

NEWS NOTES

Leaves for Crater Lake—Carlton L. Pepper expects to leave tomorrow for a two week's automobile trip through southern Oregon and northern California.

Men Swim—Tomorrow night is men's night at the high school swimming tank. In order to pay the cost of heating the water to a comfortable temperature, a nominal charge will be made. Hugh Davey will be in charge of the pool.

Home for Vacation—Ellerton Al Duch has returned from the University of Michigan to spend the summer vacation at home in The Dalles. He graduated from the local high school in 1918 and has since been attending Michigan.

92 Attend Vacation School—Attendance at the vacation school was 92 both Monday and Tuesday. There will be no session on Monday morning, July 4, owing to the fact that many of the children will be away with their families for the day.

Reunion of Sisters Continues—Mrs. Leon W. Curtis, Mrs. R. H. McFarlane, Mrs. H. S. Hunter, Mrs. J. M. Kautzman and Mrs. George Hall accompanied their sister, Mrs. S. Cooley, to her home at Bickleton, Wash., today. The sisters have been together at the home of Mrs. Curtis for the past two weeks. The visit will be continued for several days at the home of Mrs. Cooley before they separate to go to their homes.

Visiting Stock Ranches—Dr. C. G. French, Mrs. F. A. French and sons and Mrs. Samantha A. French left this morning by automobile for the Gilman-French Land and Livestock company's ranches near Fossil. Dr. French and Mrs. Samantha A. French will be gone for a week or ten days. Mrs. F. A. French and sons will spend the summer in the Blue mountains.

Grass Fire Menaces Wheat—Grass fires originating apparently from cigarettes thrown along the road from passing automobiles, swept up the steep pasture lands above Celilo Tuesday, menacing wheat fields owned by C. Remington. The fact that the wheat was still too green was the only thing that saved it from serious damage. The fire was more than a mile long and it burned a strip half a mile wide. Fifty or more men fought the fire, beating it down with sacks. The blaze was first discovered about 10 o'clock and it was not put out until after 12 o'clock. Smoke from it was observed for miles.

Go Easy on Water—The city water commission today requests that consumers of water go easy on their irrigation and other requirements. The fire demands Monday lowered the reservoir several feet, and under present conditions, with the dry season coming on, replenishment of the reservoir is rather difficult. The water commission does not want to issue an order restricting irrigation, but it will be necessary, members of the body declare, unless the wasteful methods now being used are discontinued. There are people in the city who are allowing hoses to run day and night, city officials say and means to stop these unnecessary losses will be adopted at once.

Osborn Suit Continues—Still against Willard Osborn and Sheriff Levi Christman, sharply heated yesterday morning by the death of Osborn in the court room, was continued in the circuit court today with Sheriff Christman the defendant. Suit is for the return of two horses, a set of harness and a farm wagon, alleged to have been unlawfully seized by Osborn and Christman, upon a writ of attachment, together with damages to the extent of \$500. With the elimination of Osborn from the case, suit is now being continued against the sheriff's bondsmen. Christman is in Medford today, where he went to get two alleged juvenile automobile thieves, said to have been arrested there in possession of an automobile belonging to John Wernmark of this city.

Spray Pools With Oil—There will be no serious epidemic of malaria in The Dalles from mosquito bites if the O. W. R. & N. company can help it. All the requirements of a wonderful home of husky young mosquitoes, with bills guaranteed to pierce armor plate and silk stockings, were left by the Columbia river when it subsides in a number of pools of stagnant water. Pools such as the one directly opposite the passenger station are natural breeding places for mosquitoes and polliwogs, and both had started to appear in large numbers when the railroad company took a hand. All pools near the railroad tracks inside the city limits have been sprayed with oil, deadly to young mosquitoes, according to C. R. Marshall, freight agent. It is not known just what effect the oil will have upon this year's tadpole crop.

Delegates to Convention Leave—Delegates to the state convention of the American Legion will leave The Dalles this afternoon for Eugene, where the meeting opens tomorrow evening. The delegates are Ed Harrison and Harold Sexton, while Francis V. Galloway and Pat Foley, the latter, commander of The Dalles post, are alternates. Mr. and Mrs. Foley are driving to the convention and will establish Dalles headquarters in the Osborne hotel in Eugene. From these headquarters the cam-

paigned to secure the 1922 meeting in The Dalles will be carried on. Other delegates who are also driving to Eugene, will be accompanied by Henry S. Burke Massey. A dozen automobiles carrying local Legion members will leave the Elks' club at 7 o'clock Thursday evening to lend their presence towards the effort to land the big meeting for this city next year. A mass meeting of the post was held Tuesday at the court house, when final plans for the convention campaign were laid.

New khaki outfit wear for picnic and vacation. Best assortment and lowest prices at Edw. C. Pease company.

Take Notice—Persons owing bills to the Phette place Cozy Corner, at Tenth and Union streets are requested to pay same at the Phetteplace Store, Second and Court streets.

Life Story Reads Like a Romance

Mechanic Two Years Ago—Editor, Author and Prominent Chautauqua Lecturer Today

The story of E. B. Fish reads like a romance. Two years ago he was a machinist on Government work in Everett, Washington. Today he is the editor of "Labor and Industry," the author of one of the best known books on industrial relations, and a public speaker who has few equals in the entire West. He performed a heroic work in the Northwest in his fight on the "reds" and radicals.

