## Indian Basket Makers.

A delegation of Indians from the Grand Ronde reservation make an annual outing trip to Portland, Ore., every year in time to attend the Fourth of July celebration, and if possible a circus. They have tents and come in wagons, some having two horses and some four. The ostensible purpose of their visit is to sell baskets. These they make from hazel twigs, heated in the fire till they are rendered tough and pliable, and the bark peels off easily.

The head of one of the oldest and most important financial houses in Chicago said this one day lately with a great deal of emphasis:

"I much wish that our younger business men would exercise a keener appreciation of how injudicious it is to coluntarily appear in print by giving accurate information regarding such matters as the days on which their establishments have the most cash on nand, the mails in which they usually

make their heaviest shipments of eash, and all that sort of thing. Only this week a young bank official did all of this and more. Not only did he name the days that the institution with which he is connected has the most eash on hand

money to the post and express offices, but he gave the same information regarding two or three other institutions of a similar nature.

"There have been other cases where the same thing has been done by young the least show of resistance. That one men. It is seriously wrong, wholly and entirely unbusinesslike. To do so of his career, and from then on he has simply means the giving of valuable and otherwise wholly unattainable weight on his mother's hands."-Chica- pointers to the highwaymen from whom we are hearing with such alarming frequency and in so serious a manner of late.
