McKinley Determined to Revive Arbitration Treaty.

IS PROFITING BY EXPERIENCE

A New Treaty Has Already Been Drafted to Serve as a Basis of Negotiations.

WASHINGTON, June 19.—President McKinley has determined to revive the arbitration treaty between the United States and Great Britain. He has already turned his attention to the subject, and under the direction of Secretary Sherman, the matter has progressed to the extent that a new treaty has already been drafted to serve as the basis of negotiations. In the draft which is to be used as the basis there are said to be none of the objectionable points which caused the failure of the Olney treaty. It is not in contemplation that the treaty will be submitted to the senate before next December, and there is reason to believe that the attitude of the senate toward a new treaty will be fully canvassed and understood before the treaty is signed.

It is understood that the initiative in the present case will be taken by the government, as the failure of the former treaty, by the inaction of the senate, left the subject in such a condition that the British government did not feel disposed to renew negotiations until first invited by the United States.

Sir Julian Pauncefote leaves Washington next Tuesday for Great Britain. It was understood at first that the ambassador would take a copy of the new treaty with him, but this will not be done. It is expected, however, that a draft will be in London at no distant day, in which case Sir Julian Pauncefote will be in communication with the foreign office to consider the terms of the instrument.

### IN THE EVENT OF WAR.

Canovas Says Spain Is Capable of Rising to the Emergency.

NEW YORK, June 20.—A dispatch from Madrid to the Herald says:

Premier Canovas declared yesterday that in the event of a conflict between the United States and Spain, the latter country was capable of rising to the emergency.

General Woodford's expected arrival awakens considerable speculation, since it is known here that from the date of his confirmation, he is allowed 30 days to receive instructions, and 30 days for the journey to Madrid.

Her majesty makes it an invariable rule that foreign ministers shall neither take leave nor be presented at San Sebastian, since facilities are wanting for the requisite ceremonial and the royal family wishes complete retirement. So, normally, Mr. Woodford cannot present his credentials until October 1, when the court returns to Madrid. If the usual course is followed of hastening Woodford here, or of pressing for a reception ahead of time, Spain will regard it as an effort to precipitate events.

### STORM IN THE SOUTH.

Extends Over Nearly All the Gulf States.

NASHVILLE, June 20.—A severe storm prevails in nearly all of the gulf states and Southern Tennessee.

At 1 a. m. all telegraphic communication with Memphis and New Orleans was stopped by the collapse of the wires in the whole Lower Mississippi valley. The great extent of territory covered by the storm is indicated by the fact that the Southern coast routes from Atlanta

to New Orleans are also down.

At Montgomery, Ala., the electric disturbance was terrific. The lightning struck the Western Union wires near the city and the leaping sparks in the office of that company caused a fire, which destroyed the building, valued at about \$40,000.

There are no reports of heavy wind accompanying the storm. In fact, nothing is known of what occurred south of here beyond the disabling of the telegraphic system and the fire at Montgomery.

### Afternoon Storm at Montgomery.

MONTGOMERY, Ala., June 19.—The severest storm known in this section visited Montgomery about 5 o'clock this afternoon. The wind registered 54 miles an hour for a few minutes, and almost three-quarters of an inch of rain fell within 20 minutes. The temperature dropped 20 degrees in as many minutes. Crops in the surrounding county were damaged and numerous roofs were blown off.

### Struck by Lightning.

IOWA CITY, Ia., June 19.—The library building of the Iowa state university was struck by lightning this morning and destroyed by fire. It was a two story brick structure. The loss is \$100,000. Of this \$50,000 was on books and \$15,000 on apparatus. The library was the best in the state. Many of the books are out of print and cannot be replaced. The Talbot collection of 4500 volumes was about two-thirds destroyed. This collection was exceedingly valuable, many books dating from the 16th century.

Fireman L. M. Leek was caught under a falling roof and burned to death.

QUINCY, Ill., June 19.—Two farmers were killed by lightning in a barn near Taylor station, Mo., today. They were James H. Smith and Samuel H. Hickman. The same flash fired the barn and it was burned. Hickman was roasted to a crisp.

"For three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., "and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so." ## What

do you suppose is that missing word? We tell you this: it isn't very hard; it isn't easy; it's about middling.

The tea isn't middling though: your money back—at your grocer's—if you don't like it better than any you ever had before.

### EVE OF THE JUBILEE.

London Thronged by a Gathering of Strangers.

LONDON, June 19.—Never in the history of England has London so strikingly shown itself the heart of the world as it does tonight, the eve of the jubilee. At all times the busiest hive of the human race, tonight London is crowded to the innermost door by a stupendous gathering of strangers representing nearly every race under the sun and nearly every country found upon the map. The common object of this crowd, participation in the greatest historical pageant yet witnessed in the history of the British empire, gives tone and complexion to every minute of time, to every thought and action. There is nothing in men's minds at the hour, from the highest prince in the palaces to the lowest sneak-thief in the streets, but the jubilee.

It is impossible to pass along any of the crowded thoroughfares without everywhere remarking the two predominant notes of the occasion, the world's desire to honor Queen Victoria and the proud wish of her subjects in doing so to impressively demonstrate the strength and vastness of her empire. The streets, hotels and stately mansions of the West End are crowded with the great who have already come to honor the queen, while barracks and bivouacs in and around the metropolis are thronged with soldiers in every uniform known to British administration, from the headhunting Dyaks of the Borneo police, the mounted men of Australia, India and Africa, fort soldiers from the West Indies, Zapties from Cyprus, to the stalwart representatives of military government under "Our Lady of the Snows." Suggestively, it is a rare kaleidoscopic picture of races, men and creeds, a vivid panorama of the march of that empire, upon which, as Daniel Webster said, the sun never sets. The air is alive with expectancy, thousands upon thousands of flags and banners float in the evening breeze, the decorations, which have easily cost a million of English money, are in place, myriads of lights are glowing or stand ready for their flame—London smiles in self-content.

### Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs, and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Blakeley & Houghton's drug store. 1

### A Blackberry Picking Bee.

LIBERTY, Mo., June 19.—Fully 10,000 blackberry pickers have already arrived here for the season, which opens Monday. The crop is estimated at 60,000 crates, the largest ever known. Never has there been such a crush of humanity here. Gambling devices of all descriptions are running without interruption.

### LOST.

A gray mare, branded on left shoulder. Was originally one of the O. S. Morgan band, and was raised on the range adjacent to 3-Mile creek. Suitable reward will be paid for the return of said mare to T. A. HUDSON, The Dalles, Or. jun19-11

### Tore Through Kansas.

LARNED, Kan., June 19.—A tornado swept through the northwest part of this county, and Roselle, a village 18 miles west of here, was almost wiped out of existence. A mile north of Roselle the farmhouse of Ed Chesterton was unroofed and one side blown in.

### Working for Judge Caples.

WASHINGTON, June 10.—The Oregon delegation called on the president today and urged the appointment of John F. Caples to a consulship. It is probable that Judge Caples will get something soon.

### The French Cyclone.

PARIS, June 19.—Gaulois today says that 20 persons were killed and 80 injured in a cyclone which swept over the villages of Bezons, Colombes and Asnières.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
