GREGORY UNDER BONDS.

Passed an East Tennessee Bill of 1855 on Ignorant Celestial.

Ed Gregory, arrested yesterday morning at Arlington, Or., charged with passing a worthless bank bill on Wong Gee, a Pendleton Chinese, was arraigned before State Circuit Judge Ellis this afternoon and his bail was fixed at \$300. The prisoner asked time in which to plead. He is still confined in the county jail. The complaint filed by Deputy District Attorney H. E. Collier, charges Gregory with obtaining goods under false pretenses.

Gregory, it is alleged, after partaking of a bowl of noodles at Ung Goo's restaurant in Alta street, Thursday night, gave the waiter, Wong Gee, a worthless \$10 bill, and received in exchange \$9.90 in change.

The bill passed on the Chinaman is not counterfeit, but an old East Tennessee bank bill issued in 1855, and for many years has ceased to have any value as a legal tender.

ABSENT 11 YEARS.

W. A. Sample Notes Many and Radical Changes in Pendleton.

W. A. Sample, formerly of Pendleton, is in town en route from Northern Idaho to his home at Caldwell, Idaho. Mr. Sample farmed for 16 years at North Cold Springs, leaving here in 1893 for Bingham county, Idaho, wherein he was probate judge for four years—two terms. Later he removed to Caldwell. At Caldwell Mr. Sample is in the real estate business, with interests in the sugar beet factory for a side issue.

Mr. Sample states that there resides in Blackfoot the widow and children of John B. Davis, deceased, who formerly resided in North Cold Springs, and who removed to Bingham county before Mr. Davis' death. Mr. Sample's brother, Samuel Sample, also resides in Blackfoot.

The changes noted by Mr. Sample in Pendleton during his 11 years con-

tinuous absence are many and varied and equally as great concerning the people as its buildings and other improvements.

The place formerly owned by Mr. Sample at North Cold Springs is now owned by Frank King.

RESIDENCE SOLD.

Mrs. Sheridan Will Not Remove From Pendleton, as Reported.

Mrs. M. Alice Sheridan has sold her residence on Perkins avenue, the north side, to John Hill, the well known Helix farmer, who will move into it about the middle of September. Mr. Hill has a large family and will send the younger members to the Pendleton schools.

The sale was effected through the C. C. Berkeley agency. The report that Mrs. Sheridan would make her home elsewhere is incorrect. At this time Mrs. Sheridan and Miss Maude are at Lehman Springs, while Miss Gertrude is visiting friends at Long Creek.

CANDY STORE CLOSED.

Sheriff Taylor Serves Attachment on Ralph Ward Today.

The candy store and ice cream parlor of Ralph Ward on Main street near Webb, was closed this afternoon by Sheriff T. D. Taylor who served notice of attachment on behalf of Anna M. Marshall, who alleges Ward is indebted to her in the sum of \$391.51.

The store room occupied by Ward is the property of Miss Marshall and was leased, according to the complaint, on February 6, last. The monthly rentals of \$55, it is said, have not been paid and suit was brought. Carter & Raley are attorneys for the plaintiff.

DEEDED TO DISTRICT.

Buildings Will Be Removed From Poor Farm Site.

The deed of the transfer of the old poor farm property by Umatilla county to School District 16 was filed for record today. The consideration is \$2825. The property consists of 10 lots in block 85 of the reservation addition to the city of Pendleton.

The land was purchased by the school district for the erection of the west end school building. The formal transfer of the property was made yesterday. Buildings now on the land will be removed by the county.

Poor Farm Crops.

Joe McDill, superintendent of the county poor farm, was in the city this afternoon and reports the second crop of alfalfa in the stack and the force on the farm now waiting for the third crop. Over 100 tons of grain and alfalfa hay will be grown on the farm this season.

Dense Silence.

That money talks, quite freely, too. You probably have heard; But there are some of us to whom it never said a word.

—Cincinnati Commercial Tribune.

It is a cinch that the man lying on the park bench staring at the sky is not worrying over the late slump in stocks.

ST. LOUIS FAIR IS WONDERFUL

REV. N. H. BROOKS' VIEWS OF THE EXPOSITION.

Japanese Exhibit is the Wonder of All Americans, While Russia's Empty Space is a By-Word at the Exposition—Japan Occupies More Space Than Any Other Nation—American Art Does Not Equal the French, German Nor Italian—Federal Building is the Triumph of the Century.

