PERSONAL MENTION

Hon. Wm. Biggs went up to Wasco this morning.
E. E. Lytle is at Biggs today looking after the work on the new railway.

DIAMONDS MADE TO ORDER.

Discovery of a Process for Making Stones of Large Size.

Diamonds are to be cheap. They will be made to order. Diamonds of a very small size have been produced artificially heretofore, but no one had succeeded in producing them of large size.

In principle Moyat's process is about the same as the one already invented by others, and that is to obtain crystallized carbon out of iron and coal by means of high pressure and high temperature.

While the mixture is cooling, the carbon crystallizes, partly in the form of real diamonds and partly in the form of similar stones. These crystals are then segregated by dissolving the iron in diluted muriatic acid.

Notice to Taxpayers.

On and after July 1, 1897, costs will be added for the collection of all taxes due Wasco county on all delinquent rolls now in the hands of the sheriff.

Rich Placer Strike.

The news comes in from the old camp at Rye Valley that Messrs. Fred Gardner and Charles Durkee have discovered a new tract of placer ground on what is known as Shelton gulch, which will pay \$50 per day to the man.

The Westfield (Ind.) News prints the following in regard to an old resident of that place: "Frank McAvoy, for many years in the employ of the L. N. A. & C. Ry. here, says: 'I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for ten years or longer—am never without it in my family. I take pleasure in recommending it.' It is a specific for all bowel disorders. For sale by Blakeley & Houghton.

"The Foot of a Fly"

says an eminent English doctor, "will carry enough poison to infect a household." In summer-time, more especially, disease germs fill the air, multitudes are infected, fall ill, die; multitudes escape. These messengers of mischief do not exist for millions. Why not? Because they are healthy and strong—protected as a crocodile is against gunshot. It is the weak, the wasted, the thin-blooded who fall; those who have no resistive power so that a sudden cough or cold develops into graver disease. We hear of catching disease! Why not catch health? We can do it by always maintaining our healthy weight.

Scott's Emulsion

of Cod-liver Oil, is condensed nourishment; food for the building up of the system to resist the attacks of disease. It should be taken in reasonable doses all summer long by all those whose weight is below the standard of health. If you are losing ground, try a bottle now.

INDIANS OF YUCATAN.

strange Customs with Infants and with Brides in Early Days.

In an old book called "The Buccaneers of America" recently reprinted, is given a curious account of the customs in vogue among the Yucatan Indians two hundred years ago.

As soon as a child is born it is carried to the temple where a circle of ash is made and filled with ashes. On his heap of ashes the naked child is placed and left there a whole night alone, not without great danger, no one daring to come near it.

To this animal the new born babe is consecrated, as unto his god, and this beast he is bound to worship and serve all his life—it being his patron and protector. When grown to manhood the parents instruct him in regard to his patron beast, and teach him to serve and honor it as his own proper God.

A man desiring to marry applies first to the damsel's father or nearest relative. He is carefully examined concerning the manner of cultivating their plantations, and other matters. He is then given a bow and arrow. With these tokens he repairs to the young maid, and presents her with a garland of green leaves interwined with fragrant flowers.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers.

TO BUY THE POPE A CITY.

Constantinople, More Than Rome, is Likely to Be Purchased.

It is suggested that the Roman Catholics of Christendom shall subscribe \$1,000,000,000 to buy Rome and a near-by seaport for the pope, says Harper's Weekly. The belief is expressed that the Italian government might sell the property without serious detriment to its political integrity and that the money could be used to great advantage in relieving Italy of part of the burden of her public debt.

The plan is a very pretty one and there are those who think the money might be raised and that King Humbert's government would appreciate the advantages of such a bargain. But would Rome be the best purchase the pope could make with the money? Chicago would take him vastly cheaper and give him port privileges on Lake Michigan, but she could not engage to make him monarch of an American township at any price.
