## IDAHO TO FLORIDA

### BOISE MAN WILL RETURN TO THE LATTER STATE.

Gives a Comprehensive and Informing Account of His Experiences and Observations in the Far Southeast—There is Yet Government Land in That State—Money to Be Made in Fruit, and Opportunities for Good Investments—Immense Profits on Grapes.

F. N. Ferrell has returned from a trip lasting two months, in which he visited a number of sections of central Florida. He spent most of his time in the vicinity of Eustace and Altoona, and is quite enthusiastic over that country. Talking of his trip today, Mr. Ferrell said to the Boise Capital News:

"I found a good country, an excellent climate, and a people enjoying the best of health and prosperity. During the two months I was there no frost appeared, and roses, peaches, pears, oranges and other trees were in full bloom. The orange crop was being picked, and selling for a cent each which amounts to about \$2 a box, making it a very profitable crop.

"Grapes are also a big money-making industry. I saw one farmer who made over \$1000 a year clear from two acres of grapes, using the fruit for making wine.

"Land values are very low, some improved places being offered at \$10 an acre. As an instance of this, I was offered one place of 80 acres with two good dwelling houses and 30 acres under fence, for \$800. There is a good deal of government land open to homestead entry. It is all pretty heavily timbered with pine and cypress, the greater portion of which is suitable for saw timber.

"I met a man who went to that country from Missouri two years ago. He bought 20 acres of land in the woods and went to work with one horse and a six-inch plow raising garden vegetables which he shipped to the north. Last year he cleared \$1000 above all expenses.

"Land holdings are very small, farms ranging from 25 to 50 acres each, and the people seem to be able to make a very good living with very little effort. If the same amount of ambition characterized those people that is seen among the farmers of Idaho, all could make at least \$1000 a year above their expenses. Corn and oats yield about 35 bushels to the acre, and there is an abundance of good grass the year round for pasture.

"Several years ago the frost came and destroyed the orange trees in that section, and most of the people left there, thinking the country was ruined. Those who remained and replanted the trees have got them into bearing again, and are prospering. Immigration is beginning to settle the country once more, the railroads advertising the resources and telling of the opportunities to be had by those who desire to take advantage of the opportunities offered."

Mr. Ferrell will spend the summer in Idaho, but says he intends going back to Florida next November.

### BELL GOT THE MINER.

Amusing Incident Told by Baker City Preacher.

While waiting for the train at the depot Saturday, Rev. Bell told the story of his encounter with an intoxicated man in Baker City, says the Independence West Side Enterprise.

With several drinks aboard the Baker miner came lumbering out of a saloon in Baker City and "bumped in" to Rev. Bell, as the latter was passing along the street. The man was in a state of mind that makes one feel he is acquainted with everybody on earth, and extending the hand of greeting to Rev. Bell, remarked, "Where in h— have I seen you before?"

Rev. Bell answered that he did not know in what particular part of h—the miner had been and therefore could not answer the question. Making further inquiry the Baker City man learned that he had been addressing a minister of the gospel and he straightway hunted up Rev. Bell and apologized.

"That's all right," answered the preacher again; "now you come to church next Sunday and I'll tell you fellows something." The fellow went to church and Rev. Bell did the rest.

### MEDAL TO ENGINE HERO.

George Poell Badly Injured by Lifting Child From Track.

The first medal to be granted to a railroad man for heroism, under the act of congress of February 23, 1905, has been sent by President Roosevelt, with a commendatory letter to George Poell, of Grand Island, Neb., a fireman on the St. Joseph & Grand Island, who on June 25 last, near Powell's station, Neb., saved the life of a child 2-1-2 years old, son of Station Agent John Osary at that place.

The child was standing or walking on the track when Poell's train approached at about 30 miles an hour on a descending grade. Poell noticed the emergency application of the brakes, looked up and out of the window and saw that it would probably be impossible to stop the train before reaching the child.

He quickly ran out upon the running board and to the pilot of the engine, where he succeeded in grasping the child by the clothing, while the train was still running about 12 miles an hour, and threw him into the ditch, saving his life. Poell, however, was severely injured—being unable, in his haste, to secure a good footing on the 4-inch step at the bottom of the pilot and he was nearly killed, losing his

left foot and having both arms broken.

The committee which awarded the medal consisted of Secretary Moseley of the Interstate commerce commission, and Messrs. W. P. Borland, J. W. Watson, W. R. Wright and G. E. Starbird.—Railway Gazette.

### Luckiest Man in Arkansas.

"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and 12 bottles completed the cure." Cures the worst coughs and colds or money refunded. At Tallman & Co., and Brock & McComas, druggists; 50c and \$1.00.
