THE DALLES, OREGON, TUESDAY, JULY 11, 1899.

NO 75

SHERIFF IS WELL ROASTED

Commissioners of Shoshone County Found Guilty.

THE JUDGE ORDERS REMOVAL

Judge Stewart This Morning Found That the Commissioners of Shoshone County, Idaho, Were Guilty of Willful Misconduct.

WALLACE, Idaho, July 10.—In deciding the removal cases this morning, Judge Stewart found that the commissioners were guilty of willful misconduct in allowing bills to the sheriff in excess of the lawful fees; in allowing percentage for collecting licenses without application or bond; in approving bonds of county officers with insufficient sureties; in failing to take action when notified of probable destruction of property at Wardner. For these he held them guilty of neglect sufficient to justify removal. In the case of the sheriff he said:

"Defendant by his own testimony has convicted himself of most flagrant violation of official duty."

Continuing, he delivered a warmer roast, if possible, than that delivered by W. E. Borah in his closing argument in the same case. Defense gave notice of appeal.

Mr. Forney, in the statement to the jury in Corcoran's case, said that the state would show that Cheyne met his death by being shot on April 29. That there was a conspiracy existing prior to that to drive the employees of the Bunker Hill Company from their work by threats and intimidation. That there were then in the Coeur d'Alenes four miners' unions—Burke, Gem, Mullan and Wardner. That these unions received charters from the Western Federation of Miners. That implicit obedience is required from each member to orders of higher powers. That there was also a central executive miners' union, composed of two delegates from each of the local unions. This central union held authority over local unions, but was in turn subject to the Western Federation. The central union could meet in either town where local unions existed, or in Wallace. That Bunker Hill was nominally worked by non-union miners, but that some union miners were there. That in April the union men at Wardner became aggressive, posting notices demanding each man in the Bunker Hill mine join the union. That the central union held a meeting and agreed to uphold the Wardner union in its fight against the Bunker Hill Company. That the union at Wardner, April 25, held an all-night session, leaving the hall about time for shifts to change; adjourned from the hall to near the Bunker Hill mine, where the miners were going on and coming off shift, and were told that they must join the union that day; if they failed to do so another proposition would be made. That these men were headed by the president of the Wardner union, who told the Bunker Hill men that the movement was backed by the Western Federation, and the Bunker Hill mine would never run again without union men unless under guard of soldiers. The state will show that prior to April 29 the Burke union had passed resolutions giving their assistance to the Wardner union and levied assessment of 5 per cent of month's pay for such purpose. That on the morning of April 29 members were notified not to work that day, but to repair to union hall. That from the hall they went to Burke on the arrival of the train. That from thence they went by train to Black Bear and to Gem, where additions were made to their number. That from Gem the train backed up to the 'Frisco powder-house, where some seventy boxes of dynamite was loaded. That the Gem union hall had been dark that morning,

with masks and guns inside. That at Mullan union men met in session at the hall. That the proposition was made to mask, but it was voted down. That when outside of the hall some were found to be armed and masked. That when near Wallace more arms were taken from a box in a manure pile out in the field. That at Wallace the Mullan men met those from Burke and Gem, with almost military precision, all going from here to Wardner. That Wardner union men had been notified not to work that day, but to appear in jumpers and overalls on the track a short distance east of Kellogg. That they met the train there.

That Cheyne and others were captured by these masked men at Kellogg and held while powder was put in the mill. That they were abused while held, and finally ordered to run, and that when they did run they were fired on, Cheyne receiving wounds from which he died two days later. That the state will show defendant was financial secretary of the Burke miners' union. That just before the departure of the train from Burke the defendant boarded it with a rifle, saying: "Men, we're going to Kellogg to destroy the Bunker Hill mill." That he was in the party which fired on Cheyne. That only local and charitable business are transacted in open meetings of miner's unions, strikes and similar important matters being managed by officers under direction of the president of the Western Federation.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Jumped From a Train.

LOS ANGELES, Cal., July 10.—A. Kramer, of Dayton, Ia., jumped a Southern Pacific train near Burbank, and taking a penknife from his pocket, he proceeded to gash at his throat. The train was stopped and the man put on board and brought to this city. His only injury is loss of blood. It is thought that Kramer became temporarily insane from the heat of the Mojave desert. He had considerable money with him, as well as a return ticket to Dayton.

A Frightful Blunder

Will often cause a horrible burn, scald, cut or bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Thomas Rhoads, Centerfield, O., writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witch Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits. Butler Drug Co.

DeWitt's Little Early Risers expel from the system all poisonous accumulations, regulate the stomach, bowels and liver, and purify the blood. They drive away disease, dissipate melancholy and give health and vigor for the daily routine. Do no gripe or sicken. Butler Drug Co.

FRIGHTENED TO DEATH

Burglar Alarm Going Off Accidentally Causes Death of Female Physician in San Francisco.

SAN FRANCISCO, July 10.—Death called Dr. Mary C. Edmonds, a well known physician of this city, in a tragic fashion at her home at 913 Bush street. The accidental setting off of a burglar alarm wrought up her nerves to such a strain that she suffered death by fright. She went to a window and blew a whistle. Help came, but just as she opened the front door she tottered and fell dead.

Mrs. Edmonds was a very talented and successful physician of this city. She was the widow of Judge Edmonds, late of the superior court, and leaves two sons and a daughter. The latter, Miss Annie Edmonds, is a teacher at Berkeley, and one of her sons, Frank W. Edmonds, who has been connected with the United States geodetic survey for years, is now in Alaska. Her other son, Dr. Harry Edmonds, is a physician practicing in Fresno county.

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy was kept on hand and administered at the inception of an attack, much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by Blakeley & Houghton, Druggists.

A diseased stomach surely undermines health. It dulls the brain, kills energy, destroys the nervous system, and predisposes to insanity and fatal diseases. All dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't help curing. Snipes-Kineraly Drug Co.

An Epidemic of Diarrhoea.

Mr. A. Sanders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Cholera, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by Blakeley & Houghton Druggists.

INFLATED CURRENCY TROUBLE

Silver Has Been Made Contraband and Bankers are Forced to Flee From the Land.

SAN FRANCISCO, July 10.—Several leading citizens of Guatemala, just arrived on the steamer San Juan, confirm the report that a revolution is threatened in that country. A prominent planter here said:

"The inflated currency, combined with the surplus production of coffee, explains the condition. Of late years every bit of arable land has been used for the growth of coffee, with a result that there is over production."

The Call says that President Cabrera is charged with having ordered the coinage of a silver standard piece, 600 fine, in place of 835 fine. This brought a storm about his ears, and he laid the blame upon the superintendent of the mint, who now lies in jail.

In order to adjust matters Cabrera made a demand upon the banks for subsidies of silver. This was refused, with the result of the expulsion of President Rocenda Devella, of the Bank of England, and the forced flight of Alexander Abrahamson, of the Bank of America. Silver has been made contraband. All Guatemalans who attempt to ship it are apprehended and incarcerated.

The treasury, foreign relations and public works portfolios in the cabinet are now vacant, no one caring to accept either office.

The floating of \$2,500,000 in paper, with which the laboring people are paid, and which is practically worthless, has led to much suffering in all parts of the country.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised 'Electric Bitters'; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed, at Blakeley & Houghton's drug store. 5
