Starvation, Rapine and Murder Rampant in Macedonia—General Disquiet in Syria—Turkish Soldiers Assisted in Murder of a Christian—German Consul Testifies to Bad State of Affairs in and Around Beirut.

London, Sept. 9.—The Turkish embassy here has issued a statement that "The porte hopes the American warships at Beirut will depart as speedily as possible, as their presence tends only to incite the inhabitants."

"The American consul was only fired at, and it has not been discovered that there was any political motive for the act."

"The recent rioting at Beirut was originated by orthodox Syrians." Speaking of Sofia and the reports of massacres in Monastir, he says: "The reports of massacres and outrages on Bulgarians by the Turks are unfounded and are being exaggerated by the insurgents in an endeavor to secure intervention of the powers."

This is the first time Turkey has admitted that Maglessen was actually fired at. Heretofore it has maintained that the firing was simply a part of the celebration of a wedding feast.

Turks Will "Drive" the Balkans.

Philippolis, Sept. 9.—Eastern Roumanian Musselmans here are preparing to emigrate en masse to Constantinople because of rough treatment by Bulgarians.

The Turks are reported to be planning a huge "drive" of the Balkans, forcing the insurgents into a small area where they can be annihilated. The first part of the program has already been carried out in Monastir, where the situation surpasses description. It is a continued story of rapine, murder and starvation. The woods of Kastoria are filled with hiding women and children perishing miserably.

Serious News From Syria.

Paris, Sept. 9.—A telegram from Cairo today says disquieting rumors are current as to the situation in Syria. Bedouins arriving here from the Arish desert say the Druses are in arms and fears are entertained of massacres in Lebanon.

DATE FIXED FOR CARNIVAL

FROM THE SIXTH TO TENTH OF OCTOBER, INCLUSIVE.

A Portion of the Attractions on a Vacant Block, the Balance at Intersection of Court and Main—Stock and Fruit Exhibit on the Side.

Last evening, at the meeting of the city council, the business men of the city were given the privilege of the streets for a merchants' carnival to be held in this city from the 6th to the 10th of October, and this morning the men of the city met Mr. Wilson, the manager of the show, who is here to close the contract, and the articles were signed and the carnival is now an assured thing.

According to the contract that has been entered into, the big tent of the show will be at the intersection of Court and Main streets. None of the streets will be blocked, and there will be nothing at all on Main street. The carnival company will have a band on the streets all of the time during the five days, so that the people who come to the city will have a chance for amusement without going into the tented shows unless they so desire. Everything will be free in the city except the tents.

Along with the carnival will be held a stock, and if possible, a fruit show, gathered from all parts of the county. It is the intention and the wish of the management of the carnival to make a beginning for an annual county fair to be held in this city from this year on.

Prizes will be offered for the best exhibits of cattle and other livestock, and it will be made worth while for the farmers and stockmen of the county to come here to exhibit their property. John Halley, Jr., is in charge of the fair part of the carnival, and will use every effort to make the thing a success. In a short time the affair will be advertised in all parts of the county and from Walla Walla clear to the other end of the district, and it is expected that a great many of the people will take advantage of the inducements offered to come here.

Mr. Wilson, on the other hand, will leave in a few days for the interior of the county to advertise, and at the same time will hold out all inducements to the men he meets in the way of the stock exhibit.

From the indications, there is every reason to suppose that the carnival will be a great success and that it will be the beginning of a series of fairs, such as have proven to be so profitable and beneficial to other parts of the state.

SEATTLE LABOR WAR POSSIBLE

Street Car Strike May Result in a Sympathetic Go-Out All Over the City.

SECESSIONISTS FROM UNION ARE ORGANIZED.

Strikers Will Try to Shut Off Company's Fuel Supply—A Green Crew Ran a Car Off the Track and Caused a Collision—Strike Breakers Are All Armed.

Seattle, Sept. 9.—As a result of the street railway company's refusal to submit their differences with the employees to arbitration yesterday, the union men struck at 10 this morning. The company has about half its cars running, because it organized about 200 secessionists from the union last week, who operate cars.

Efforts will be made by the union to tie up the service by a sympathetic strike of the linemen of the power company serving the street car company, and by a miners' strike at Renton, where the company gets its fuel.

Two men greased the track on the grade on Green Lake this morning. A non-union motorman and conductor chased the culprits several blocks with revolvers, but did not fire.

Another new crew ran off the track and smashed up a mail wagon. The strike breakers all carry guns. The company will recognize the new organization as long as it does not affiliate with any labor union, and will pay its members the wages demanded by the old union.

The strikers have assurances that every labor organization will join in a sympathetic general strike if called upon to do so.

COMMERCIAL ASSOCIATION.

Making Arrangements for the November Meet at Pendleton.

The Commercial Association had its regular monthly meeting last night at the rooms of the association. Nothing of importance was done outside of talking over the matter of the coming state irrigation convention to be held in this city in November. A committee consisting of E. P. Dodd, Dr. C. J. Smith and J. F. Robinson was appointed for the purpose of pushing the arrangements for the convention.

It is the wish of the association to make the convention one of great benefit to this part of the state, and it is its intention to do everything in its power to arouse interest in the meeting and bring those who are interested in the question to this part of the state in November. It is necessary to secure preparatory legislation in the interest of irrigation, and it is the plan of the association to foster this idea as much as possible, not only in this part of the state, but in the valley as well, so that when the legislature meets that body will be informed and interested in the subject, and there will be no trouble to have the passage of measures that will redound to the benefit of the semi-arid parts of the state.

DECLINE IN PRICE.

Believed That Wheat Will Take Another Raise Before Long.

Wheat has taken a tumble from the pedestal that it has been resting on for some time, and for the last two days has been quoted at 67 cents by the wholesalers and at 65 and 66 cents at the mills by the millers.

The drop is laid to the fact that the farmers have been selling heavily at the high figures and the mills had all that they could handle for the time. There has been more wheat sold thus far this season than before at the same time for some years, and owing to the overplus on the market the price has dropped.

But it is pretty sure to rise again, for the farmers have stopped selling and will not deliver their grain for the figures that are now being offered. As they have lots of their grain yet on hand, it is thought that the price will rise as soon as the crop is out of the local market.

Mrs. William J. Bryan denies the report that her daughter is engaged to Captain Hobson.
