

CARTOONIST TAD HERE, DEPICTS WESTERN SPORTS HUNTING FOR MAN TO FIGHT JEFF

MULTNOMAH WINS FIRST SCRIMMAGE

QUINCY TRUMPER OVER ASTORIA ELEVEN IN AN INTERESTING CONTEST—STOCKTON STARS FOR VISITORS WHILE PRATT, HENLEY AND JORDAN DO THE STUNTS.

The Multnomah football eleven defeated the strong Astoria team yesterday afternoon on Multnomah field by the score of 5 to 0. The smallest of the scores does not fully indicate the strength of the local clubmen, as 18 players were tried out during the game in order that the coaches might get a line on their work. From a football standpoint the game was a success. The Astoria men lived up to their well-known reputation by putting up a stubborn fight from start to finish, but the experience of the clubmen was in evidence and prevailed. The visitors played a faster and snappier game than Multnomah, but when it came to real hard plunging the Astorians were not able to cope with the Portland men.

The game was free from roughness, and only one penalty was inflicted, and that was for an unintentional holding of Multnomah in the center, the cost of the same being 15 yards. The play started off with a rush. Coates booted the ball to Astoria's 15-yard line, where the wary Stockton grabbed it and returned it 14. After a few skirmishes Astoria lost the ball on a fumble and Multnomah got it only 49 yards from a fumble. The clubmen promptly held for downs and taking the ball started for the Astoria goal line. Carroll, Northup, Pratt, Dowling and Moran began a series of attacks on the Astorians' line and found yardage every rush. After seven minutes of hard bucking the pigskin rested on their opponents' line and Northup was shot through Gammal for a touchdown. The game ended with the ball in Multnomah's possession on the Astoria 15-yard line.

DOLLY GRAY TOO MUCH FOR TIGERS

For the looney every man showed up well. Coates, Sealey, Pratt and Jordan performed brilliantly. Multnomah's interference was ragged throughout the entire contest, never hitting the Astoria forwards with the proper steam and power. For Astoria the entire squad played well. Stockton, Tallant, Abercrombie and Graham doing the best work. Stockton played his usual fast and effective game and ran the team with good judgment. Astoria's team work was faster than Multnomah's but not so deliberate, while the visitors' fumbles were many and costly.

WHAT TEN PIN MEN ARE ROLLING NOW

The seven-pin match game on the Portland bowling alleys last Friday night was the first one to be held in this city. The teams contesting for honors were the Pines vs. Maples. The latter won by 45 pins. Rutherford made the high average, 87. Dale captured the highest individual score, making 81 pins.

Table with 2 columns: Name and Score. Includes names like Adams, Rutherford, Smith, Gallard, Dale.

Table with 2 columns: Name and Score. Includes names like Mosher, Aneyse, Hoffman, Jowa, Rowa.

The Prospect and Prosperity camps, of the Woodmen of the World, have their games Thursday nights. There is a good deal of rivalry between these teams, and their games are exciting. The work of Samsin of the Prosperity team is showing a marked improvement. Next Tuesday night there will be a match game of ten-pins on the Portland alleys, between the Monarchs and the Pin Knights. These teams are composed of the best players in the city and a close game is expected.

BOSTON DEFEATS NEW YORK

Boston, Oct. 8.—The Boston Americans defeated the Highlanders in two games today and displaced them in the lead for the pennant. The scores were: Boston, 13-2; New York, 5-0. Boston's percentage is now .624 and New York .468.

JEFF SORTING 'EM OUT

Frank Hellen's disappearance from Tucson Springs, Cal., an account of which appeared in last night's Journal, was no surprise to some of his acquaintances here, although a number of his acquaintances were startled upon hearing that a man who had manifested so much charity toward the gentler sex in the past would voluntarily desert his wife.

GAMBLER HELLEN'S PORTLAND CAREER

Hellen was known in Portland by every sporting man. He was the founder of the Portland Club some years ago, and since that time has figured more or less prominently in the newspapers of this city. He once had a falling out with another gambler, and for days they both carried revolvers and made threats against each other. Hellen's weapon was a Colt's automatic revolver and twice it came within a hair's breadth of costing him his life. The first time he was shot through the hand, the pistol having fallen on the floor, causing his discharge. On the second occasion Hellen had gone to sleep on a sofa and rolled off on to the floor, when the pistol went off. This wound was of a very serious nature. The ball penetrated his right side and perforated his liver, stomach and one lung. It is said to have cost the gambler \$1,000 before he completely recovered. His friends advised him to go to Tucson Springs for his health. The fact that he was a vegetarian, his physicians told him, was largely responsible for his recovery.

