COPPER ORE GOOD

ALLOWA COUNTY

THOROUGH TESTS WILL BE MADE BY SMELTING

As Long as the Weather Permits Men Will Be Kept at Work.

The discovery of copper on the headeaters of Imnaha river, Wallows county, in which F. D. McCully is interested ems to sustain the surface showing tunnel has been driven into the big ike 40 feet, and this reveals a better rade of rock, according to the owners. grade of rock, according to the owners. One thousand pounds of this rock, which seems to average high in the red metal, has been hauled out and will be sent to Denver for thorough quantitative and qualitative analysis. Some of the assays made from samples show as high as 10, and even 20, per cent copper, with very small values in gold. The management has arranged for cabins that work may be prosecuted until winter sets in, and next spring it is the hope of the owners to do much more work. The property is on Sheep creek, where no copper mining has been done before.

AMALGAMATED SMELTS COPPER LADEN SOIL

These are various ways of metal position, some of which even the smed scientists have not discussed, id R. T. Bainbridge, of Butts, Mont., he is in the city. "When I loft Butts, a Amalgamated company was scraping the soil for considerable areas around a site of their old smelter plant at accords, and sending it to the Washoe selter for reduction. This ground that a company is handling is not vein strer, nor even plain, ordinary formatic, but soil. You see, when the old selter was running for so long on gi-grade ores, with faulty condensing d precipitating facilities in its flues, at quantities of copper and some silve were carried through the stack by blast, and gradually distributed over a country. This process continued so in that the wurface soil carries good pper values, the report being that are per cent copper on an average is und in the ground that the company is mandling. This will seem incredible a man not familiar with the condimes of smelting, but the saving work the amalgamated is the best evince that fumes carry away values."

BAISLEY-ELKHORN IS **GETTING MACHINERY**

(Social Dispatch to The Journal.)
ker City, Or., Nov. 17.—Manager
ard Field of the United Eikhorn
is company arrived here yesterday
the purpose of superintending transment of the electric motors and
stormers which have arrived for the
ley-Eikhorn mine. Another carload
nachinery will arrive from Denver
riday. When this new electric maery is installed which will be during
the put in most of the mining operaof this company will be by electric
if.

and shaft by the mill and will go down inother 135 feet. The old workings are 1500 feet above the new tunnel. When his shaft has been sunk as far as practicable raises will be made from the new tunnel connecting with the shaft.

ARRANGING TO DRIVE LONG ADIT AT LORDEAU

(Special Dispatch to The Journal.) Vancouver, B. C., Nov. 17.—The con-immation of the deal which was practically put through last week, whereby Minnesota capitalists are to finance the driving of a mile and a half tunnel through the Union Jack and some 14 other claims on the south fork of the Lardeau, will mean increased activity

ARCHITECT

Who Has Erected Some of the Finest Buildings in Pittsburg

TESTIFIES

For Munyon's Paw-Paw and Says It Cured Him of Catarrh of

No need to tell the people of Western Pennsylvania, West Virginia and South-sastern Obio who C. W. Hodgdon, of Pittsburg, is, as his fame as an architect has extended far beyond the confines of that city. He is an ardent believer in Munyon's Paw-Paw Tonic. This is what he says: "Indigestion, which finally resulted in Catarrh of the Stomach, brought on a case of Insomnia, and I was almost incapacitated or business. I was induced to try Munyon's Paw-Paw Tonic and the results were nagical. Less than half a dozen bottles reflected a complete cure and now I feel as well as I ever did." It is such testimony as that which has in me brief year made Munyon's Paw-Paw Tonic and Paw-Paw Laxative Pills the next talked of remedies that the druggists handle. Those who have Dyspepsia, Indication or Constipation or who are nervine and cannot sleep make a serious missake in not making an immediate trial of sunyon's Paw-Paw Tonic or Pills. Munyon's Paw-Paw Tonic or Pills.

The development of this and every for district in the province has been arded in many instances through the ubility of capitalists and the claim ners to get together. Mining is at sent in a flourishing condition roughout the districts in this province, and reports are received nearly all of the mining centers.

FORCE ON MORNING MINES LOWER TUNNEL

(Special Dispatch to The Journal.)

Sumpter, Or., Nov. 17.—A force of 17 men is employed in the early development work of the Morning Gold Mines company, on its Greenhorn property. The new management will prosecute this work with all possible energy, until the mill level is fully explored, and ore is blocked for the large plant contemplated. There is a wings of 35 feet from the upper level on the Fairview veln near where it is intersected by the Parallel, showing the ore to be of even better grade at the bottom than the level of the upper tunnel. The stope of the old Morning management in the Fairview veln near this point was five sets in width, which will give an idea of the size of the ore body that will be made available for the milling plant when the new level is driven to open this vein 200 feet deeper. H. H. Ames, one of the original owners, is in charge of work at the mine.

