THE COCK WILL CROW.

Jubilant Ohio Democrats Take the Rooster as an Emblem of Victory—A Rousing Convention.

CLEVELAND, July 15.—One of the largest, and at the same time the most harmonious conventions ever assembled in the history of Ohio democrats met this morning in this city. The vast music hall, in which the convention was held, was packed to its utmost capacity long before the hour of meeting arrived.

Chairman Norton formally opened the convention in a brief but stirring address. At its conclusion Allen W. Thurman, temporary chairman, stepped forward and addressed the convention. Thurman, after a few preliminary remarks, launched forth with a denunciation of the republican party and its methods.

The following resolutions were presented to the convention today: The administration of Governor Campbell is endorsed for its honesty and economy and the last session of the general assembly is commended especially for its having provided for the secret ballot.

The majority report reads: "We are opposed to all class legislation and believe in a tariff levied for the sole purpose of producing revenues sufficient to defray the legitimate expenses of the government economically administered. We accept the issue tendered to us by the republican party on the subject of the tariff. We favor a graded income tax; we denounce the demonetization of silver in 1873 by the party then in power as an iniquitous alteration of the money standard in favor of creditors and against debtors, tax-payers and producers, and which by shutting off one source of supply of primary money continually increase the value of gold, depressed prices, hamper industry and disorganize enterprises, and we demand the re-statement of a constitutional standard of both gold and silver with equal right, each to free an unlimited coinage."

"We denounce the republican million dollar congress which by its extravagant expenditures has exhausted the surplus in the National treasury left there by a democratic administration and created a deficit."

"We favor closer commercial relations with our Canadian neighbors."

"We favor a liberal and just pension to deserving and disabled soldiers and sailors and their widows and orphans."

The minority report gives the following as a substitute of a silver plank in the platform.

"We believe in honest money and the coinage of gold and silver and having the circulating medium convertible into such money without loss, and we oppose all legislation which tends to drive either gold or silver out of circulation and we believe in maintaining the coinage of both metals on parity."

It also recommends that the resolutions declaring for a graduated income tax be stricken out of the platform.

The minority report was rejected by 399 1/2 nays to 300 1/2 yeas, and the platform as reported by the majority of the committee was adopted.

Ex-Congressman LeBlond has been selected as permanent chairman.

On motion the picture of a victorious rooster was adopted as the device to designate the democratic ticket in accordance with the ballot reform law.

The first contest in the convention arose over the report of the committee on credentials. A dispute in the 25th ward of Cincinnati and the Hamilton county delegation was the subject of a wrangle. The minority report was overwhelmingly defeated, and the majority report on the credentials committee was then adopted.

Nominating speeches for governor commenced at 10:00 o'clock. Pollett of Cincinnati placed Neal in nomination, at the conclusion of which the convention went wild. Michael Ryan of Cincinnati, nominated Governor Campbell.

On behalf of Cayahago county, Dodge leader of the Kline men said: "I move we make the nomination of Campbell unanimous."

The motion was quickly put and declared carried on a viva voce vote. The Neal men failing to demand the yeas and nays, the Hamilton county men voted "no" in chorus, however, and as if to emphasize their opposition repeated "no, no, no," for half a minute following the announcement.

The motion prevailed and they hissed loudly and repeatedly notwithstanding cries of "shame, shame, shame," from Cayahago county delegation.

LATEST REPORT.

CLEVELAND, July 15, 2:40 p. m.—Campbell was renominated on the first ballot.

One of the Charleston's Sailors Murdered.

SAN DIEGO, July 15.—Popular feeling runs high against the officers who took part in yesterday's tragedy by which one of the Charleston's sailors was killed and four others seriously wounded, one perhaps fatally. Three officers are under arrest and others will be taken into custody.

A Family Poisoned.

LOUISVILLE, July 15.—Near Russellville yesterday the family of J. N. Cornelius, a farmer, was poisoned at supper. Bernard Cornelius, a nephew, died, and five others are dangerously ill. The poison is supposed to have been in the milk.

