

## Follow the Pavement

G-O-O-D R-O-A-D-S spells Progress in growth and wealth both in country and city. A good road in the country allows the farmer to bring his produce to the market. A good road in the city allows the city dweller to go to his home with speed and comfort. Also it guarantees for him those blessings of community life: city water, gas, electric lights, telephones.

The net work of good roads being built this summer on the Southside of Marshfield provides a splendid paved highway to First Addition. From the south end of the pavement on South Fifth street Johnson avenue (now being paved) and Tenth street (now being paved) lead to the gateway of this beautiful Southside home district. And this good road to First Addition is being extended by the Company to the very heart of the addition. Over this route the public utility companies are extending their lines to accommodate the growing population.

You don't know Marshfield until you have seen First Addition. Don't be put off. Insist on seeing the homes and homesites here before buying.
