LINN COUNTY PLANS TEACHERS' INSTITUTE

(Special Dispatch to The Journal.)
Albany, Or., Sept. 1. — Preparations are under way here for the annual teachers' institute to be held some time-the last of October or the first of November. The exact date cannot yet be stated owing to the fact that a schedule will have to be arranged so that the other counties engaging the same instructors will have their dates so as to not conflict.

The counties of Marion, Washington, Polk, Yamhill and Linn will have the same instructors, among them County Superintendent W. G. Hartranft of Seand the latter especially will lecture on training methods in the schools.

DOUGLAS TO VOTE ON LOCAL OPTION

(Special Dispatch to The Journal.)

Roseburg, Or., Sept. 1.—There is now practically no doubt but that local option will be voted on at the November election in this county. Petitions are being circulated ever the county, and, though but one has so far been brought in, it proved very flattering to the temperance workers. In this case, which was at Drain, 31 voters quickly signed their names, making almost 10 per cent of the number required in the county. Reports from other places also show that the petitions are being liberally signed. In the June election this county gave local option a majority of 715, which shows that the chances are in favor of prohibition.

(Special Dispatch to The Journal.)

Vancouver, Wash., Sept. 1.—Much concern is felt about W. M. Bartelle, who came to Vancouver from Troutdale.

Or., a few days ago for the purpose of looking into a good location to enter into business. After arriving at Vancouver he was heard from but once, and up to this morning no trace can be found of him whatever. His wife arrived from Troutdele yesterday and went to Orchards, where she has intimate friends and telephoned from that point to Troutdale to ascertain if any word had been received from him there. To which she received a negative answer.

The last Mrs. Bartelle heard from her husband, he said he would start the next day to Orchards to yisit A. H. Young, an old acquaintance and friend of the family. Since then nothing has been heard from him, although it was his custom to write to his wife every other day when away from home. It was one day last week—a week ago yesterday—that he wrote the last letter which was received by his wife at Troutdale.

Hearing nothing further from him, she

Spokane, Wash., Sept. 1.—The question of the incorporation of Hillyard as a part of Spokane now seems to rest with James J. Hill. If this railroad magnate gives his consent further ef-forts will be made by the Hillyard board of trade. If he decides that the idea is not favorable to him, it is prob-able that the matter will be dropped. A committee has been appointed to draft plans and ideas of the incorporation and submit them to Mr. Hill.

MR. D. M. NEWBRO

resident of The Herpicide Company of Detroit, a Most Successful Concern. In 1898 Mr. D. M. Newbro of Butte, Mont., because interested in the study of hair, dandruff and baldness and the diseases of the hair and scalp generally. He decided that somewhere in nature there must be material for a harmless destroyer of the parasites whose in asion of the scalp means first dandruff, then falling hair, then baldness.

a harmless destroyer of the parasites whose infasion of the scalp means first dandruf, then failing hair, then baidness.

This idea was so firmly fixed in his mind that he associated with himself a famous hacteriologist and together they set about to find out the needed destroyer. Finally, after eighteen months of unceasing laboratory work and experimentation, they were rewarded by discovering what they sought. In brief, they produced a compound which proved to be a dandruff germ destroyer. As soon as they were satisfied from experiments that they had really perfected a solution that would destroy the dandruff germ. they submitted samples of it to a number of medical practitioners, and, after these physicians had reported back to them that the preparation was certainly a specific for the disease in question, they set about placing it on the market.

At this time, 1899, Mr. Newbro was owner of the Newbro Drug Co., a wholesale and retail establishment at Butts, and he was also president of the Washoe Copper Company, which was sold out to the Amalgamated Copper Co. for several millions of dollars. After disposing of the copper concerns, Mr. Newbro, in consequence of the success of this new preparation, also sold out his drug business, so as to devote his entire time to Herpicide, which was the name finally hit upon. The name is interesting: Herpes is the Latin or Greek word for "creep," and cide means death, meaning death to the receper, since the dandruff germ, after once attacking the soalp gradually creeps over its entire surface.

Immediately Herpicide was offered, it became a phenomenal success. It was talked about and prescribed by physicians, it was sold by druggists, and finally it was sold by druggists, and finally it was sold by druggists, and page the sold two others. Although the copy of Mr. Newbro in the wholesale drug business copper mining, etc. were more or less gigantic, it quickly became apparent to him that Herpicide was to become a business of national and international importance, so he organi

GEORGIA POPULISTS ACTIVE.

(Journal Special Service.)
Atlanta. Sept. 1.—The Populists of Georgia assembled in convention here today, the chief purpose of the gathering being to indorse the nomination of Thomas E. Watson for the presidency. A state electoral ticket will be selected, and, if considered advisable, candidates will be named for the state offices to be filled at the coming election. The rejuvenation of the party in this state after having been inactive for several years is regarded as due chiefly to the personal popularity of Mr. Watson, the presidential candidate. Pined for Killing Game Birds.

Thomas Kelland, who was arrested for shooting Chinese pheasants out of season, was brought before Justice of the Peace Livy Stipp on Thursday night and pleaded guilty to the charge and was fined \$15, but under the circumstances it was thought best to remit half of his fine, which was done. Frank Hendricks swore out the complaint, but he did not like to appear against Kelland, who is a neighbor, and did everything in his power to have the case dismissed before the trial. As the complaint had been filed the case had to be continued with the above fine. The farmers in the county shoot a number of the birds on their property every season, and they do not think that it is just that they should be fined for killing birds that feed on their farms. In this case the charge was preferred by a deputy game warden.