Spurgeon in a Critical Condition.

LONDON, July 15.—Rev. Charles H. Spurgeon has suffered a relapse and is again in a very critical condition.

Ontario Crop Report.

TORONTO, July 15.—Reports from all parts of Ontario indicate that all grain and root crops will be above the average, and that hay will be away below it.

San Francisco Market.

SAN FRANCISCO, July 15.—Wheat, buyer '91, after August 1st 1.55 1/4.

Weather Forecast.

SAN FRANCISCO, July 15.—Forecast for Oregon and Washington, fair weather.

A WOMAN'S GRIT.

For a Hundred Dollars She Sells Forty-Five Inches of Her Skin.

SAN FRANCISCO, July 13.—Mrs. Lucy Pratt, a young widow, today sold forty-five square inches of her skin for \$100. A strip of skin, nine by five inches, was cut from her body by surgeons and grafted on to the leg of William A. Dagget, a railway mail clerk, who was frightfully injured in a railroad accident at Port Costa. His right leg was terribly burned and the wound would not heal. As a last resort skin grafting was resorted to. W. G. McGregor, a fellow clerk of the sufferer, volunteered to make the sacrifice, but when he learned the amount of skin needed he backed out. Mrs. Pratt is one of the trained nurses at the hospital for children and the training school for nurses. She has three children and needed money, so she offered to furnish the necessary amount of skin. She submitted bravely to the operation, which was successfully performed, and was paid \$100 for her sacrifice.

ANOTHER BLOCKADE.

Farmers Fearful of the Various Railroad Companies.

GARFIELD, July 13.—It is now evident there will be another wheat blockade this fall, unless the farmers hold the grain for better prices, which is not likely. The export of grain from the Palouse country will not be less than 15,000,000 bushels, and may run nearer 18,000,000. Even the lesser sum will make 15,000 trainloads of 15 cars each, which is more than the grades of this country will permit as an average. But the present crop will undoubtedly move more rapidly than the last one, and the country is better supplied with warehouses. But little if any grain will be exposed to the weather, as was the case last year.

THE TABLES TURNED.

Colored Miners Now Demanding Fair Play of Their Employers.

SEATTLE, July 13.—A dispatch received from Newcastle tonight says that the negro miners, thirty in number, went out on a strike today because a few of their number were displaced to make room for thirteen white men from among the ranks of the strikers, who wished to return to work. The negroes held a meeting and resolved to go in a body if any of them were forced out, and the result is that the company reinstated the discharged colored men, making room for them in the side of the returning white miners.

VILLARD IS SATISFIED.

He Thinks the Northern Pacific an Excellent Property.

NEW YORK, July 13.—In an interview today Henry Villard said that the Northern Pacific was a splendid property, and was in a more promising condition than ever before. Mr. Villard looks for an active and an improving stock market. He says that the growth of the northwest in population and manufactures is phenomenal and will assuredly show in the railroad earnings. He expects to make a tour of inspection over the Northern Pacific property in a short time.

Money Found in a Piano Stool.

WELCH, Minn., July 13.—Saturday \$12,900 in bills were found in a piano stool among the effects of Lena Weisberg, the house-keeper of the old Hull house, who committed suicide two years ago. Eighteen months ago \$12,000 were found in some false bottomed trunks. The stool was ingeniously fixed to hold money without suspicion. The find was made by the administrator. The belief is the money was stolen as she handled the funds of the hotel. Her heirs reside in Germany.

The Fisheries Question.

LONDON, July 13.—In the house of commons this evening, Sir James Ferguson, under foreign secretary, admitted to a question that the French government had not yet moved in the chambers of deputies to assent to the submission of the Newfoundland fisheries question to arbitration.

NEWS OF THE NORTHWEST.

The farmers' alliance is said to be very strong in Linn county.

Willie Corette, ten years old, while playing ball at Butte Sunday, fell into an old shaft hole and broke his neck.

