## WEEKLY MARKET REVIEW.

W. S. Byers Paying 44 Cents for No. 1 Wheat Today.

Pendleton, Nov. 15.—The exporters are not in it today with local millers bidding for wheat. Representatives of exporting houses said that 42 cents per bushel or a little better could be obtained. That bid was seen and raised by W. S. Byers, who said: "I am paying 44 cents per bushel for No. 1 wheat today. I need the wheat. He was asked if he did not have considerable wheat on hand, and replied that he had, and added: "I require 2000 sacks a day to keep the mill running." That means that he grinds about 1,000,000 bushels per year. Barley for feed has advanced. It may be quoted today at 60 cents per hundred weight. With that price being paid for barley to be used as feed, there will be no more brewing barley shipped out of this county this year. Local brewers are stocked up, but there can be no money made in shipping, as the price being offered at Portland and San Francisco.

Apples—60c to 70c per box. Lemons—40c per doz. Eggs—30c per doz. Butter, dairy, 10c to 50c per roll; creamery, 50c to 60c per roll. Flour—80c per sack. Cheese—20c per pound. Potatoes—60c per sack. Cabbage—3c per pound. Sweet potatoes—4c per pound. Celery—70c per doz. Poultry—Chickens, per doz. \$3 to \$3.50. Turkey—Alive, 8c per pound; dressed, 10c per pound. Geese—10c per pound. Ducks—\$4 per doz.

### Wheat in Portland.

Portland, Nov. 15.—The Commercial Review in its issue today reports a market: The local market is very inactive, and the same is true of interior markets. The value of wheat is too low, that most holders prefer to take chances on a rise in prices after the turn of the year, rather than market at present quotations. The foreign demand for our cargoes is slow and it is quite difficult for exporters to effect sales forward at satisfactory prices, and often sellers concede something on price to place surplus cargoes. Our shippers really have no present need of wheat, stocks in store here and in the Sound being very large and well covered. The wants of exporters for some time to come. The situation here may be summed up as follows: Buyers will only trade on the real export value and holders won't sell except at an advance. Exporters have been very liberal all season with the bids and have offered what might be termed extreme figures, but the old story, so familiar to the wheat trade has been repeated again, that is, when holders are offered their price they don't want to sell, fearing that the market will go higher; that they want to hold. The better tone of Eastern markets has caused holders to advance their pretensions and the consequence is that prices now asked are largely in excess of an export basis and to a certain extent prohibited. Notwithstanding the obstinacy of a fair business has been done during the week. We quote club, 54 to 55c; blue stem, 50 to 52c, and valley, 60c per bushel. The latter quality is only for millers, who pay this price and sometimes higher for milling purposes. Exporters not making any bids for valley this season.

### Wheat in San Francisco.

San Francisco, Nov. 15.—The scarcity of tonnage and the depressed condition of the foreign cargo market is sharply reflected here, and exporters seeing hardly any profit at this juncture, are confining operations to cleaning up business on hand and anticipating future wants as little as possible. There is little disposition shown by them to take up spot tonnage, the low bids for wheat having checked offerings, and it is doubtful whether any large operator could be found willing to purchase wheat at any advance on export values. The position taken by holders is equally firm and only when necessities of sellers are pressing can grain be secured. No. 1 shipping is quoted \$1; milling, \$1.02 1/2 to \$1.08 per cental.

### Wool in Boston.

Following are quotations for leading descriptions:

## POPULAR HOTEL PENDLETON.

Better Than Ever Under Management of Van Dran Brothers.

For 12 years, ever since the building of the three-story brick edifice, Hotel Pendleton has been considered the leading hotel of this city. Under the successful management of Mrs. Collins, David Horn, L. E. Cook and J. E. Moore the reputation was maintained. Kaspar and George P. VanDran, as VanDran Brothers, the present proprietors, succeeded Mr. Moore on April 4, 1900. They came here from Albany, where they had been proprietors of the Denot hotel of the Southern Pacific railway. Realizing that there was a trade here worth catering to, and being practical hotel men with years of experience, they proceeded at once to inaugurate the improvements, neatness and order at all times are conspicuous. Capable help has been secured in all departments. The furnishings are expensive and pleasing to the eye. Bath, billiard-room and bar are all under the same management. But it is upon the dining room that credit for the hotel has been won. This department is under the personal charge of Kaspar Van Dran, and on that account Hotel Pendleton has established a far-reaching reputation. The markets are drawn on liberally for fruit, game, and everything that the epicurean may demand. The restaurant, particularly the dinners, attract many from this city, as well as the traveling public. Commercial men recognize a good thing when they see it, consequently they congregate at the Pendleton on Saturdays, whenever possible, and on Sundays at a first-class house. No further compliment may be given above this, that it is better now than ever heretofore, a credit to the city, and one of the most popular hosteries in the Inland Empire.

