Oregonian

TO ADVERTISERS. The East Oregonian has the largest paid circulation of any paper in Oregon, east of Portland and nearly twice the circulation in Pendleton of any other newspaper.

REPRODUCTION BY THE UNIVERSITY OF MICHIGAN

TAKE CAMPAIGN INTO ILLINOIS

Governor Wilson Starts Stumping State and T. R. Will Begin Tomorrow.

VISITS 7 TOWNS TODAY

New Jersey Democrat Expects to Repeat Wisconsin Victory—Roosevelt Supporters, Spelling in Preparation for His Campaign.

Chicago, Ill., April 5.—With Governor Woodrow Wilson beginning today his three days' tour of Illinois in the interest of his candidacy for the democratic presidential nomination; with Colonel Roosevelt expected here tomorrow and with representatives of other political campaigners at work here, Illinois is now in the midst of the primary campaign.

Governor Wilson expects to duplicate the result he obtained in the Wisconsin primary, when he carried that state. His way through Illinois was paved for him by United States Senator Gore of Oklahoma. Governor Wilson spoke today at Joliet, Dwight, Pontiac, Bloomington and Lincoln. He speaks later in the day at Springfield and tonight at Peoria.

Governor Wilson declared today that he had been very busy in New Jersey, catching up with the work of investigating the 143 bills which were passed by the state legislature.

Spellbinders in Chicago are hogging Colonel Roosevelt and preparing for the coming of the colonel tomorrow.

Senator Stone, opened Champ Clark's final campaign in a speech last night and will speak at several places today in the interest of Speaker Clark.

May Bar Gov. Wilson.

Rock Island, Ill., April 5.—In pursuance of his policy to prohibit political meetings until after the primaries next Tuesday, Mayor Scriven today notified the committee in charge of a proposed reception to Governor Woodrow Wilson, democratic candidate for the presidential nomination, that Wilson will not be allowed to make a speech here. The mayor fears another outbreak similar to that of a week ago when two men were killed.

Roosevelt Delayed.

Cumberland, Md., April 5.—Roosevelt's special train was delayed two hours by a freight wreck. More than five hundred persons greeted Colonel Roosevelt at Keyser, W. Va., and a similar number greeted him here.

CITIZENS WAGING WAR ON RUBBISH

"Abas ye dirt, avant ye rubbish and skiddo ye filth," is the battle cry of all good citizens today as they hasten to obey the edict of the mayor who designated this the first of two successive Clean-up Days. Though the schools did not dismiss this afternoon as in years heretofore, the young sons and daughters of the city will be put to work after school hours in the effort to erase all unsightly blotches from the face of fair Pendleton.

Yards are being raked clean of accumulated leaves and other trash while back alleys and front streets are being treated to a similar process by a great many residents though many are deferring this task until tomorrow. With the debris all collected and placed conveniently, a half dozen or more wagons will be sent over the city by orders of the council to remove it outside the city limits.

MINERS OBJECT TO REPAIR WORK IN MINES

Philadelphia, Pa., April 5.—With the mine owners and union laborers in bitter controversy over repair of the mines during the walkout, the anthracite situation assumed a serious aspect in this section today. Leaders of the miners refused to allow the operators to repair the mines despite their plea that repairs are essential. The miners charge that the owners wish to repair the workings for the benefit of strikebreakers. Privately, many owners take a pessimistic view of the coming conference, when they expect the miners still to insist on their demands.

Japan Has New War Minister.

Tokyo, April 5.—Lieutenant General Yusaku Hiyama today was appointed minister of war of Japan, succeeding the late war minister, Shiroku Ishimoto. Hiyama served as staff officer in the Japanese Chinese war and in the Russo-Japanese war he was chief of staff to General Nodzu.

AMERICAN IS RELEASED

Mexican Rebel Chief Complies With Demand of U. S. Government.

El Paso, April 5.—Fearing that a refusal would mean intervention by the United States, General Pascual Orozco, commander-in-chief of the Mexican revolutionary forces, has complied with the demand of the state department for the release of Powell Roberts, the El Paso citizen, who returned to his home here today. Roberts was arrested on a charge of stealing \$500.

The rebels at Juarez inveigled Roberts across the Rio Grande. He was immediately thrown in jail. He was charged also with being an agent of President Madero.

General Orozco paid no attention to the demands of Mayor Kelly, and others of El Paso for Roberts' release but complied instantly with the demand from Washington.

S. McBRIDE FATALLY HURT IN AUTO WRECK

Former Weston Man Pinioned When Car Turns Turtle

Losing control of his automobile which swerved out of the road, made slick by rain, and turned turtle, Samuel McBride, a livery and garage man of Walla Walla and member of a pioneer Weston family, late yesterday afternoon was caught under the car and sustained injuries which it is feared will prove fatal, according to advices received here. He is lying at the home in Weston of his father, L. T. McBride.