In the words of a Texas paper "He is a human dynamo, a dealer of sledge hammer blows, a rushing fountain of terrific eloquence—undoubtedly the most popular lecturer on our 1920 program. "The best lecturer I have ever heard" was the general comment."

ter, Miss Lucile, went to Portland yesterday. They expect to remain several days.

Thornton's Lakes Dance will not be held tonight on account of the preparations for the Fourth of July. Regular Saturday night dance will be held, however.

Ladies' white canvas oxfords, low or military heel, F. A. French, opposite city hall, Chautauqua tickets here.

Fourth of July Celebration—If the youngsters under 10 will call at the Model Laundry on July 1 or 2, we will give them something to help celebrate the Fourth of July. Model Laundry, Main 41.

STILLMAN MAKES (Continued From Page 1)

pona directing him to appear for examination.

The first witness today was expected to be Miss Isabella Armstrong, nurse who was brought from San Diego, Cal., to testify regarding Stillman's nonaccessibility in connection with the question of Gay's legitimacy. Mr. and Mrs. F. A. Lalor, former servants at the Pleasantville estate, were to testify along similar lines.

It is understood the defense will have about fifty witnesses, several of whom will be used to refute "key hole and ladder" testimony.

The hearings began at 11 a. m. Mrs. Stillman, dressed in a black silk dress, with black hat, white silk stockings and black pumps, accompanied Mack to the court room. Abel I. Smith and John Brennan were present as attorneys for Mrs. Stillman.

BACK TO REAL BEER

By United Press

BERLIN, June 29.—Germany got back today to "peace time" beer—13 percent. It had previously been an eight percent beer, but that hadn't quite hit the right spot. The beer gardens are doing a rushing business.

Travel & Transport Topics

Conducted by Goodrich

Chicago recently conducted one of the most successful used car shows ever held. The show had the appearance of a new car exhibit. Dealers vied with each other in putting out the prettiest car. Many cars could have been lost in a shipment of new ones as far as the exterior was concerned. Special mechanical requirements were entered before the cars could be entered. One was tagged at \$5,500—a goodly sum for a used automobile.

Ever play motor poker? It is easy and just as fascinating as the indoor variety. Just sit on your front porch and watch the passing cars. This no-fee-of-their-license-numbers-and-record-them. Each player is assigned a car. By juggling the license plate numbers you get pairs, threes, straight, full houses and fours. Now you know how. Set your own limit.

Omaha, like hundreds of other cities, has been seriously affected by reckless automobile driving. To help

Reputation

Advertisement for French & Co. Bankers Inc. featuring a building illustration and text: "FOUNDED 1867", "RECOMMENDED BY OUR FRIENDS", "The service and facilities of the French & Company bank have so commended themselves to our customers that many now ones have been drawn to this bank through their recommendation.", "If you, as a customer of this bank, feel that this connection has been valuable to you, we will consider it a favor if you will tell new residents of The Dalles about it.", "4% Paid on Savings", "E. H. FRENCH, President, PAUL M. FRENCH, Vice-President, V. H. FRENCH, Secretary, J. C. HOSTETLER, Cashier", "FRENCH & CO. BANKERS INC. THE DALLES OREGON"

a local manufacturer, A. C. Scott, donated the space on his giant billboards to urge greater care on the part of drivers. Here is a sample of the wording used on the boards: "Drive carefully—we need the EX-TIRE population to make Omaha a bigger, better city." According to police records the campaign has reduced the number of accidents.

In Columbus, Ohio, you can gamble for your gas. The proprietor of one filling station there has built up a big trade through this unique attraction. Near his gasoline pump he has placed a raffle wheel. You name your number, spin the wheel, and if the arrow stops on it you get your gas free of charge. Usually there is a long line of drivers waiting for their turn at the wheel.

Beware of "war" tires! Don't buy them. This is the warning of the Associated Advertising Clubs of the World. Thousands of standard made American tires sold to the French government for one cent a pound are now being dumped on the American market. They were piled in the mud at a French supply depot unprotected by any covering and exposed to rain, snow, sunshine and frost. These tires are worthless, but are being sold by unscrupulous dealers as first class tires.

Various are the devices used by rural officers of the peace to apprehend speeding motorists. Showing at the fires and "paving" the road with tacks are among the methods employed. But, here comes the newest way. A constable near Greencastle, Ind., attempted to halt a speeding motorist by grabbing the spare tire on the rear of the car. It is expected that he will recover.

Automobile traffic on Lake Erie is so heavy that special freight steamer to load motor cars on all four decks has been put into service between Cleveland and Detroit. There is also big lake traffic in cars between these points and Chicago. The terrible railroad jam of last year which kept cars in transit for weeks suggested the possibility of shipping from the factories by boat.

What do you do with your discarded or worn-out automobile parts. Before selling them to the junk man consider these uses: One man uses an old piston as a combination paper weight and pen holder; another has converted a steering wheel into a base for a library lamp; and a flexible speed-

ometer shaft forms an excellent arm for an adjustable desk lamp.

Our weekly DON'T—Don't forget to take the following accessories with you on long motor trips: One extra casing in a tire cover; two or more extra inner tubes wrapped to protect them from oil; self vulcanizing patches and permanent puncture plugs; a

fire sleeve; set of applying levers; box of powdered soapstone to be used between casing and tube to prevent sticking; six valve insides and six valve caps; air pump, jack and road maps.

Dance Tonight—Chenoweth grove open air pavilion. \$1.00, including war tax.