ATKINSON SCHOOL STILL UNFINISHED

Four weeks have elapsed since the fall term in the public schools opened. During all this time the classes of the first six grades of the Atkinson school have been without any place in which to meet. The pupils have been losing instruction, the teachers have been idle and the taxpayers have had to suffer because the salaries of the teachers have to be paid whether they work or not. All this is due to the unfinished condition of the Atkinson school. The building is far from being ready for occupancy and it is not known when the work will be completed. The heating and ventilating apparatus will not be in operation for some time and the new portion of the building will not be finished for at least two weeks. No one is willing to take the blame for the conditions which have existed in the schools since the term opened. The contractors say they are not responsible and it has been impossible for them to complete the work in the time allowed in the contracts. Much of the work was not started until late in the season and no great endeavor was made by them to rush it until it came time for school to open. Although the directors were fully aware of the conditions they made no efforts to compel the contractors to complete the repairs within the time specified in the contracts. In nearly every instance the contractors were behind with their work.

CENTRALIA STILL IN STATE OF DARKNESS

Centralia, Wash., Oct. 8.—The electric light situation has developed into a scandal. The city is still in darkness. The report is now being circulated that all the councilmen have granted themselves a special rate for electric lights. The charge was openly made in the last meeting that one of the councilmen did not pay for the lights he used. He indignantly denied the charge with the statement that he paid the bill when it was presented. When asked how often the bill had been presented, no answer was given.

TURNER AND LEVENS MATCHED.

Tacoma, Oct. 8.—Rafe Turner, the negro boxer, and Chester Levens of Edmonds will fight a 20-round bout at Germania hall in Tacoma on Thursday, October 15, for a purse and a side bet.

WILL MARRY GIRL IF SHE'LL BEHAVE

Aged Michael Piertler, who lies at St. Vincent's hospital recovering from his desperate attempts at self-destruction, says he will marry Mary Robinson, the 14-year-old girl whom he is accused of having abducted, if her friends will go on her bonds and guarantee that she will be good. He will not marry her otherwise, he says.

ELECTRIC WIRING IS POORLY DONE

FIRE MARSHAL ROBERTS CONCLUDES HIS TOUR OF INSPECTION AND FINDS THE CONDITION GENERAL ALL OVER CITY—SUGGESTS TO BE RUZZED.

"I have just completed my annual inspection of all the buildings within the fire limits of the city and I find the electrical wiring to be very poor," said Fire Marshal W. R. Roberts yesterday afternoon. By this he meant that the wiring in the different buildings was not up to the standard and might be the means of causing fires. He will make an attempt to see that better wiring is done in buildings in future.

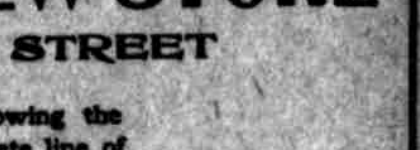

The fire marshal inspects every building within the fire limits once a year. He has had a very hard task, on account of the many new buildings which have been built. It has taken him just 15 months to cover the territory. Monday he will start on the work of another year. In the new year he will not have only the old district to inspect, but his work will include all the buildings in the extended fire limits. Aside from the electric wiring he says that the city is in fairly good condition. Many of the old shacks have been torn down and permanent improvements made.

"Conditions are becoming better every day," he said. "It is very gratifying to see such a great number of fine buildings going up. Then the full paid fire department and the installation of many new hydrants is an assurance that the city will have better fire protection than ever before. A wonderful improvement has been made in the department since June 1. Recently the department has done some excellent work and has drowned several blazes which in many cities would have developed into conflagrations."

Recently the city council resurrected an ordinance requiring bulkheads to be placed every 100 feet along the docks on the water front. While this is an old ordinance it has never been enforced. The matter was recently referred to the fire marshal and during the past week he has notified the owners of the larger docks that they must comply with the ordinance. All of them have manifested a willingness to do as instructed. "All the property owners along the water front feel that bulkheads will be a good thing," said Mr. Roberts. "As the docks now are a draught circulates beneath them, which in case of fire will cause the flames to spread very rapidly. The bulkheads are to be built of two-inch plank and will tend to smother any fire which may start on the water front."

A FEW THINGS TO REMEMBER

REMEMBER that the Journal has branch offices all over the city, where you can leave your "want ads," and the Astoria's branch office is at the station if left at the main office.

REMEMBER that all A. P. T. messenger boys are "want ad" agents. Use your call box, phone Main 237 or call a messenger on the street. There's no extra charge for this service.

REMEMBER, too, that valuable premiums are given away every week to Sunday Journal cash "want advertisers."

AND DON'T FORGET THAT THE JOURNAL GIVES RESULTS 21 WORDS FOR 15 CENTS

A QUICK CURE For Coughs, Croup, Whooping Cough, Lung Issues