Mr. McBride, in company with John Bell was enroute to Weston from Walla Walla when the accident occurred. Bell succeeded in leaping clear of the wrecked auto, while McBride was caught under it, his head being pinioned by the sides of the car.

The injured man was in a state of unconsciousness all last night but was revived today and while his condition is considered precarious, attending physicians have hopes for his recovery.

His injuries consist of a broken shoulder, a bruise on the head which caused a hemorrhage of the brain, internal injuries and numerous body bruises.

Mrs. McBride, accompanied by Dr. Keylor of Walla Walla, hurried to Weston on being advised of her husband's injuries and is still at his bedside.

A CITY BEAUTIFUL TO BE ILLUSTRATED

On next Wednesday evening the citizens of Pendleton will have an opportunity to learn the measures necessary to be taken to make Pendleton a city beautiful and the opportunity will cost them nothing but the effort of walking to the city hall assembly room and the time required by Howard Everts Weed, noted landscape architect, to give an illustrated lecture. Incidentally these citizens will be made acquainted at the same time with the comprehensive plans which are being undertaken for the transforming of Round-up Park into the most beautiful area of its kind in any city in the United States under 10,000 inhabitants.

Through the efforts of the directors of the Round-up association, Mr. Weed has been persuaded to come here next Wednesday and give his lecture gratis. He will explain briefly at pointedly the mistakes which are often made in the beautification of homes and streets and will show how to turn this misdirected energy to real advantage. In addition he will exhibit blue prints of the work contemplated at Round-up Park and a panorama showing the park as it will appear ultimately. His lecture will be illustrated with stereopticon views.

Mr. Weed will be remembered as the landscape artist who lectured here a year ago under the auspices of the ladies of the Civic Club and that organization is also very interested in his second appearance here. He has had experience extending over many years and in many states of the union and he is universally recognized as one of the leading authorities on the ways of making a city beautiful.

GOVERNOR FOSS BELIEVES HE WILL BE NOMINEE

Boston, April 5.—Although Governor Eugene N. Foss has withdrawn his name from the Massachusetts presidential primary he expects to be the nominee for the democratic presidential nomination. According to a statement made by his secretary today he believes none of the other candidates will be able to swing two thirds of the vote at the national convention in Baltimore. He thinks a dark horse will win and believes he is the dark horse.

JOHNSON TELLS OF T. R. BOLT

Says La Follette's Campaign Manager Was First to Urge His Withdrawal.

TREACHERY IS CHARGED

Oregon Manager for Wisconsin Presidential Candidate Assures Statement Issued by the Governor of California.

Sacramento, Calif., April 5.—Governor Johnson refused today to add to the statement he had given out here of the reasons the La Follette League of California transferred its support from Senator La Follette to Colonel Roosevelt.

He says the statement was not given out because of his desire to boost himself for vice president but because of his desire to see the progressives of California put right with the people.

The statement says that Walter Houser, national campaign manager for Senator La Follette, "was one of the first to urge that Senator La Follette ought, in the interest of the progressive movement, to withdraw in favor of Colonel Roosevelt."

Governor Johnson's statement was accompanied by numerous telegrams from prominent progressives, including Medill McCormick of Chicago. He claims that La Follette league withdrew only because it thought Senator La Follette had no chance to win.

Treachery, Says McCusker.

Portland, Ore., April 5.—Thomas McCusker, Oregon campaign manager for Senator La Follette, branded the efforts of Roosevelt men to put Roosevelt into the race, as a treacherous effort to divide the progressive vote and nominate President Taft. He declared the explanation of Governor Johnson of California, as to why the La Follette League in California transferred its support from La Follette to Roosevelt, as unsatisfactory. He said the statement of Governor Johnson, that Francis Heney was one who believed La Follette should withdraw in favor of Roosevelt, amazed him.

He said he met Heney here several months ago and Heney told him he had just had a conference with Roosevelt and that Roosevelt urged him (Heney) to support La Follette. McCusker claims Heney promised he would return to Oregon and speak in favor of La Follette.

FILM MAY FIX CRIME ON ALLEGED MURDERER

Riverside, Calif., April 5.—A film taken from a kodak in the Chuckwalla mountain camp, where it is alleged Mrs. Harriet Buyot of Portland and Miss Julia Francois of The Dalles, Oregon, were murdered, it is believed has proved conclusively that one of the bodies found buried was that of the younger woman. The film developed, shows Miss Francois in camp standing beside Bauerwaerts, who is charged with the crime.

Tong War Again Starts.

