SOUVENIR SPOON OF LEWIS AND CLARK FAIR

The Lewis and Clark centennial sou-one of the spoon has made its appearance, and is as handsome a work in moulding in the eye ever meets. It was originated and is distributed by the women of the scalawes society. The metal used in he spoon, which is of regular teaspoon iss, is native copper from the mine of P. W. H. Cos, at Spirit Lake, at the lost of Mt. St. Helena. The doctor fur-hished the copper free. The principal angraving is a reproduction of the tatue of the Indian heroine in the book but slong the handle there are ex-cellent representations of Multinomah fails, the Lewis monument and por-traits of the northwestern explorers. The back showing the state scal of Ore-tion a view of Mt. St. Helens, two big pine trees and a characteristic salmon. The apon is bronze in color and will be a beautiful ornament in thousands of American homes. The price is 75 cents. PROPOSALS
