CHICAGO OR KANSAS CITY?

Both Cities Will Battle for Coming Republican National Convention.

Chicago, Oct. 24.—Chicago and Kansas City will fight it out for both the republican and democratic national conventions of 1908. Chicago will win only on condition that a larger convention hall be provided than the Coliseum and better arranged. Thomas D. Knight, president of the Hamilton club, delivered this message at a banquet of the "Old Guard" of the club. He had just returned after a consultation with Chairman New and other republican national leaders at Washington.

"Chicago must provide a hall which will comfortably seat 14,000," said Mr. Knight. "That is the foundation stone of the demands of the national committee, and must be met by Chicago or the convention goes to Kansas City, where there is a hall seating 20,000. Already many eastern committees have pledged their support to Kansas city, which has made a strong campaign. The Coliseum, as at present arranged, does not answer nearly the demand. We will strive to arrange a system of new galleries. Mr. New will be here in a short time to see what we can do. We are considering urging the rapid construction of the new Seventh Regiment armory, which will be adequate, or falling in that, to build a temporary wigwam. Chicago must hustle to land both conventions."

TO USE CANADIAN TIMBER.

Forestry Official Says Oregon Must Draw on Northern Supply.

"Within 15 years Oregon will be buying lumber from Canada," said Enos A. Mills of the United States forestry bureau this morning, says the Oregon Daily Journal. Mr. Mills is the special lecturer of the forestry service and is traveling over nearly the whole of the country speaking on behalf of the conservatism of the nation's forests.

Mr. Mills is probably the most interesting man in the government forestry service today. He has traveled on foot over almost the entire country, especially through the mountainous districts of the western states and Alaska. Years ago when Oregon was a very new state he followed a precarious trail up the Columbia and found much of what was then the virgin forest land of Oregon and Washington. He went many places that man had never been before, merely following his desire to learn everything possible about what he had chosen for his life study—trees.

He is the owner of one of the most original and delightful places in the country—the Long's Park Inn, a house built far up on the side of Long's peak, Colorado, constructed entirely of logs which have been through forest fires. There is not a drop of paint on the premises—the

decoration is furnished by the delicate carving wrought on the bark and logs by the flames.

"I am not strongly in favor of federal ownership of the forests," said Mr. Mills at the Portland hotel this morning. "The best thing is for each state to take up the forestry work and operate to save everything possible. Our floods and our clogged-up streams like the Columbia and the Mississippi are both the result of the deforestation of the country. The Columbia has a good channel and would be free of the mud which now fills it if trees were planted near the deadwaters to retain the soil instead of allowing it to be washed down.

"The western states are making little effort to save their forests—they are letting the lumberman destroy everything as fast as they wish to. Timber land in private hands will not be saved—that has been proven too often. If each state controlled the timber within its boundaries—that is a reasonable proposition of it—and logged off a certain amount each year—an amount that would correspond to the annual reforestation—forestry would pay well and at the same time the valuable timberland would be kept as a heritage for future times.

"In the east several states have taken up the work, notably Pennsylvania, which made a start with 10,000 acres, and is now increasing its holdings. New York has followed suit and Michigan and Wisconsin are making a beginning toward repairing the wrong done by extravagant and wasteful lumbering.

His Dear Old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters," writes W. B. Brunson of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That is the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children, too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by Tallman & Co., druggists, 50 cents.

To Salem on Electric Line Dec. 1. Salem, Oct. 25.—The Oregon Electric Railway company has completed track laying some distance beyond Brooks, and with a continuation of the present ideal weather it is said that the line will be completed to Portland and ready for operation at the time specified several weeks ago, December 1.

A sure cure, one you can depend upon. Hickory Bark Cough Remedy. A sure cure, and its pure! Use it for all lung trouble, coughs, colds, hoarseness and sore throat. For sale by any druggist and first-class dealers everywhere. Pendleton Drug Co.

Found—Small brown leather purse containing keys. Enquire at this office.

OREGON NOTIFIES TAFT.

Copy of Willamette River Appropriation Bill Sent to Washington.

Governor Chamberlain has sent letters to the secretary of war at Washington, D. C., as follows:

The legislature of this state at its last session, passed a bill appropriating \$300,000 to be paid to the United States for the purpose of assisting the United States in acquiring by condemnation or construction of a boat canal and locks around the falls of the Willamette river at Oregon City, Oregon.

The present and only canal and locks around these falls is owned by a private corporation which has the power and does impose a tax of 50 cents per ton on every ton of freight that passes from the upper to the lower river or from the lower to the upper river.

This tax as the state grows is an annually increasing burden and the people for a number of years past have been strenuously demanding government ownership and control of the locks at the falls of the Willamette to the bend, the river may be opened to free navigation its entire length.

The delegation from Oregon to the congress of the United States intend to bring this matter to the attention of congress and urge upon that body the importance to our people of an open waterway through the heart of the Willamette valley, and I am taking the liberty of enclosing you here with a copy of the act of the Oregon legislature bearing upon the subject in order that your department may be fully advised in the premises.

TWO CROPS SPUDS IN ONE YEAR

Salem Grower Exhibits a Freak in Potato Culture.

The most interesting and newest feature of the board of trade exhibit is a potato vine which is 9 feet in length and under which grew 16 large potatoes, weighing 11 pounds, says the Salem Statesman. The potatoes are of the Burbank variety and were raised by H. S. Belle, proprietor of the Grand Union Tea store at 271 Commercial street.

Mr. Belle is a well experienced hand at potato raising, having in former years resided on a farm three miles east of this city where, during one season, he raised 3350 bushels of potatoes from eight acres.

"The only time of the year I like potatoes is in May and I most generally have my new potatoes at that time," said Mr. Belle.

