Rankin and W. B. Thomas for \$1,550. The petitioner is the widow of Gus J. Breuer, who was assassinated a few weeks ago in his saloon by unknown persons, and the executor of his estate. the enforced in the department," said deneral Beebe, one of the police commissioners.

About two weeks ago Officer Foster failed to report to headquarters from \$ to \$ in the morning. He stated that he had been watching a dive owned by colored people, where he suspected white women ware visiting. He said he thought he was doing his duty.

He was suppended. Written charges were made against him. Some days later he was asked to appear before the chief and make a written statement in defense of his action. He did so. Foster states that no questions were asked him and that the chief was sole master of ceremonies. He says he was then dismissed from the chief's presence and dergeant Carpenter was called to make a statement regarding the alleged breach of the rules.

That was the only investigation made. Chief Hunt reported the result of his inquiry to the police commissioners, who, after talking to the chief about it, decided to recommend that he be expelled from the department.

This is the first violation of the rules of which Foster has ever been guilty. He has been in the department for several years. While others have wandered many times from the chief's path of discipline, they have never been molested or compelled to suffer even a brief suspension or fine.

E. D. Curtis, George Howell and others of the members of the executive board did not favor the dismissal. They desired that Foster be punished, but asked that he be suspended for 30 days.

The mayor said that the action of the executive board was not final, but that the dismissed officer had the right to appeal his case to the civil service commission, where they would allow a complete investigation of the charges. If the commission found that the decision of the board had not been justifiable then they could reinstate the officer.

Both boys were also charged with burglary two months ago, being accused of breaking into the drug store of Thomas Graham and stealing a number of toilet articles. They were arraigned and pleaded not guilty. Nothing further has been done as regards this charge.

FUMED-OAK MISSION FURNITURE

We are showing a lot of handsome new pieces of Mission Furniture, made of selected quartered oak with that pretty new "Fumed" finish. It is by far the handsomest finish yet discovered for this style of Furniture, being a beautiful golden brown that will harmonize with any color scheme and yet retain its own individuality. It is obtained by exposing the wood to the fumes of strong ammonia, after which it is rubbed down in wax with a result that is both beautiful and permanent. If you care for the sort of Furniture that never grows tiresome, you should take a look at this.

> We have 50 plates like the one above, suggesting various arrangements of Mission Furniture.
