Mystery of His Whereabouts Causes Heney and Burns to Worry. No Word From Egypt

Wife of Indicted Telephone Magnate States That Husband Is Enroute to San Francisco to Face Accusers but He Fails to Appear.

(Journal Special Service.)
San Francisco, March 26,—The creasing mystery surrounding whereabouts of A. K. Detwiler, the missing capitalist and promoter of the missing capitalist and promoter of the Home Telephone company, is beginning to cause Heney and Burns much anxiety. Conflicting reports from Toledo are the principal cause of the feeling which a added to by the failure to receive re-plies to messages sent to Egypt, where, according to authoritative information the Chican is Joseph the Ohloan is located.

A. K. Detwiler, the Ohio promoter who is said to be on his way here from Toledo to facs the charges against him, will be arrested on arrival, but even he is said not to be the biggest fish the net will catch. One of the subjects that will soon occupy the time of the grand jury is the relations of Thornwell Mulially, assistant to President Calheun of the United Railroads, and Tirey L. Ford, chief attorney for the company, to the corruption which seems to have reached everyone connected with the overhead trolley franchises. Mulially has been emphatic in his denials of the reports that he was in any way involved in the graft scandals. He is equally insistent in his (Continued on Page Two.)

SNAPS IN GALE

Consider the Methodist ministers of the city and their wives gave a dinner at Watson's restaurant to the veteran minister and his wife and about 40 guests gathered around the board. There were old men there connected for years with Oregon history, but Mr. Flynn could look down upon them with the superiority of years. Dr. C. C. Cline and Dr. L. D. Driver, in their eightles, were spoken to by him as boys. For Mr. Flynn is the sole father of Methodism in Portland. All his companions in the early work have gone to the great beyond.

in Tremendous Seas and Flying Signals of Distress.

Officers of the oil tank steamer Argyle report that when off Cape Blanco on the way from San Francisco to this port last Friday the steamer Alas lost her tow, barge No. 19, while bringing her here from the Bay City. A terrificialle was blowing and the immense hawer snapped from the heavy strain of the oil-inden barge.

The Argyle arrived at the Linnton tanks yesterday and discharged her cargo of oil and then left down the river, bound for San Francisco. She sighted the Atlas and the barge Friday afternoon about 18 miles from shore, the barge fiving signals of distress and inboring fearfully in the heavy westerly sea. The Alias stood by, ready to put another hawser on board of the barge as soon as the weather would permit. The rals continued in force nearly sil Saturday and Sunday, however, so it is doubtful if the tow was picked up before yesterday, if at all No word has been received from the two vessels since sighted by the Argyle were declined.

Steward of Steamboat Owned by Well-Known Navigator Tells Cameron of Beating Received While in Bunk.

Captain E. W. Spencer, clubman, bor the lists against Mayor Harry lights in the contemplated mevement to raise a fund to bring Francis J Heney and William J. Burns to Port-land to investigate graft in this community, rubbed elbows with the hot-poiloi in the police court this morning while awaiting trial on a charge of assault and battery preferred by C. Cooper, a steward on the steamer Charles R. Spencer.

Spencer was arrested last Saturday evening on a warrant issued upon com-plaint of Cooper, who alleged that the steamboat owner had, without provoca-tion, viciously assaulted him. Bearing the tell-tale marks of Captain Spencer's pugilistic prowess on his countenance, Cooper appeared in court, accompanied by Attorney Fouts. Prior to the calling of the case, however, Spencer en-tered a plea of guilty and no testimony

tered a plea of guilty and no testimony was taken.

Judge Cameron after listening to a brief statement of the circumstances of the affair from Cooper and examining the scars received by the defendant in the encounter, imposed a fine of \$35 on the doughty river navigator.

According to the story told to the court by Cooper. Captain Spencer, considerably under the influence of liquor, and accompanied by another fresh water navigator, boarded the steamer Chas. R. Spencer early Saturday morning. Unaware that his employer contemplated securing sleeping quarters on the boat, Cooper, in order to have the quarters of the crew thoroughly cleaned, had installed all hands in staterooms on the upper deck.

One of the fact, he was unable to Cooper and told me I did not give her enough. I called her names and we had a terrible quarrel. I became so angry that I did not know what I was clong. I grabbed her by the shoulders, shock her and threw her to the kitchen floor. She screamed for help, and I choked her.

"Then I grabbed a small kitchen krife that was lying on the table. She struggled frantically and I cut her several times in the abdomen and on the leg.

"Then I fainted away. When I came to I was lying in a pool of blood and her dead body was lying beside me, I picked up the body and got some towels and washed the blood off it as much as

had installed all hands in staterooms on the upper deck.

Owing to this fact he was unable to furnish Captain. Spencer and his guest with lodgings, whereupon, says Cooper, the former became belligerent and attacked him. Contrary to the rules prescribed by the Marquis of Queenabury, Spencer did not wait for Cooper to arine from his hunk, but according to the complainant, beat him while prostrate. It is understood that the enraged man then started in to clean out the entire crew but was finally pacified and induced to leave the steamboat.

Amount raised at breakfast yesterday morning, \$5,106.

Total about \$25,006, or nearly a third of the amount needed to complete the \$350,000 building fund.

The report at noon today of the Y. M. C. A. workers was the most encouraging from first to last of any that has been yet given. Every committee far exceeded its total for yesterday and what was the high water mark at noon yesterday was less than the committee average today. T. B. Wilcox increased his \$5,000 donation to \$10,000, which materially helped, and Wadhams & Co. as a corporation gave \$1,000. The rest of the big total reported at noon today was secured by hard work by the 100 solicitors from hundreds of people. The odd cent of the total reported at noon today was the last and only cent one man had who, saw the committee coming too late to dodge.

After the Pawnbrokers.

It was a pawnshop and Chinese morning for the Y. M. C. A. workers. Most of the territory assigned yesterday had been covered before noon and the chairmen were instructed to take their men to the north end. The district being canvassed today is that bounded by Stark and Burnside streets and by Serenth and Second. Down Second street went the committees, trying to make the Chinese understand that it was money that was wanted and trying to induce a pawnbroker to sign a pledge a pawnbroker to sign a pl

The utter consternation that The utter consternation that comes over the countenance of the average pawnshop manager when he finelly understands that these young men before him do not want to pawn a watch, but do want him to give them money, real money at that, and sign his name to a piedge in the bargain, the absolute wonder and voiceless amage he shows is considered one of the features of the campaign by the men who have been in this district today.

The result of the everybody gives campaign so far is all that was hoped for by the executive committee. The hundred solicitors have secured more pledges than was hoped in some of the unfavorable districts already canvassed and there is not a discouraged man in the hundred. An average of \$15,000 a day for six days means the securing of the \$90,000 needed to complete the building fund and after a day and a half of the work the totals show that the average is being kept up to.
