CHANGE OF LIFE.

sensible advice to women passing through this atton. trying period.

The painful and annoying symptoms experienced by most women at this period of life are easily overcome by Lydia E. Pinkham's Vegetable Compound. It is espe-cially designed to meet the needs of woman's system at the trying time of change of life.

It is no exaggeration to state that Mrs. Pinkham has over 5000 letters like the following proving the great value of her medicine at such times.

value of her medicine at such times.

"I wish to thank Mrs. Pinkham for what her medicine has done for me. My trouble was change of life. Four years ago my health began to fail, my head began to grow dizzy, my eyes pained me, and at times it seemed as if my back would fail me, had terrible pains across the kidneys. Hot flashes were very frequent and trying. A friend advised me to try Lydia E. Pinkham's Vegetable Compound. I have taken six bottles of it and am to-day free from those troubles. I cannot speak in high enough terms and am to-day free from those troubles. I cannot speak in high enough terms of the medicine. I recommend it to all and wish every suffering woman would give it a trial."—BELLA Ross, 88 Mont-clair Ave., Roslindale, Mass.—\$5000 for-felt if original of above letter procing gammeness cannot be produced.

L. B. REEDER SAYS TO

Only Question Among the People Is the Amount They can Afford to Pay -Fair Must Be a Success.

'Yes, the appropriation should be made," said L. B. Reeder, of Pendle-Oregonian, "And it should be made early in the session. Plans should be made before hand, and it should be passed with-out a dissenting voice. We will want to ask other states to help us in this project. If we are to ask them for an appropriation they will have to see that we are in earnest about the matter and are willing to give it our individual support. I have heard the matter discussed to some extent, and this seems to be the general opinion of the people in my part of the state. have not talked it over with any of the legislators, but I do not think there are any who will use any means to delay the bill making the appropri-

The only question that could arise," he continued, "is as regards the amount. Five hundred thousand dollars sounds pretty big, and I hardly think it will be that much. This is a matter that should be well discussed before it is taken up, and I think that the men from the various parts of the state will be willing to by the general consensus opinion.

Why Not \$500,000?

When asked why his people opposed \$500,000. He replied that it is a question whether or not the state is able to afford such a large expense. "They are in favor of the fair?" he

"Yes." "Do they think that it should be managed on a cheaper basis or do they think that Portland should raise a larger amount?"

plied. "They want the fair and want it to be a success. They are willing stage this season. In the first act to give it all the support they can one of the carriage gowns will be to give it all the support they can afford, but they do not think that they can pay such large taxes as that amount will call for.

"Personally, I am in favor of making the appropriation large, but jacket is met in front with a choux speaking from the general expression of mirror velvet. The skirt is one of opinion, I doubt the expediency of asking for too much. It will be much better to have a smaller amount and pass it without any opposition than to have a larger amount after delay and opposition.

"A Little Outcast."

E. J. Carpenter's big scenic specta-cle, which they call "A Little Chestnut," and which comes to the Frazer December 16th, might just as well be the name of a bonanza gold mine as of a theatrical company. Not only has the production paid out a great deal of money, but its story is as romantic and interesting as any of the tales connected with properly conducted gold fields, and also, it has "panned out" better than countless profitable gold mines, and is making snug little fortunes Its tour, by the way, is limited to the clarger cities and towns, on account of the expense of transportation, a spec-ial car being necessary for the prop-erties used in the marvelous scenic effects. The delightful gossip sur-rounding the metropolitan engage-ment of this big spectacle has given an abundant amount of material to talk about elsewhere.
