It will be issued in America simultaneously with its publication in London, and in uniform style with "Bessy Hane," "Roland Yorke," "The Channings," and all the previous works by this favorite and popular author. The story is one of absorbing interest-interest that would be unpardonable to anticipate its detail, and thereby spoil the interest of the reader. "Dene Hollow" will not be laid aside without eager persual to the end; for the reader will be constantly lead aside into new avenues and lanes, with such enchanting views and scenery, that he never wearies of the path; there are so many new faces among the minor actors, and such a magic influence thrown around all they say and do, that his interest never flags for a moment. Much of this work is devoted to the discussion of just such subjects as will greatly benefit, while it deeply interests the general seeker after knowledge, desirous of really useful information.