OLD DIGGINGS WILL PAY FOR SECOND WORK

(Special Dispatch to The Journal.)

Vancouver, B. C., Nov. 17. — Fifty hours' work with one giant on the auriferous gravels of the Dry Hill hydraulic netted the operators \$500. At last the old placer deposits on Lowe creek, Skeena river, which were profitably worked in the '50s, have been so developed as hydraulic propositions that returns for the money invested are in sight. Operations there for the season have been closed down, but will be recommenced next spring.

The gold from the Dry Hill is distinctly like the gold from so many of the northern placer districts. It is coarse and much of it is of a rather flat shape. It is light in color and runs between \$17 and \$18 to the ounce. The property is owned and controlled by a party of capitalists from eBilingham, Wash.

WORKING FOR ROAD TO STEAMBOAT COUNTRY

(Special Dispatch to The Journal.)

Roseburg. Or., Nov. 17.—Steamboat river district, 25 to 30 miles south of Bohemia, and situated in Douglas county, is attracting attention through the prospecting work done there during the summer. This and the work on the south fork of the Umpqua are establishing the link connecting Bohemia, and Wolf, Coyots and Grave creek districts, of northern Josephine, Entrance into the Steamboat district is very difficult owing to the rough character of the country, but an effort is being made to have wagon roads extend into this part of the Cascade mineral zone. If this movement is successful, next season will find a larger number of men working on Steamboat and other parts of Douglas.

SILVER QUEEN SHOWN TO HAVE BIG ORE BODY

of friday. When this new electric machinery is installed whitch will be during the next few days and the new pumping plant put in most of the mining operations of this company will be by electric power.

At present Manager Field is working three shifts in the tunnel. Daily shipteness of high grade ore continue to the flumpter smelter and the returns received from recent shipments have been more than satisfactory and have axceeded in value the highest expectations of the owners of the property.

Mr. Field has begun sinking in the old shaft by the mill and will go down snother 125 feet. The old workings are 1506 feet above the new tunnel. When this new penny the shaft has been sunk as far as practicable ralees will be made from the made, and to the new own-tiers have been at the new own-tiers a neat sum.

(special Dispatch to The Journal.)

ACCEPT EIGHT-HOUR SCALE.

Five mining companies of the Telluride district, in Colorado, have accepted the eight-hour wage scale, with a schedule that is even better than the Western Federation of Miners once asked when striking there. The companies posting the notice are the Smuggler-Union, Liberty Bell, Tomboy, Nellie and Alta. Under the terms of the announcement made by these companies, the minimum wage for eight hours will be \$3, the federation once agreeing to accept \$2.75 minimum for the same length of day. As the Colorado strikes began over this issue, the action of the Telluride creates general interest.

BONDED IVANEOR GROUP.

(Special Dispatch to The Journal.)

Spokane, Nov. 17.—J. H. McDonald has bonded the Ivanhoe group, in British Columbia, to an eastern company for \$25,-000. The property consists of four full crown-granted claims in the Nelson mining division. Work shows a ledge 19 feet wide opened for 1,800 feet. Assays taken across the vein are said to yield commercial values, and picked samples run \$24, \$30.60 and \$36.80 a ton. The property is favorably located as to smelters and railroads. Cabins will be built for winter quarters at once. built for winter quarters at once.

GRAVITY BETTER TEAM PUMPS.

(Special Dispatch to The Journal.)
Glendale, Or., Nov. 17.—The management of the Victor placer property, near this city, has put everything in readiness for winter work with a hydraulic plant. The Victor was once equipped with a great steam pumping plant, which was utilized for furnishing water under strong head for washing the gravel, but did not prove profitable in that manner. did not prove profitable in that manner. Since then a ditch system has gathered available water supplies, and an ordinary hydraulic plant is operated with much better results.

(Journal Special Service.)
Ottawa, Ont., Nov. 17.—This was thankagiving day in the dominion, and dispatches indicate a general observance of the day. The custom of setting apart a day in November for thankagiving is almost as old in Canada as it is in the Arcade is drawing large houses every evening, with the Fern comedy four taking the lead. Their act is one of the best and most expensive that has been given by this attractive playhouse. Other good acts are given by the Adams Bros., in their acrobatic dancing and singing; Divine Dodson, the female imparts of tones. Howe and Decker? Who

AT THE THEATRES.

"The Runaway" Tonight.

"The Runaway" Tonight.

