WOULD DESTROY LIQUOR TRAFFIC

R. FOSTER STONE DOES NOT BELIEVE IN DALLIAGE.

Cites Instance of Civil War When Millions of Dollars Worth of Property Was Rendered Valueless by Stamping Out the Evil of Slavery—Government Under No Obligations to Protect Evil Business—Saloons Take Their Chances When They Go Into Business.

The state or government is under no obligation to provide for the saloon keeper when it destroys his business, is the substance of the argument advanced last night by R. Foster Stone in his lecture at the First Christian church. The temperance worker spoke on the strong necessity of the destruction of the saloon.

"When an evil exists, destroy it," said Mr. Stone. "Slavery existed in this country. The war of the rebellion followed and the evil was blotted out. Millions of slaves were made valueless as property, and thousands of beautiful Southern plantations were ruined. But the government did not reimburse the planters.

"The argument is advanced that to close the saloons in this town would ruin the property owners. When one builds a structure to be used for saloon purposes, he takes his chances, the same as the saloon keeper, who has to depend upon the will of the council for his license. If it is revoked, he loses, and the city government is under no obligations."

Mr. Stone spoke in the afternoon at the First Baptist church. The churches were filled to overflowing at both sessions. Mr. Stone is touring the state in the interests of the Oregon Anti-Saloon League.

A. Perard, who lives on Starkey Prairie, has bought 2500 stock sheep which he will feed through the winter and market in the spring. Fifteen hundred were bought of Joe Kuhna. They are lambs and Mr. Perard declares they are the finest in the county. Mr. Perard will begin to full feed about December 1, and the time of marketing will depend considerably on the winter, although he is well fixed for handling sheep. Mr. Perard feeds alfalfa and barley hay, of which he raises large quantities.

This is Mr. Perard's fourth year at handling sheep for fattening only, and he has gone permanently out of the breeding industry. The growing restrictions on the pasturage, and the increasing difficulty of getting in and out of the mountains he does not propose longer to contend with. He raises his own hay, and has one of the finest alfalfa and grain had ranches in the county.
