The First National Bank of Los Angeles has filed a suit at San Bernardino against the Bear Valley Irrigation Company for \$18,000

pany for \$18,000. The Reno Gazette becomes somewhat

excited over a rumor that a scheme is in progress to annex Utah and make Salt Lake the capital.

Contracts have been let to restore the San Luis Rey Mission. Much of the carpentering will be done by the Fran-ciscan brothers themselves.

Surprising developments are anticipated from the investigation into the City Bank affairs at Los Angeles by the grand jury now in progress. Judge Rising at Carson, Nev., in a suit

to enforce payment for street work has decided that a County Commissioner had no right to let contracts to himself.

The citizens of Spokane propose to prosecute the boodling officials, and have secured evidence of a startling character. It is believed \$200,000 has been stolen by city officials.

Salem now has an ordinance designed to shut out all peddlers. Those who have been in the habit of soliciting orders for shirts and clothing will now be compelled to pay a license of \$5 a day.

The number of names in Portland's directory this year is 35,314, against 35,-280 last year. On these figures the publishers estimate the present population of Portland at 90,785, a gain of 2,585 over last year. over last year.

British Columbia scalers want the government to buy their schooners and outfits, owing to the finding of the Arbitration Commission at Paris. They dream of making piratical incursions

when the season opens in February.

The startling fact has been learned at San Diego that Bryant Howard, President of the Consolidated Bank of that city, recently collapsed, has been a confirmed victim of the opium habit for years. Through acts committed while under the influence of the drug the bank to go to the wall.

The proposed consolidation of the leading street railways of San Francisco will be accomplished soon under the name of the San Francisco Cable Railway Company. They are consolidated under a capital stock of \$16,000,000, di-vided into 160,000 shares. The deal was engineered by H. E. Huntington, the principal argument in its favor being it would do away with the hauling of empty cars and save cutting one another' throat. There will be one salary list, lewer cars and consequently fewer employes. The Market Street Cable Company will hold a controlling interest or a proportion of the stock of eight out of Judge Morrow has denied bail to the

five Los Angeles Chinese now at San Francisco awaiting the decision of the United States Supreme Court on their appeal from the District Court's decision denying them writs of habeas corpus. This makes a curious complication. The Chinese are at present confined in the Alameda county jail, though according to Judge Ross' decision they cannot be imprisoned, as they have committed no crime. They cannot be deported because of their appeal to the Supreme Court, and they cannot go free because of that appeal. The Chinese will bring suit against Marshal Gard for false imprisonment. If he releases them, he will be of contempt of court of the northern district of California, which has re-fused them bail. If he does not release them, he is liable for damages on the ruling of the District Court of Southern California that they are not criminals and cannot be imprisoned.

Elmore, Sanborn & Co,'s fall salm circular, just issued, says: "At Shoal-water Bay and Gray's Harbor fish are scarce. At Puget Sound they were running very slack until recently, when they took a spurt and came in in fairly large quantities. If dry weather continues, the Puget Sound canners will have a fair pack, but even then it will be nothing like last year's output. If the rains come on early, the pack will dwindle down to very small proportions indeed, All the rivers south of the Columbia are light runs, which improved some what during the late rainy weather. Acording to the latest reports Gray's Har bor has 2,000 cases, Shoalwater Bay 1,200 cases and Tillamook 1,500 cases. quality of fall fish is about the same as that of previous years. At Siuslaw and the Umpqua there has been a percepti-ble increase in size. No definite reports are yet at hand from Coquille or Rogne The fall fishing in the Columbia is fairly successful. Only two canneries are running. The fish in Baker's Bay for the last few days have done well the quantity of fish coming in, if they ran in a small estuary, would give pros-pects of a large pack. They are very pects of a large pack. They are very much scattered, however, in the Colum-The humpback variety are coming in very large, many of them weighing thirty pounds. The price ruling for fall salmon this year is extremely poor, owing to the great quantities of Alaska fish now offered at \$1.07\frac{1}{2}\$ delivered in New York. Fall fish will bring about \$1.17\frac{1}{2}\$ great Macroady and Charles Kean, and has been with Henry Irving for ten delivered in Eastern States."