Rev. N. H. Brooks who recently visited the St. Louis fair, says the wonder of all Americans at the fair is the magnificent Japanese exhibit in the Liberal Arts building, and the universal cause of disappointment and surprise is the empty space allotted to Russia, with not an article of any kind on exhibit.

He says the Japanese exhibit is one of the most wonderful collections of artistic, ingenious, beautiful and useful manufactures ever collected under one exposition roof. It occupies more space than any one other exhibit of the same class, and is constantly admired by large crowds.

On the other hand, the space allotted to Russia was not set aside for any other nation, but remains vacant, with the Russian label over it. The almost universal sympathy with Japan can be measured by the remarks heard concerning the empty Russian floor space.

Speaking of the art exhibit at the fair, Mr. Brooks expresses surprise at the commonplace class of the work of American artists. The artistic spirit seems to have been subordinated to the mercenary, and the real art at the fair comes from France, Germany and Italy.

The American pictures do not show the conception, nor execution that mark the pictures from the French and Italian artists, while the Germans' ideals run to likenesses of the emperor and rural scenes, which do not admit of much general artistic scope.

In the manufactures and mechanical arts the American leads the world. The electrical appliances, the improved mills, machinery, equipment and labor saving apparatus, motive power and propelling machinery, is the highest exhibition of the mechanical genius and the cream of this exhibit is the product of the skillful Yankee.

The state buildings are elaborately and tastily constructed and furnished, Kansas and Kentucky leading the list in Mr. Brooks' estimation.

The Oregon building is the cynosure of all eyes, he says, and Washington also has a unique and attractive state building.

The federal building is the most beautiful and magnificent structure on the grounds. No money nor pains were spared to make it complete, and the wonderful skill and taste employed in its construction and equipment, is one of the proud accomplishments of the century.

One may see every imaginable art in operation at the fair. Printing presses are running in the liberal arts building, manufactures are in progress to show the different stages, and it is an educational treat which no American should miss, if possible to visit the fair.

It is the greatest fair from the educational point of view ever held under the sun, and its equal may not be seen again, as the exposition craze has rather run its limit.

IN THE PUEBLO WRECK.

Miss Ingersoll Passed Through Pendleton En Route to Spokane.

A victim of the Pueblo wreck of last Sunday passed through this city this morning en route to Spokane—Miss Mable Ingersoll, step-daughter of Dr. E. L. Ingersoll, who accompanied her, with other members of the family.

The Ingersolls have until quite lately been residents of Pueblo, and Dr. Ingersoll spent a portion of the summer in Spokane, prospecting for the location which he finally decided to make in that city.

Miss Ingersoll, while badly hurt and only able to walk with crutches, is really not in a dangerous condition, though her knee was broken and skull fractured. She was fortunate in having immediate and skillful medical and surgical attendance, and being very robust and in the best of health, the journey has tired her but little, as her friends and step-father have done everything possible to make the journey easy.

WILL ADD A STORY.

Mayor Matlock Will Make Extensive Improvements to Hotel Pendleton.

The building at Main and Water streets occupied by the Hotel Pendleton, it is understood, is soon to undergo improvements and extensions. The building as it now stands is three stories. It is the intention of the owner, Mayor W. F. Matlock, to add two stories to the front and to extend the structure in the rear. An elevator is to be installed in the building.

Repairs in the shape of paper and paint are being made at the hotel. It is the intention of the owner to give the place a thorough overhauling.

NEW IRRIGATION PLANT.

Ditch One and a Half Miles Long, Will Be Built on Upper McKay.

A new irrigation scheme is about to be inaugurated on the south fork of McKay, 23 miles from Pendleton. Three neighbors—David Hora, Daniel Bowman and Joe Rothland, whose farms join in a string, will dig a ditch

that is to be one and a half miles long, and cross all three places.

This is the first irrigation scheme on the upper McKay, and it can hardly fail to be a success, as there is abundant water with every natural facility for putting it upon the land. It is stated that the work of ditching will be begun today.

HUSBANDING RESOURCES.

Explanation of Why "the Deputy Game Warden Ain't Doin' Nuthin'."

O. F. Steele, the new game warden, reports that little is doing in his department and probably will not be until about the first of October. This is part of the plans of the state warden, who is husbanding the resources of the department to make war on the poachers in the western part of the state.

It taxes the authority and resources of the office to keep the finest game birds in the western part of the state from extermination during the cold season, and the funds are too limited to allow of a hot campaign in every part of the state, at all times of the year, no matter how badly it may be needed from the standpoint of the game and the true sportsmen.

