was the greatest ever known, very bushel mark, with a value, to the growers, of over \$4,000,000.

In the same year onlons were grown to the amount of about 175. 000 bushels, worth \$212,000. bulk of this crop is produced within a small area, being grown almost exclusively on what is known as 'beaver dam" land.

In 1911 Oregon produced \$3,400. 000 worth of butter, but in order to times this amount was shipped into the state from other sections.

In 1911 Oregon dairies produced 17,000,000 gatlons of milk and eream, having a value of \$4,000,000. The product is said to be the cleanest and most wholesome of that of

In 1911 Oregon produced 5,000, 600 pounds of cheese, valued at \$758,000. The quality is of the very best. Los Angeles uses more Oregon cheese in feeding its tourists than of all other kinds combined.

#### NEW ROUTE TO LAKE.

#### Stakes Set Indicate Route Will Reach Rim Near Phantom Ship.

Stakes along Sand creek indicate a new route to Crater Lake from Fort Klamath, and according to C G. Miller, a local photographer, who has been over the route of the proposed road, it is as pretty as the road is somewhat longer, the grade is gradual and there are no steep hills

encountered. This road, according to Miller, would come out two or three miles to the right of the trail leading down to the water at Crater Lake, and would reach the rim near the Phantom Ship. This is about the lowest point on the rim of the lake.

Miller has just returned from three weeks' trip in the Crater Lake country, where he and h's partner Glen Johnson, secured a number of splendid new views of Crater Lake to add to their collection. Coming back to Fort Klamath, Miller took two pack horses and a guide, and explored Sand creek, getting many splendid pictures of this canyon and the pinnacles and other scenic attractions in it.

'Starting from the Sand creek bridge, one can go to within three miles of the pinnacles with a team, said Miller, "and the trip is well worth the trouble, as the scenery is magnificent I secured some fine pictures after packing away back into the canyon."-Klamath North-

#### EVANS DECLINES NEW JOB.

#### Nominee Not Anxious to Assume Office of Prosecutor,

Portland, Ore.-Walter H. Evans late Wednesday announced his deelsion not to accept Governor West's appointment as special deputy district attorney for Multnomah county. giving as his reason the pressure of business in the office of United States district attorney where Evans is a deputy. This action further complicates Governor West's anti-vice campaign in Portland.

From private sources it is learned that the grand jury probably will name a special prosecutor to begin an investigation of the office of District Attorney Cameron, whose defiance of the governor brought about the naming of a deputy to work under instructions from the governor.

Cameron still maintains he is district attorney, while the governor, who made use of a long-forgotten statute concerning the removal of of-

ficers, declares he is not. Tom Word, ex-sheriff, has not accepted Governor West's appointment as special agent in the office of Sher-

### PU YI LOSES QUEUE.

#### Young China Rejoices at Evidence of Reform,

New York .- The Young China Association is overjoyed at the report just received from Pekin that the imperial clan has cut the queue from the head of Pu Yi, the deposed baby emperor of China. Members of the association here think that this is the most hopeful sign of the submission

of the Manchus to popular rule. The receipt of the news set the members of the Young China Association searching through Chinatown for those who might still be wearing the queue and chasing them into barber shops. In an appeal to the press, the association begged the cartoonists to hereafter omit the queue in caricatures of the Chinese.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by Poley's