Bret Harte cannot work except in sectlusion, and when he is busy on a story left with the process of the free lunch is a needless expense, which brings in no adequate return. serious question. Its population d movement is on foot in New York creased from 70,000 in 1880 to 42,000 in to form a trades union including the young women in sweetstuff shops and retail stores generally, where the hours are very long and the girls ill-paid. the silver-mining industry be further di minished, there will not be 20,000 people idly increasing. The United States has exported 48,000,000 more of silver during the past eight months than during gress. Utah, just adjoining, has 240,000 population, and is not represented at all except by a Delegate with no vote. It is not right that Nevada should have such power in Congress, nor is it fair that we should keep Utah out Union. The passage of this bill will solve the question what to do with Utah and at the same time put life and strength into the veins of a decaying The bill was referred to the Committee on Territories

In reply to a Senate resolution of Sen-

tember 7, directing the Secretary of the Treasury to inform that body to what extent the appropriations heretofore made for the enforcement of the Chinese exclusion act have been expended and what portions are now available, and whether in his opinion it is necessary that a further appropriation be made by Congress in order to carry out the law and if so, how much, the Secretary has sent his reply, inclosing a statement showing the appropriations and expend-itures since 1889. It was shown that the balance available the 7th instant for the current year amounted to \$63,502, which includes the unexpended balance of the appropriation for the last fiscal \$20,602. It is estimated that \$38,000 will be required to pay the salaries and necessary expenses of the officers regularly employed to enforce the exclusion act for the remainder of the current year, leaving an estimated balance avail-able for the deportation of Chinese found to be unlawfully in the United States o \$25,502. It appears by the census report of 1890 that the Chinese population of the United States in that year was 106,-688. Of this number 95,477 were in the Pacific States and Territories. The number who registered under the act of May 5, 1892, was 13,243, leaving 93,444 who ailed to avail themselves of the privieges of the act. Assuming that about 0 per cent of these would be entitled to exemption, the Secretary finds there would still remain about \$5,000 liable to deportation under the law. The lowest cost for transporting Chinamen from San Francisco to Hong Kong is \$35 per cap-ita, and other expenses incident to arrest, trial and inland transportation would also average, he says, not less than \$50 per capita. If, therefore, all of those who did not register should be transported to China, the cost involved Bohemia. It seems they engaged sys. those who did not register should be triansported to China, the cost involved Bohemia. It seems they engaged systematically in the business of murdering \$6,000,000. This, the Secretary says, in children whose parents desired to have them out of the way for any reason. his opinion would be a moderate amount them out of the way for any reason, to carry out the act. He was unable to

Hay—Good, \$10@12 per ton.

uents in 100 pounds:

that it is considerably richer than corn even in muscle food, but not so rich as wheat middlings, which is derived from the wheat grain in the process of milling. In the carbohydrates, the starchy matter, wheat stands highest in the list excelling even corn, and far ahead of wheat middlings or oats. The starchy matter is the fuel for the body, a portion of which may be stored up as fat when

ing the nearest perfection for stock food of any of our grains, everything considered. The oat grain, being surrounded by a husk, is the safest grain we have by a husk, is the satest grain we have for stock-feeding, for the reason that animals are not so easily overfed, but aside from this marked advantage for the oat grain I should put wheat ahead, since 100 pounds of it furnishes more real nutriment.

The only possible danger in feeding wheat arises from the fact that there is no enveloning busk about the grain and

wheat arises from the fact that there is no enveloping husk about the grain, and if the careless feeder gives the animal the concentrated grain too liberally, de-rangement of the digestive apparatus may follow. Wheat may be fed rolled or coarsely ground, or may be soaked. It should be prepared in some way be-fore being fed, though we have fed at this station small quantities without

Ground wheat may be mixed with bran to lighten it, or may be spread over moistened chaffed hay the same as shorts

ing at ruinously low prices. It would be a good thing for the market if 10,000,000 or 15,000,000 bushels were fed to our stock, as what was left would probably bring as large a sum total as if it were all sold Hog-raising for profit. Study the different breeds before

greatest profit in hog-raising is in pro-viding a ready market for produce and much otherwise unmarketable rough feed. Kill every louse and feed generously. Poorly-fed hogs are always un-profitable. If in a fruit section, build a cider mill for public use, if there is not too much opposition. The fee will pay for the undertaking, leaving the pomace clear gain for your hogs. While growing give a moderate run in good pasture. Raise plenty of corn and peas. Attend

Table showing the digestible constitu-

Wheat middlings.......12 2 A study of the above table shows that wheat is about as rich in protein, which goes to build up the muscle, as is oats;

not needed at once.

I cannot but regard wheat as approach

fore being fed, though we have fed at this station small quantities without preparation with quite satisfactory results. Much will depend upon the way in which the horses masticate the food. The best form of preparation no doubt is rolling, the same as barley is rolled for horses on the Pacific Slope.

In the process of rolling the grains are simply flattened, but not torn apart. In this form the food seems to lie light in the stomach and to be easily digested. Ground wheat may be mixed with bran

or other ground feed. The present time calls for a special study in this direction, for wheat is sell-

lecting the best for your purpose, says a writer in Farm, Field and Fireside. Have

Raise plenty of corn and peas. Attend to them regularly. Give plenty of drink. Fatten quickly.

Milk at regular hours. The cows do Keep hens at work. An idle hen never a good layer.

Churn early in the morning; don't wait till the air becomes heated.