Eop-Fickers Leave Town.

Now that harvesting is about over there is an grodus to the hopfields by the farmers, and a great many of the city dwellers who go to pick hops for a vacation. A number of the yards in the county have already commenced picking, and by the end of the week most of the yards will be picking in full blast. H. J. Ottenheiner, who owns a large yard near Aurora, will commence to pick on Saturday. The people leave by wagon and train to the yards, but the favorite way seems to be by the boats, which leave Oregon City every morning crowded to the guards.

The steamers Pomona, Altona and Oregona leave every day from Portland for up-river points as far as Salem, and will stop at any of the yards. Should the pickers wish to go up the Yamhill to Dayton and pick in that part of the country, the O. R. & N. boats Ruth and Modoc will have to be taken at the dock at the south end of Main street.

drunk and raising a disturbance.

Fishway Completed.

Contractor Rands, who is in charge of the work of building the fishway over the falls, yesterday announced that the work was completed. About four weeks have been consumed in this work, and the fishway is in every way a success, and the only thing that remains is for the fish to come up the river and jump over the falls. To cover the rise of over 30 feet a system of pools has been blasted in the rocks. These pools are 12 in number and rise one above the other every three feet. In this way the fish can surmount the falls and go into the Molalla, Famini and McKenzie rivers to spawn. They will be protected at the foot of the fishway by law, which prevents fishing within 600 feet of the foot of the falls.

(Special Dispatch to The Tournal.)

Oregon City, Sept. 1.—Yesterday
articles of incorporation for a telephone gon and more particularly in Clackamas county were filed in the county clerk's office by Charles Baker, G. P. Groos and E. S. Kruse. The liste is to be known

ette Falls. The capitalization is \$2,000, and shares are to be sold to the smount of \$,000 at 25 cents each. The purpose of the company is to construct and operate telephone lines in the county and to collect fees for messages and otherwise conduct the business that may come to the line.

While there is a line in operation from Willametts Falls, this line will no doubt be more extensive in scope and will eventually extend into Yamhili county and the counties along the coast. As these lines will send messages probably a little cheaper that the established lines, it is thought that the enterprise will be a profitable one, as the expense of putting in such a line is said to be very small.

William Cunningham Told to Go.

William Cunningham was yesterday brought before Mayor G. B. Dimick on a charge of being drwnk and disorderly. Cunningham was bolsterous, and when arrested was asserting in a loud voice that he could whip any man in Oregon City, and was more than anxious for the fight. He was arrested by Chief of Police Burns, and his journey to the jail was marked by frequent shoutings to passers-by to come and be whipped.

As this was the third time that he has been brought before the mayor, he was fined \$50, and in place of paying the fine he was allowed half an hour to leave town. He thanked the mayor for his clemency and went to Portland, where he

Lee Daly was arrested Tuesday night by Officers Shaw and Nobiltt, and was yesterday brought before the mayor and fined 15. He was charged with being drunk and raising a disturbance.

There is on exhibition in the window of a store in this city an excellent specimen of the Golden Band lily that was raised by Mrs. J. J. Cook. This lily has 40 blossoms on it and gives forth a very fragrant odor. It was raised from a bulb that produced 50 blossoms last year. This is a record-breaking lily for this city, as the one that was considered the champion a few years ago had but 17 blossoms.

Director of Exhibits Dosch of the 1906

Director of Exhibits Dosch of the 1905 fair will leave in a few days for Washington, where he will at once take up with the government board the matter of exhibits for the fair next year. He will also visit St. Louis. In speaking of what he hoped to secure and what he did not desire. Mr. Dosch mid:

"There are many things at St. Louis that would be unnecessary for our fair in the government section and there are several things there that we will not have in consequence. On the other hand, there are exhibits of the greatest value to this region that are not displayed at all at St. Louis, and it is these that I will endeavor to secure from the government. From the conferences I have had with the members of the federal board I think we will be successful.

"The attitude of the board seems to be to give us what we want and to a great extent they will rely upon our judgment as to our needs. The key note of the Lewis and Clark exhibit from the government should be utility and edu-

judgment as to our needs. The key note of the Lewis and Clark exhibit from the government should be utility and education. Many things not shown at St. Louis, because they were not needed there, would be of great value to the coast people.

"The Philippine exhibits are a very important part of the government exhibit, but these are under the direction of the insular government chiefly and a conference will have to be held with these officials before definite announcement regarding them can be made. There are many duplications in the Philippine exhibits at St. Louis and part of them will be needed here to fully convey an impression of the islands, their institutions and resources.

impression of the islands, their institutions and resources.

"Since the government board has decided to use the peninsula, and this will
be utilized by it alone, the federal exhibits are sure of receiving a better representation than they have had at any
former fair. At St. Louis and the other
big expositions the government exhibits
were scattered and the chance of comparison was lost. We will have them,
all together. The life saving exhibit,
the most interesting of the entire section, will be produced on the shores of
the peninsula and will be as fine as ever
shown at other expositions."

BLUE COATED GENTRY BURLESQUE COURTS

A mock trial at St. Marth springs, where many of the policemen have been spending their vacations, was held one day this week. Dr. Devinne of Montavilla was judge; Detective A. G.
