Kaiser's Committee Will Report Unfavorably on the Amer-ican Methods.

AMERICA'S SOLE OBJECT THE MAKING OF MONEY

Speed of American Flyers Exaggerated and Locomotives Inferior, Says One.

(Journal Special Service.)

Berlin, Nov. 21.—The committee of great German railroad men, which was sent to America by the government to study American railroading and that recently returned home, has not yet made its official report, but when it appears it will contain little praise of Americans. One of these men who, for obvious rea-

ons, does not care to have his name appear in print, said today:

"We may learn a great many things from the Americans, but in railroading we are certainly ahead of them. The Pullman cars are, of course, far more luxurious than any on this side of the ocean, and many of the American limited trains compare favorably with the trains used here by the rulers of great countries. But the private companies, which own all the railroads in the United States, show very little concern for the safety of the great traveling public, and the fact that the already large number of railroad accidents is due more to luck than anything else.

"It is evident to any practical railroad man that the railroad companies in the United States have only one object—that of making money—and apparatus tending to make traffic more safe, which we adopted on our government roads 10 or more years ago, is still missing on what are called first-class railroads on the other side of the Atlantic.

"The readbed is quite good on the

"The readbed is quite good on the main lines in eastern states, but in the west we much oftener found it entirely too light for the heavy cars used. The speed of the famous American 'flyers' has also been greatly exaggerated, and the locomotives are inferior in material and strength of construction to German

WANTS THE TITLE, NOT THE HUSBAND

Mme. Tzakowski Seeks Separation, But Not Divorce, in Order to Remain Countess.

Paris, Nov. 21.—The Tsakowski suits promise to be the most sensational in years. The countess charges the count with infidelity. She sues for separation, and not divorce, as she desires to restain the title. A recent decision of the French courts prohibits divorced women from retaining their husbands' titles. The countess names as co-respondent the peopritial lives.

the Folies Bergeres, now at the Theatre Vaudeville.

The countess recently found Mile, de Fresia, in an opera box with the count. The countess today refused to discuss the case. Your correspondent this evening obtained the following statement from the count. It will serve as a basis of the court's lawyers' arguments. He said:
"The charge of infidelity cannot be

proved. The countess is simply jealous. She frequently manifested violent jeal-ousy. Once, hearing a prominent jewelousy. Once, hearing a prominent jeweler had sold me a 30,000-franc pearl
necklace, the countess denounced me as
not her husband. Consequently I was
arrested as an impostor: I was released
immediately upon showing my papers to
the authorities, proving my identity, but
the incident was most humiliating to me.
On another occasion the countess had me
bodily ejected from my own Chateau les
Bordes because I had attempted to enter.
For the past two years the countess has
resided at Trakiwski palace, in Paris.
My family's arms are carved above the
door, but I am not allowed to enter.
Nevertheless, I am willing to forget all
these wrongs, in order to avoid divorce,
if the countess will only withdraw these
absurd charges against me."

TWO MILLION FISH KILLED BY INDIANS

Northern Cannerymen Much Excited and Small Pack of Season Accounted for.

Vancouver, B. C., Nov. 21.—Advices have been received here that Indians on the head waters of the Skeena river have been killing sockeyes; by the wholesale. The Indians have been bagricading the rivers for years without molestation, and preventing the sockeyes from reaching their spawning grounds. Two million rish were killed in Indian traps this year, greatly reducing the northern pack. The fisheries inspector of the northern waters destroyed six barricades and numerous dams recently. The Indians defy the dominion government, which just received the report and commenced just received the report and commenced investigation. Northern cannerymen are much excited, as this accounts for
