranging prices of \$10 and \$50. The officers of less degree have profited in proportion."

Note of the men arrested to-day have any explanations to make, but a statement was given out by C. C. Galbraith, general manager of the United, in which he says:

Arthur M. King, counsel for the United, said that for several months the postoffice had been harassing the company here and elsewhere. He attributed the present prosecution to the discontent of certain stockholders who might have been unfairly treated by other stockholders who had no connection, he said, with the management of the company.