Washington county captured more prairie dogs at the Oregon state fair last year than any other county in the state except Marion.

Very little damage was done to the Morrison-street bridge at Portland by the fire Saturday night. The bents of the approach were not damaged.

Vancover prune men show by unanswerable statistics that there is a profit of \$400 an acre on prunes. This will be a great country for fruit fortunes.

The court martial to try Colonel Compton, of the Fourth cavalry, for neglect of duty in preventing the soldiers of his command from lynching A. J. Hunt at Walla Walla, will commence today.

At Stitor's mill, at Dallas, Tuesday morning, while Ira Melhorn was cutting down a tree for saw timber, the top of a tree flew back and pinned him face down into the earth. When the tree was pried off, it was found that his nose and collar bone were broken and his face greatly disfigured.

A new side wheel steamer, bearing a striking resemblance to the T. J. Potter, has been launched at Stephen's yard. It cost \$70,000 and is owned by Jacob Kum. It will probably be run in opposition to the Union Pacific company's steamer on the Portland-Illwaco route and as it will make connections with the Ilwaco trains, a drop in the present rates may be expected.

Went Over Niagara Falls.

NAGARA FALLS, N. Y., July 13.—Late this evening the body of a man was seen to go over the falls on the American side. A thorough search was made for the body in the lower river soon after it had been seen to go over, but no trace of it could be found. Whether it was an accident or a deliberate case of suicide, it is hard to determine, as there is no one missing from here so far can be learned.

A Good Word for the Fair.

LONDON, July 13.—The Standard says the Chicago world's fair will be the biggest show on record, and must not be neglected by British manufacturers and artists.

Freedom.

A touching story was told of Tamberlik, the tenor singer. Passing through Madrid one bright spring morning, he visited the bird market and bought every bird in it. He ordered the cages to be carried into the Plaza and opened. The sunny air was filled with a fluttering host, and from hundreds of tiny throats burst songs of delight. Tamberlik looked after them with tears of pleasure in his eyes, crying, "Go, and be free, my brothers!"

Value of Diamonds.

The weight of a carat is four grains Troy, but the value of the diamond carat is a very uncertain quantity, depending altogether on the quality, purity, cutting and size of the stone. According to a standard work on precious stones, a well-cut diamond of perfect color, having no flaws, "feathers," or other imperfections, is worth \$40; one of two carats is worth from \$80 to \$100; one of three, \$300; of four, \$600; of eight, \$1,000; of ten, \$1,500; of twenty, \$16,000.

The valuation of stones of a larger size is purely a matter of fancy, depending almost altogether on the whims of seller and purchaser, and even with the small sized stones an almost inappreciable variation in tint will often make an enormous difference in valuation. Fashion also influences the price of diamonds.—St. Louis Globe-Democrat.

Difficult to Please.

Scheming Mother—What objection have you to that wealthy Mr. Lightpate's beautiful daughter?—He never talks anything but nonsense. He seems to think all women are fools.

Mother—You cannot find that fault with Mr. Creamhead?

Daughter—He's a perfect bore—always talking about things I don't understand.—New York Weekly.

Inconistency.

Mr. Growler (to wife)—No wonder we have ruined gas bills. I have just counted sixteen burners going full blast in this house. (Leaves the room and returns in great excitement). Say, Maria, who in thunder turned out that light in the smoking room?—West Shore.

Curious History of the Tomato.

The tomato has a curious history. After the revolution of St. Domingo many French families came from there to Philadelphia, where they introduced their favorite "pomme d'amour." Although introduced from South America as early as 1596 into England, it was looked upon with suspicion, and its specific name, Lycopersicon, derived from lykos (wolf) and persikon (a peach), referring to its beautiful but deceptive appearance of its fruit, intimates pretty closely the kind of estimation in which it was held. It is now, however, all but universally used.

A physician in St. Paul by mistake vaccinated a lot of girls with mucilage.