On a piece of ground about 40 feet square on his property at 236 Church street, Mr. Belle plants potatoes two times a year, the first crop being planted in December and harvested in May immediately after which the second crop is planted, a sample of which can be seen at the board of trade rooms. Raising his own potatoes is one of Mr. Belle's hobbies.

Bond Bros. has a good suit for every man in Umatilla county.

COON GANG WAS CONVICTED BY JURY

END OF THE FAMOUS COUNTERFEITERS

Government Secures Conviction After Hard Fought Case—Witnesses Appeared from Several States—Review of Operations of the Gang—Early Spotted by Government and Watched.

The convention of E. R. Coon by a jury in the United States district court for conspiring to counterfeit government coins with Albert Turner, Elmer Turner and H. K. Mills brings to close one of the most famous criminal cases that has been tried in Portland for years, says the Journal. Coon was found guilty on four counts, John H. Williams and Hans Johannsen also tried with Coon were acquitted.

Coon, Williams, Johannsen, Mills and the Turner brothers were arrested a year ago last June near Huntington, Oregon. Coon, Williams and Johannsen had only been out of McNeill's Island a few months when the federal authorities grew suspicious of their actions and ran down what they believed to be a gigantic scheme to defraud the government by manufacturing spurious coins. Their movements were watched for several months and their arrests followed.

Thomas Foster, secret service operative, discovered the plot and worked up the case. He traced the movements of the men who were augmented by the Turner brothers of Idaho and Mills from Portland to New York and in Texas. The scheme was one of the most elaborate ever framed up and at the trial last week the government had witnesses from five states, some coming from New York, others from Texas, while many were from Idaho, Washington and Oregon.

At the time of the arrest of the men on the Bastain ranch near Huntington, 11 ex-convicts were found employed in the vicinity and the authorities had to deal with the most desperate set of criminals to be found in the state.

With the exception of mills and one of the Turner brothers, all of the men tried have served terms in various penitentiaries. "Old Man" Williams has served 27 years in penitentiaries so far as can be traced, but it is believed that he has served at least 10 more that could not be found against him, making a total of about 37 years he has served out of a life of 76 years. He is gray bearded and wears a long, flowing beard.

All the men were indicted by the last federal grand jury on four counts and Coon was found guilty on all of them. The Turners and Mills pleaded guilty to the indictment before the trial and were used as witnesses against their confederates named in the indictment.

There is more catarrh in this section of the country than all other disease put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

BIG POTATO YIELD.

Yakima Man Harvests \$8000 Worth of Spuds on 40 Acres.

Attorney Vestal Snyder now has a force of 25 men at work harvesting his 40-acre field of potatoes, says the Yakima Republic. A modern four-horse digger is one of the implements employed in the field. The harvesters are camped on the ground and are prosecuting the work with vigor.

Notwithstanding the advanced price of hay this year and the eager market for it at current prices, Mr. Snyder plowed up 40 acres of alfalfa and put the field to orchard and potatoes.

He obtained a fine growth of fruit trees for the first year and will have at least 500 tons of the Netted Gem potatoes, a very large and excellent russet variety, for which he has already been offered \$16 a ton. He has not sold, however.

Mr. Snyder picked up four potatoes in the field this morning, just as he passed over the rows on which the digger had operated, which have an aggregate weight of 16 pounds. So many large potatoes, many quite as large as those which he picked up, were seen along the upturned rows that he didn't think it worth while to bring in the samples he weighed.

Attorney Snyder, whose farm is located about six miles west of the city, under the Yakima Canal company's ditch, now has about 70 acres in fruits on his place and will plant 25 acres more next spring.

If a man has lived right, death is only a graduation.

NOTABLE MEDICAL DISCOVERY.

Of Special Value to Many Here in Pendleton.

The progress made in medicine during the last few years has been as a whole general rather than specific.

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Pendleton is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is now no excuse for anyone suffering with indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heart-burn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely as long and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by Tallman & Co. under an absolute guarantee to refund the money if it should fail to cure. With an offer like this none can afford to suffer long from indigestion or stomach troubles.

Do not think because of the quick benefits derived from the use of Mi-o-na that it is merely a temporary agent. It is a remedy that cures by making over the weak stomach into a strong one.

Empress of China Sinks at Docks.

Vancouver, Oct. 24.—The company's crack oriental liner, Empress of China, sank last evening alongside her dock at this port. Her main deck on the port side is awash with several feet of water. She sunk on an angle of about 45 degrees. Her engines and dynamo are under water. She is resting on a mud bottom but the problem of saving her will be that of righting the vessel and preventing her from completely turning turtle.

A Criminal Attack.

On an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It is generally the result of protracted constipation, following a torpid liver. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25 cents at Tallman & Co.'s drug store.

A Cough Remedy That Cures.

Hickory Bark Cough Remedy, made by The Hickory Bark Cough Remedy company, of Salem, Ore., guaranteed to be pure; guaranteed to cure your cough, or money refunded. Guaranteed to make a friend of you. For sale by all druggists and first-class dealers everywhere. Pendleton Drug Co.

Ellensburg Pastor Here.

Rev. William DeWeese, formerly pastor of the M. E. church at Echo, but now pastor at Ellensburg, Wash., and also secretary of the Spokane conference district, is in the city today on business connected with the publication of the proceedings of the annual conference which are being issued by the East Oregonian.

Alaskans Want Home Rule.

Seattle, Oct. 24.—Nearly the entire delegation from Nome to the number of 50 arrived Tuesday en route to the republican convention at Juneau next month, endorsing home rule for Alaska and calling for the immediate removal of Governor Hoggatt.

Earthquake in Italy.

Rome, Italy, Oct. 24.—An earthquake caused the loss of 100 lives, according to Tribuna in this afternoon's edition.