### Philippine Earthquakes.

The Philippine Islands are in a state of constant tremor. Most of these vibrations are so slight that they can be observed only by a special instrument invented for automatically recording the movements of the earth's crust. Earth quakes are as frequent in the human system as upon the earth's surface. A little disturbance of the digestive organs, and the entire system is affected. Many people pay little attention to small disorders of the stomach, but they keep gradually accumulating, and then come the earthquake—a shock that causes serious illness—Hostetter's Stomach Bitters should be taken at the slightest sign of constipation, indigestion, dyspepsia, or flatulency. It will cure stomach troubles and strengthen the whole system. Our private revenue stamp covers the neck of the bottle.

### PEASE BROTHERS HELD.

Henry Sheldon and Andrew Sherman Were Granted a Discharge.

The preliminary hearing yesterday afternoon, and last evening, before Justice of the Peace Thomas Fitz Gerald, resulted in the discharge from custody of Henry Sheldon and Andrew Sherman, and the holding of Abraham and Arthur Pease, to answer before the next grand jury to the charge of grand larceny. Their bail was fixed at \$250 each, which they were unable to furnish and they are caged in jail.

The four men above mentioned were accused of disturbing an Indian teacher, north of Mission station on the O. R. & N. railway, last week, and getting away with property valued at about \$400, one-half of which had been recovered. Included in the property stolen were a number of curios that have been handed down for years as heirlooms of the Indian families interested, and which they would not have sold at any reasonable price.

James A. Fee and R. J. Slater appeared for the defendants and District Attorney Hailey for the state.

## BROTHER AGAINST BROTHER.

THE BECKHUSEN BROTHERS QUARREL, WITH SERIOUS RESULT.

Louie Strikes August With a Nookyoke and Crushes His Skull.

Long Creek, Or., Nov. 12.—A tragedy occurred Thursday morning near what is known as Three-mile settlement, at the ranch of August and Louie Beckhuse, 25 miles northwest of this place which may result in the death of August Beckhuse, a well respected citizen of this locality. August and Louie Beckhuse own adjoining ranches, and work together the greater part of the time. Thursday morning they hitched up the team and loading some wire into the wagon, went out to make some fence. After they had gone a short distance from the house, a dispute arose as to whether they should use the wire or the greater part of the time. Thursday morning they hitched up the team and loading some wire into the wagon, went out to make some fence. After they had gone a short distance from the house, a dispute arose as to whether they should use the wire or the greater part of the time. Thursday morning they hitched up the team and loading some wire into the wagon, went out to make some fence. After they had gone a short distance from the house, a dispute arose as to whether they should use the wire or the greater part of the time.

### Louie then struck at August, striking him twice. Here the team became frightened and tried to run away.

In doing so, they became entangled in the harness and as August turned his attention toward releasing them, Louie picked up the nookyoke, striking his brother a terrific blow upon the head, just above the left eye, whereupon he fell unconscious. Louie assisted August to his feet and helped him to reach the house, where he was placed in bed, and a physician summoned. Dr. Higgs, of Long Creek, responded and arrived at the ranch about 8 o'clock Friday morning and from an examination of the wounded man, discovered that his skull was severely fractured, and advised that the patient be taken to Long Creek where an operation could be performed.

Mr. Beckhuse was brought to this place for a day or two, and Saturday morning an operation was performed. Two particles of the skull were removed, each measuring about one by one and a half inches, and the operation was very successful. Before this time, the physicians had little if any hope for the man's recovery, but at this hour he is resting easy and there are bright hopes for his recovery. He is being cared for by his brother Louie and Rob Grant, at the Monumental Hotel.

Robert, the 10-year-old son of T. Harrison, was injured by an accident Saturday afternoon, at his home two miles from this place, in which he sustained the injury of a broken arm. He was riding a 2-year-old colt when the animal became frightened and threw the boy off, striking on his arm with the above result.

### As to Prescriptions

When physicians recommend you to have them compounded by us, what does that mean? Simply the certainty on their part that you will get exactly what is prescribed—the right quantity and the right quality, which is even more important. But we go further than that, for we take honest pride in our skill in compounding.