#### MARSHFIELD BOOSTER.

#### the Portland Environment an Influence on the U.S. Engineer in Charge of Coos Bay?

Coos Bay, Sept. 4, 1912.-In 1909 when the repair and extension of the Coos Bay jetty was demanded by the navigators and the Coos Bay people so that the bar would scour to greatproduced 600,000 pounds of mohair, or depth, the U. S. engineer recom-worth \$240,000. Goats have been mended a sea-going dredge to exmended a sea-going dredge to ex-Tound nearly as valuable for clearing periment with on the Coos Bay bar, While believing that the bar dredge recommendation was not made in good faith but only to delay further production was only half that of a the permanent improvement to jetty few years ago, but prices have been necessary to maintain depth of water on the bar, a few of us went to work In 1911 Oregon produced poultry to secure the bar dredge appropria-It was a surprise to many when the 1909-10 congress made the During the same year the state \$350,000 appropriation for this produced \$2,000,000 dozens of eggs. dredge, and it is said the engineers were also surprised. It is pointed out that after recommending the In 1911 the Oregon potato crop \$350,000 as the amount needed to build this special dredge, that when nearly approaching the 6,000,000 bids were called for, the lowest one received was \$90,000 more than the appropriation, which is claimed as proof that they didn't know what they wanted or made the plans more elaborate so as to delay construction The money was appropriated by the 1909-10 congress and it was over a year before bids were asked for. Why did it take over a year to submit plans for what they had recommended two years before? Is it due supply the demand, at least three to the influence of the Portland environment that it takes from 1909 to 1913 to get a dredge built for experimenting on the Coos Bay bar? It is now reported that these same engineers see no objections to the railroads bridging Coos Bay, and why should they if they are under the Portland influence, for Portland would be glad to see a tollgate built on the Coos Bay bar. The importance of Coos Bay to the

Pacific coast and the United States government is such that there should be no chance for Portland, an inland city, to in any way, directly or indi rectly, have any influence on the policy or plans of improvement on Coos Bay, and especially in permitting the bottling up of the harbor by a rail-

> Salmon will be taken this year at Grants Pass or at Fridlay's eddy as formerly. Rocks will be put in the riffle below the dam and at the fishways, care being taken not to interfere with the ascent of steelheads.

Although formal notice was served on the California-Oregon Power Company to begin construction of another fishway at Gold Ray, nothing has been done, and thousands of fish are reported as held up by the dam, where they batter their heads in erforts to find the present fishway.

#### REPRIEVE GRANTED.

#### Acting Governor of California Declares Only Poor Go to Gallows.

Sacramento. - Declaring that only the poor go to the gallows in states where capital punishment is sanctioned by law, Lieutenant Governor Wallace announced the reprieve for two weeks of George Figuerroa, under sentence to be hanged September 6, and said that he was making a careful investigation of the record of the case of Alexander Ezafscar, sentenced to die on the same day. Later ie will inquire into the crimes of Willi Luis, a Chinese, and William Burk, who had been reprieved until September 13. Five other condemned men will in turn be given the benefit

of the inquiry. 'I have not been nere long enough o fully investigate the conditions of hese cases," said the acting governor, "and my action will not be settled until I have time further to examine the records. I have not madeup my mind that the abolition of capital punishment would be an unmixed good. One of the strongest points in favor of the removal of the death penalty is the fact that under existing conditions the law works unevenly. The poor man suffers the extreme penalty; the rich man by long-drawn-out legal processes usu-

aily ecsapes the extreme penalty." Wallace is under the necessity of granting or refusing clemency to nine death-condemned men within he next few weeks.

#### WOULD CALL GOVERNOR.

#### Klamath Falls Residents Want Assistance of Executive.

Klamath Falls, Ore.-Reports have t that Governor West will direct his attention to Klamath Falls after he completes his work in Portland. A number of women belonging to the Equal Rights Club have been active in getting the city council to take action towards abolishing the restricted district. When a written request was filed with the council it was read and laid on the table. It is said that the women immediately appealed to the governor, with the result that he has promised to give assistance in the crusade they have begun,

This city was recently stirred by the charges of graft made against a number of the councilmen. It is expected that some action along this line will be taken by the grand jury. The restricted district is not connected with the graft charges, but has been responsible for a new moral wave that bids fair to be a much stronger one than was expected by the council when the request to abolish the district was passed over so

#### CLARK COMING HERE.

#### Speaker Probably Will Take the Stump in Oregon.

Chicago.—An extended speaking trip for Speaker Champ Clark is being planned at democratic headquarters. The tour will extend to the Pacific coast. Representative John E. Baker of California conferred with Secretary Davies concerning the trip, which will probably include talks in New Mexico, Arizona and California, with at least one in San Francisco. It was declared probable that the speaker would extend his tour to Oregon, Washington and other states in the northwest.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H .W. Hendrickson, Ohio Falls, Ind., writes: "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller." For sale by Poley's Drug Store.
