Cleaver Bros. Dry Goods Company.

A NEW ICE PLANT

PENDLETON WILL HAVE ONE READY FOR NEXT SEASON.

It Will Cost \$16,000 and Will Have a Large Capacity—Looking to the Future Growth of the City—City Already Uses Ten Tons a Day.

Pendleton is to have a 15-ton-daily-capacity ice plant in operation by the opening of the ice season of 1903.

J. F. Ross, who has been shipping ice into Pendleton for the past several years and disposing of it at retail, has concluded that an ice plant will pay here and has now decided to erect a plant with cold storage in connection.

The plant is to be put in at a cost of \$16,000 and is to be up-to-date and second to none in the West as far as modern apparatus is concerned.

The exact location for the plant has not been selected yet, but several places are in view in the west end of town.

In addition to the ice manufacturing plant a large cold storage plant will be built in connection. This will be modern and up-to-date. Instead of having to keep perishable fruits and vegetables cool with ice this will be done in the new plant with chemicals. In the past the merchants and business men handling perishable stuff have been at a great disadvantage because no adequate place has been in the town where such stuff could be stored and kept frozen or even cold to any great extent. With the new plant this difficulty will be done away with and any amount of perishable stuff can be stored at a very small cost.

While Mr. Ross does not expect that the whole capacity output of his ice plant will be used in Pendleton he says he will put in a plant above the needs at present and this will fill the demands of the town for many years. He is confident of Pendleton's future growth and believes in having ample business in his line to handle all the demands for years to come instead of just building to the actual needs and within a few years having to reconstruct to keep up with the growth.

At the present time Mr. Ross ships in ice from Tacoma. His freight bill is \$3000 annually and at the price he pays for it at the source of supply he is unable to compete with the price of natural ice, which is on the market. With the new plant he can compete with them either at wholesale or retail and the ice which comes from an ice plant will be perfectly pure.

The process of making artificial ice is one of the finest arts of the day. Not a vestige of filth will be found in the ice. The water will perhaps be taken from the regular city supply of drinking water and will be as pure as the city has to begethrough coal, distilled and filtered through a then boiled and refiltered through a sponge filter. When this is done the ice manufactured is much more wholesome than natural ice and is absolutely pure.

Pendleton now uses about 10 tons of ice daily. With a plant of 15 tons capacity there will be no excuse in Pendleton people not drinking cold water and keeping their drinks cool in the future.

Work will commence on the new plant directly after the first of the year. The contract has already been let to A. Kunkel & Co. for the machinery.

TESTED HOSE.

Firemen Had Busy Time This Morning on Main Street.

Members of the fire department under the direction of Chief Stillman, were busy this morning testing a new batch of hose just received by the city fire department.

The new consignment of 1600 feet, 800 from the Boston Belting Company, and 800 from the Boston Woven Hose and Rubber Company. The tests were made by means of a hydraulic pump with pressure gauge, which was turned on with a force of 350 pounds to the square inch in the test of the hose from the Boston Belting Company, and 400 pounds in that of the Woven Hose people.

The first piece of hose tested was one from the Woven Hose Company, and burst at 375 pounds pressure, on account of a quantity of air being left in the hose when the pressure was put on. This air heated and softened the rubber in the hose to such an extent that it could not withstand the strain put upon it. The second section stood all right, however, and the hose was passed.

A delay was caused by the breaking of the connection between the hydraulic pump and the hose with a bit of cotton tubing burst from the high pressure, and it was some time before the tests could be resumed.

Occupied.

It Pays to Trade at the Peoples Warehouse.

Clearance Sale Ends

On the last Saturday of this month, August 30. This is our last say. Our stock of Summer Goods, Lawns, Batistes and Dimities will be divided into three prices:

8½c, 10c, 12½c Summer Wash Goods, per yard, 5c
15c, 20c, 25c Summer Wash Goods, per yard, 10c.
30c, 35c, 50c, 75c Summer Wash Goods, per yard, 25c.

SEEING IS BELIEVING

SATURDAY, AUGUST 30, 1902

Summer Underwear at closing prices.

Shirt Waists, only 10 dozen to select from, less than half price.

Summer Skirts, Summer Suits, all slaughtered

Must make room for the greatest stock of Fall and Winter Goods ever shown in Pendleton.

The PEOPLES WAREHOUSE

THE LEADERS

WIDOWS IN IDAHO.

Law Exempts Them From Taxation and One County is Overrun.

The assessor's returns sometimes show very peculiar conditions.

An inspection of the abstracts sent to the state auditor discloses the fact that under the state law \$308,000 worth of property has been exempted from taxation by what is called the widow act. Widows who are unable to pay their taxes in this state are exempt when a proper showing is made.

The amount is large, but the strange feature is that \$105,000 or more than one-third of it is found in the single county of Idaho. The idea suggests that many of Idaho county's husbands are in the nearby gold fields of Thunder Mountain. Either that or else Idaho county is a sort of "widow's haven"; a kind of widows' resort.—Boise Statesman.

Wheat Field Fire.

A fire occurred in the field of Louis Anderson, two miles southeast of Cayuse, Sunday morning and before the blaze was checked had totally destroyed 60 acres of standing grain. The exact cause of the fire has not been learned, but it is supposed to have caught from a passing traction engine. Difficulty was had in saving much more grain than was destroyed.

A WEEK OF SPECIALS

MONDAY, AUG. 25—

New edition White House Cook Book, sold by agents at \$2.50, here one day only, 89c.

TUESDAY, AUG. 26—

Crystal Crepe Paper, 5c a roll, (3 rolls to a customer.)

WEDNESDAY, AUG. 27—

Glycerine Soap, the 15c large size, 7c.

THURSDAY, AUG. 28—

100 Visiting Cards, printed with latest type, 38c.

FRIDAY, AUG. 29—

Any Paper Pattern in the house for 2c.
