At 11 o'clock temorrow morning the Etings County Penitentary building and all its fittings will be sold to the highest bidder.

By April 1 the historic old prison, which is a conspicuous feature of the landscape as it stands perched on a bill on the way to Coney island, will have become a thing of the past. It was built so long ago that the exact date of its crection is in doubt. At that time the location was an isolated one. But in late years, the city of Brooklyn has grown so rapidly that hundreds of bandsome homes now stand within a stone's throw of the sombey old edifice, and it finally became such an eyesore to the community that the authorities were prevailed upon to let it fall in the march of progress and public improvenarch of progress and public improve Since the demolition of the old Tombs

the Kings County penilentiary has bed most historic prison in the vicinity of New York. It has held many notorious criminals in its day. But now the old prison has played its part in the history of the metropolis, and it will soon vanish, leaving as the only reminder of its existence innumerable stories, in some of which tragedies are strangely interwoven with romanees.

MY SPECIALTY DISEASES

There is no ailment peculiar to men that I cannot cure. For sixteen years I have devoted my entire time and energy to the treatment of men's diseases.

My methods have been perfected by actual experience, with a thorough theoretical knowledge as a basis. I am the only physician thoroughly and permanently curing those functional derangements commonly classed as "Weakness," and my success in overcoming such cases has placed me foremost among specialists treating men's diseases, and has brought me the largest practice of its kind in the West.

Every afflicted man is invited to write me a description of his case. Such is my knowledge of men's diseases and so perfect are my methods in treating them, that I am able to effect cures in all ordinary cases without seeing the patient in person. All correspondence strictly confidential. Those visiting Portland may feel free to call at my office for personal consultation.

You Pay When Cured My Fee in Any Uncomplicated Case

So-called "Weakness" in men is curable—fully curable. It has not been cured by those measures commonly employed, for they are methods based upon supposition and not upon fact. Prematureness and loss of power in men is due to a chronic state of inflammation in the prostate gland, and not to a disordered nervous condition, as has been supposed. I treat the inflammation by a local process that does not fail to accompilsh its purpose, and with this condition corrected full and complete strength and vigor returns.

CEPHCETIEF. Metastates if the accommand in the prostate is a state of the strength and vigor returns.

Every case of contracted disease it the theroughly cured; my patterns is theroughly cured; my patterns have no relapase. When I pronounce a case cured there is not the pronounce a case cured there is not the pronounce a case cured there is not the pronounce a case cured there is not a particle of infection or inflammation return in its original form or work its way into the general system. No contracted disorders is so trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cure.

I have the largest practice because I invariable fulfill my promises.

Strength and vigor returns.

STRICTURE—My treatment is absolutely painless, and perfect results can be depended upon in every instance I do no cutting or dilating whatever.
