(Journal Special Service.) New York, Dec. 5.—On a falling market today there was a sensational advance in United States Leather preferred of \$3.25.

Stock brokers are mystified as to the recent advances in Leather stock, but say that the recent rise in the raw material may have had something to do with it.

With one or two sales Chicago & Northwestern were very dull, and the market today lost \$1.75 of the recent heavy advance.

Missouri, Kansas & Texas the "Katy" was a very strong feature, and today's advance amounted to \$2.25 on the preferred stock.

Rest of the stock list opened generally higher, but with few exceptions the closing was lower.

On the cotton exchange today the bullish government report of Saturday was supplemented by a detailed report today and the market at the close showed a heavy slump of over 40 points.
