EGZEMA'S ITCH IS TORTURE. Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

The official statistics of the wheat crop of the world for 1899-1900 have just been compiled by the department of agriculture. They show that in the countries of the Southern Hemisphere, whose wheat crops are commonly included in statements of the world's wheat crops, the production will hardly fall less than 100,545,000 bushels. This is 10,000,000 short of last year's production. Australia and China are the only countries showing any material reductions. ALLIES ENTERED PEKIN

They Passed Through the Gates on Wednesday Without Fighting.

THE FOREIGN LEGATIONS RELIEVED

The Success of the Allied Forces Attributed to Failure of the Chinese to Flood the Country Below Tung Chow.

Shanghai, Aug. 17.—Li Hung Chang has received a telegram announcing that the allied forces entered Pekin Wednesday, August 15, without opposition.

British troops will land here tomorrow. It is quiet here and in the Yang Tse valley.

GERMANS GET THE NEWS.

London, Aug. 17.—The allies have entered Pekin without fighting, the legations are relieved and the foreigners liberated. The foregoing dispatch, received from the German consul Shanghai, was given out by the Berlin foreign office today.

RUSSIANS AND JAPANESE.

Paris, Aug. 17.—A dispatch from General Frey, in command of the French marine force in China, says the rapid advance of the allies towards Pekin was due to the excellent scouting of the Russians and Japanese.

CHEERING INFORMATION IN WASHINGTON.

Washington, Aug. 17.—Out of the gloom of the recent acute crisis came cheering information from our circus today, unofficial, but so circumstantial and positive as to be generally credited in official quarters, that the allied armies have reached Pekin and that the legations have been relieved. This information came in the press dispatches from London, Shanghai and Berlin. Officials in Washington were unable, however, to furnish the slightest confirmation. When the cabinet session began it was with this lack of official information and yet there was a conviction that the crisis has been relieved.

The Chinese minister here was elated when the word reached him of the press dispatches, announcing the legations had been relieved. Not a word had come to him confirmatory of the reports. He pointed out that Shanghai was a thousand miles from Pekin and it was surprising that the information did not come from Tien Tsin, or Taku, only about one hundred miles from Pekin. However, he was disposed to credit the reports.

THE NEWS IN LONDON.

London, Aug. 17.—The collapse of the Chinese resistance is explained in the dispatches from Shanghai as being due to the failure of the Chinese to flood the country below Tung Chow. The earthworks connected with the dam at Pei Ho were unfinished and the canal at Tung Chow was full of water, facilitating boat transportation, which was the chief reason, it is said, why the allied and legation forces holding part of the wall at Pekin, were exchanged during the morning of August 15.

A dispatch from Yokohama announces that an official telegram from Seoul, capital of Korea, says the Japanese of Peking district are alarmed at the landing of 1000 Russians in that neighborhood.

The Chinese have no knowledge of the departure of the empress dowager and the imperial household from Pekin on August 7, as mentioned in the Shanghai dispatch.

It proves true that the legation are relieved, the gravest crisis is removed. But there remain many momentous questions to be determined. It appears to be accepted that at least some of the powers will keep a military force in China at least until all questions growing out of the crisis are settled. It is not believed that the United States will be a party to any territorial controversy, as the declaration of Secretary Hay at the beginning of the trouble forecasted the purpose his government was to seek to preserve Chinese territorial and administrative entity.

O'BRIEN WAS A KING.

While W. J. Bryan was paying a tribute to the Irish race at Chicago a voice shouted: "You're name should be O'Bryan." Laughter and applause.

At once Mr. Bryan made this reply: "My friend has tried to ingratiate me into your favor by suggesting that my name is O'Brien and not Bryan. If the gentleman knew as much about it as I do he would have known that 'Bryan' is the original name and 'O'Brien' a derivation. (Applause and laughter.)

"When Bryan became king he put on the 'O' and the O'Briens are the descendant of the king, while the Bryans are the common people who never got stuck about a relative being a king." (Renewed applause and laughter.)

NOT AFTER THIRTY YEARS.

Tuesday Dr. L. E. Port, of Salem, says the Journal, had the pleasure of enjoying a good visit with his nephew T. J. Ashton of Umatilla. The two gentlemen had not met one another for 30 years and they enjoyed the visit.

Mr. Ashton is accompanied by Lester Means, son of H. C. Means, the hotel keeper at Umatilla, and they were very much pleased with the Willamette valley. While in Salem they visited the principle places of interest. They left last night for Oregon City where they will remain a short time and visit the city by the falls and later will visit the beach before returning home.

CONFIDENCE MEN ARRESTED

Walla Walla Authorities Capture Them at Wallula.

CLEVER PIECE OF DETECTIVE WORK

Men Were Surprised in a House and Offered No Resistance—Had Been Operating at Wallula for Some Time.

Walla Walla, Aug. 17.—A special to the Union from Wallula, says: Sheriff Frank Kees, Deputy Charles Painter and Special Deputies J. B. Wilson and O'Rourke arrived here on last evening's train and proceeded to the 'Dublin' district where they arrested C. McCormick and A. R. Anderson on various charges ranging from highway robbery to common theft.

The capture was cleverly conducted, the suspected men not knowing the officers were in town until the trap was sprung. Both men were surprised in a house which they have occupied for several months. No resistance was made.

The arrest is the result of a long series of confidence games, card steals and robberies which have occurred at Wallula within the past three months. A gang of thieves has been making its headquarters at this place and preying upon all classes alike.

On Monday night Charles Linskammer of Pomroy was robbed of a \$100. He was shaking dice at the bar when a man asked him to change \$10. As Linskammer opened his purse it was snatched from his hand and the thief escaped. The victim at once informed the authorities at Walla Walla and a still hunt for the criminals began.

It is alleged that McCormick and Anderson are the ringleaders of the gang. They were brought to Walla Walla on this morning's train.

SENATOR INGALLS DEAD.

Died Thursday Morning at East Las Vegas, New Mexico.

Ex-United States Senator John J. Ingalls died at East Las Vegas, N. M., at 2:25 o'clock Thursday morning, surrounded by his wife and two sons, Ellsworth and Sherman. The funeral will be at Atchison, Kansas.

John James Ingalls was born in Middleton, Mass., December 29, 1833. He was graduated at Williams College in 1855, studied law, and was admitted to the bar in 1857. He removed to Atchison, Kansas, in 1858, and practiced his profession there, was a member of the Wyandotte convention in 1869, secretary of the territorial council in 1869 and of the state senate in 1861, and a member of the latter body in 1862. In the same year he was an unsuccessful candidate for lieutenant-governor. After his defeat he accepted the editorship of the Atchison "Champion," which he retained for three years. He was again defeated for the lieutenant-governorship in 1864, but was elected to the United States senate for the term beginning in 1873, and was re-elected in 1879 and again in 1885. He was succeeded in the senate by Senator Martin, after making a record by being one of the ablest debaters in the body. Since he left the senate he was engaged in literary pursuits up to a few weeks before his death.