IRRIGATORS RETURN.

T. G. Halley and C. W. Mallett Back From Walla Walla.

T. G. Halley, accompanied by Mrs. Halley and children, returned last night from Walla Walla, where he attended the joint sessions of the Oregon and Washington irrigation commission.

C. W. Mallett, president of the Oregon commission, passed through Pendleton last evening on his way home to Ontario. He was accompanied by Engineer D. W. Ross, of Boise, in charge of government works in Idaho.

Geo. McClure in Soldiers' Home.

Geo. McClure, the old gentleman who for several years ran a cigar, confectionery and fruit stand on Court street, is now in the Soldiers' Home at Los Angeles. He was a quiet, diffident and rather phlegmatic man, who seldom alluded to his past life and only went to the Home when the struggle for a livelihood outside proved too much for his resources of health, strength and money. He is said, when the facts were uncovered, to have a very excellent record as a soldier.

From Camas Prairie.

John F. Harvey, a prominent stockman and farmer of Umatilla county, is in Pendleton today from Alba. Mr. Harvey owns a stock ranch in the Camas Prairie country, and also conducts a large wheat farm near this city. He is in Pendleton for the purpose of looking after his grain. "Hay and grass is very plentiful," said Mr. Harvey, "and the ranges this fall give promise of an abundance of feed. The farmers in the Camas Prairie are cutting hay at the present time."

Felix Roumagoux Married.

Felix Roumagoux, who went to France about three months ago on a visit, will return in a short time with a wife, so he writes to some friends here. His better-half is a French woman, and they were married in Breton, the native province of both. The lady's name is not known, nor is it known whether Mr. Roumagoux and his wife had ever met until Mr. R. went to France this summer. Mr. Roumagoux came from Breton to Umatilla county about 30 years ago.

Judge Rich, of Idaho.

Judge Rich, the famous old war-horse of the Southern Idaho democracy, passed through Pendleton this morning bound for Lewiston, to attend the democratic state convention. He is the leader of the faction which champions the Mormon interests among the Idaho democracy, and will fight Senator Dubois to a finish at Lewiston, where the latter is expected to attempt to force an anti-Mormon resolution through.

Examinations Completed.

The examination of teachers for county certificates ended yesterday afternoon and the applicants for state diplomas will finish their work this afternoon. The subjects for examination today are: Botany, plane geometry, general history, English literature and psychology. Charles L. Holway, of Weston, made application this morning to take the state examination.

Baseball at Meacham.

Baseball at the Meacham barbecue on the 21st is quite likely. In fact, it is practically settled that there will be a first-class matched game on that date and at that place, but exactly what teams will play further than that the La Grande team, the challenger, will be there, is not yet determined. The opposing team will be either from Pendleton, Union or Island City.

Young People's Union Meeting.

In the Presbyterian church at 7 p. m., Sunday. Let all the societies be well represented. Come prepared to give and get a blessing. Remember the place: Presbyterian church; remember the time: Sunday evening, 7 o'clock.

Lumber on the Ground.

The new school house on McKay, in Gilliland precinct, will be begun immediately. A portion of the lumber is on the ground, and the remainder will be soon. The building is to be finished in time for the fall term of school.

Not Expected to "Bach."

West Larder, a young bachelor, has built a cottage on his place, six miles east of Weston, and it is not expected by his neighbors that he will "bach" in it, either.

It is not always safe to dodge when the door bell rings. It might be your rich old aunt instead of a bill collector.

THE WEEK'S WEATHER.

Steady Decline in the Temperature Since Last Saturday, Which Was Second Hottest Day of Year.

The temperature has steadily declined since last Saturday, when it registered 107, and took place as the second hottest day in the year.

Weather Observer H. F. Johnson furnished the following daily record for the week:

	Max.	Min.
August 6	107	80
August 7	100	60
August 8	102	54
August 9	95	57
August 10	87	58
August 11	87	61
August 12	95	57

Fuel Cellar Beneath Church.

An improvement to the Congregational church not previously noted is the fuel cellar, which is being dug and walled. It is immediately adjacent to the furnace room, and to the westward of it. The Congregational church, when the meetings are resumed in September, will be one of the coolest and best appointed church houses in the county.

Christian Church

We have a new line of pictures of the Christian church, an old ivory assortment. The picture of the church is exceptionally good and prices low, varying from 40c for each piece.

OWL TEA HOUSE

"Roosevelt's"

THE HOT WEATHER STORE.