At the Marquam Grand theatre tonight amusement-loyers will have the
pleasure of seeing Arthur Dunn in the
new musical extravaganza produced by
Shubert, Nixon & Zimmerman, and entitled "The Runaways." This is Mr.
Dunn's first appearance here. Positive
assurance is given that this is the original New York Casino production, coming direct from that famous playhouse,
where it ran for over six months. Since
"The Runaways" is termed an extravaganza by its managers, no claim, of
course, is made for any story or any
plot. The first act takes place at a
racetrack somewhere about New York,
and the second act in the shadow of the
paims on a tropical island called the
isle of Table d'Hote, in the South Pacific. The management has surpassed
itself in getting together a startling array of gowns and dresses, and as most
of them are worn by show-girls who
used to be society women, there is no
doubt that they are shown off to advantage. A most excellent company has
been chosen to support Mr. Dunn, including Charles Dox, Clarence Harvey,
Thomas Whitbread, William Meehan,
Misses Erminic Earle, Sallie Randall,
Blanche Wayne, the Althea sisters, and
over 75 others.

Columbia Has Rig Rusiness.

Columbia Has Big Business.

"The Gay Paristans" continues its week at the Columbia theatre to remarkable business. It is the merriest of French farces, and from the moment the curtain is lifted the action is rapid-fire.

A feature of this farce is its large number of "fat" parts. No one member of the cast monopolizes the piece; for, while it revolves about the tentral character of Pinglet, the architect, each member of the Columbia stock company has some excellent lines and good stage business. Miss Countiss, who is well known as a comedienne of ability, has added to her popularity this week by her perfect presentation of the gay young wife. Next week, beginning Sunday afternoon, the company will produce "Led Astray," one of Dion Boucleault's best comedies. It was written long ago, but possesses the fine qualities which preserve its freshness. Columbia Has Big Business.

Going to the "Ball" Tonight?

Going to the "Ball" Tonight?

Yourself and friends are cordially invited to attend the performance of "Finningan's Bail," the best nessical comedy of the season, at Cordray's this evening. Gallagher and Barrett, Mayme Taylor, Fannie Trumbull and a long list of other clever people will be there to receive you and to keep the fun and melody portion of the evening's entertainment at tip-top pitch. The chorus consists of the merriest, prettiest and most graceful girls to be seen with any organisation traveling, and the music is catchy and well rendered. The costumes and scenery are equal to the best of first-class productions.

Grand Opening Sunday.

Grand Opening Sunday.

Cordray's theatre ceases to exist Sunday afternoon, and the Grand will take the place of it. It will be the same famous old theatre, remodeled and redecorated and under a new management. The policy will also be changed, and it becomes the largest and finest vaude-ville theatre west of Chicago. Manager Lincoin has arrived to take charge of it, and will operate the Grand as the principal house of the Sullivan-Considine string, the greatest circuit of vaudeville houses in the country. The policy will be to play the best acts in the business, and only such "turns" as come up to the highest conceptions of what polite vaudeville should be will be booked.

Marquam Grand, Monday, Tuesday and Wednesday nights, November 21, 22, 22, George H. Brennan's company, the only one on tour in the piece, is said to be in every way admirable. The advance sale of seats will open tomorrow (Friday) morning at 10 o'clock.

Florence Gale's Engagement.

Florence Gale's Engagement.

Tomorrow night, at the Marquam Grand theatre, Florence Gale, supported by an excellent company of players, will begin an engagement of two nights, with a special-price matinee Saturday, in Shakespeare's delightful comedy, "As You Like It." Of all the successes of Shakespeare—and he never knew a failure—"As You Like It" is without question the most charming and noteworthy, and the character of Rosalind the most interesting ever conceived by any author. The play is one which admits of most realistic production by aid of artificial effects of theatre efforts which have been provided in this case, a carload of scenery being carried by the company.

The Baker a Hit.

The Baker a Hit.

Packed, jammed and crowded to the doors is the record at the Baker at each performance. The bill is: The Traviolas, head-balancers, hoop-rollers and jugglers; the Irving trio, clever acrobatic turn; McShaffreys, musical Gypsies, on various unique instruments; O'Brine, Mann and Franks, in a mirth-provoking comedy called "Our Uncle." Other features are: Clarence Marks, German comedian; Pearcy Bros., in a sketch called "Fun With the New Teacher," and Darnold's wonderful trained dogs and cats. Raymond G. Baldwin sings illustrated songs, and the program concludes with the biograph.

Admission Half Price at the Star. Admission Half Price at the Star.

Tomorrow afternoon there will be published in the regular advertising space of the Star theatre a coupon which will entitle the holder to admission at half price to this famous playhouse. The program this week includes the three Avalos, in their great aerobatic act; the Yale duo, who present excellent clubswinging and juggiing; Carter and Mendel, with their new catchy jokes, and the musical Harts, Richard Burton and Adeline Birchier, who also give very entertaining acts.

(Special Dispatch to The Journal.)
Roseburg, Or., Nov. 17.—Four claims lying in Douglas county have been located this year by the Oregon Securities company, operating in Bohemia. In addition it is said that the company has acquired other claims on the Douglas side of the Calapoola range, all of which are to be worked in connection with their large holdings in Champion basin.
