Ask Your Doctor

He will tell you—
That barley-malt is a half-digested food, as good as food can be.
That hops are an excellent tonic.
That the little alcohol in beer—only 3½ per cent—is an aid to digestion.

But Purity is Essential

But he will tell you that beer must be protected from germs, and brewed in absolute cleanliness.
He'll say, too, that age is important, for age brings perfect fermentation. Without it, beer ferments on the stomach, causing biliousness.

Schlitz beer is brewed with all precautions. It is the recognized standard all the world over, because of its purity.