San Francisco, April 5.—The Chinese tong war was renewed suddenly today when two members of the Sing Suey Yung tong called Tue Quong Sing, a member of the Hip Sings, to the door of his apartments and opened fire with revolvers. Tue Quong Sing fell with three bullets in his body. He has slight chance of recovery.

LOCAL SUFFRAGIST WORKERS LAYING PLANS FOR MEETING FOR MRS. LA FOLLETTE

Learning that Mrs. La Follette, wife of United States Senator R. M. La Follette, is to accompany her husband to Oregon on his campaign tour and will come to Pendleton local ladies are anxious to have her speak here in behalf of the suffrage cause of which she is a pronounced champion.

During the day Mrs. C. S. Wheeler, prominent worker in the newly formed Political Equality League, took the matter up with members of the league and as a result a call has been made for a meeting of the society tomorrow. In the absence of the president the call has been made by the secretary, Mrs. M. L. Akers, and is as follows: "A special meeting of the Political Equality League will be held tomorrow afternoon at the city hall, for the purpose of making arrangements for meeting and entertaining Mrs. Robt. M. La Follette who will accom-

FLOOD SMASHES LEVEE AT CAIRO

Citizens Fighting Desperately to Stay Rushing Water Threatening City.

MEMPHIS ENDANGERED

Dykes Are Weakening and Entire St. Francis Basin Is Apparently Doomed to Devastation by Angry Mississippi River.

Cairo, Ill., April 5.—The Tenth street levee broke today and citizens are fighting desperately, but it is believed there is little chance of saving the city from floods pouring through it.

Worst Thought Past at Cairo.

Cairo, Ill., April 5.—It was believed that the worst of the floods, due to the rising of the Mississippi river and devastating this section the past week had past.

The drainage district north of here is desolated and lumber, barns and houses are floating about in the flood.

None of the five railroads, entering here, have been able to resume operations. Of these the Illinois Central was the last to suspend, abandoning its line when 3000 feet of track was washed out today.

Situation Grave at Memphis.

Memphis, Tenn., April 5.—With the levees weakening noticeably under the pressure of a 44 foot stage of water, Memphis today faces the worst flood in the history of the city.

Authorities fear the great St. Francis levee and other dykes protecting the city, will break. To prevent such a catastrophe great gangs of men are today working, strengthening the various levees.

Tens of thousands of persons are fleeing from the district near St. Francis basin.

It is estimated that seven thousand persons are homeless in Memphis and surrounding country.

MISS PANKHURST DODGES SLEUTHS IN NEW YORK

New York, April 5.—Christabel Pankhurst, who, with her mother, leads the English militant suffragettes, today is in hiding here and is being sought by Scotland Yard detectives, armed with a warrant, charging her with conspiracy to destroy property. It has been learned that Miss Pankhurst arrived here March 30 on the Cunard liner, Mauretania, under an assumed name.

THREE HUNDRED MEN ARE OUT AT TACOMA

Tacoma, April, April 5.—Three hundred men today are on strike at the St. Paul and Tacoma lumber mills here. Within a week, W. D. Hayward, the central figure in the Cripple Creek strike a few years ago will arrive to direct the men. Hayward also directed the big strike at Lawrence and comes from there to Tacoma.

NIGHT TORPEDO FIRING RECORD IS ESTABLISHED

Pensacola, Fla., April 5.—In the face of adverse conditions the United States destroyers, Trappe and Bonaham made a new world's record at night torpedo firing in this harbor last night. Every torpedo sent from the vessel hit the bullseye target. The entire group of five vessels made an average of 70 per cent, which is about the average daylight firing.

EXPECT I. W. W.

San Diego Authorities Prepare to Repulse Threatened Invasion.

San Diego, Cal., April 5.—Eighty deputies and constables tired, but determined, remain on guard against the threatened invasion of the I. W. W. force from the north. They are patrolling the northern boundary of San Diego county today.

The local reaty board has sent a communication to Governor Johnson denying the alleged brutality of the police and asking him to take no hand in the fight here.

About fifty I. W. W. members were questioned at the police station regarding their respect for the American flag.

The police say they all declared they had no respect for any flag but their red emblem.

CONTRACT FOR ANNEX LINCOLN SCHOOL LET

Builders of High School Are Lowest Bidders For Work

The construction of the annex to the north side or Lincoln school house, for which the city voted bonds a year ago, will be done by the Advance Construction company of Portland, the same company which secured the contract for the building of the new high school. At a meeting of the school board with Architect C. E. Troutman yesterday, bids were opened and that of the Portland company was found to be the lowest, although that of H. E. Cook, the local contractor, was but \$200 more. The bids submitted were, Advance Construction company, \$9795; H. E. Cook, \$9985; and D. A. May, \$10,050.

At the meeting yesterday the contract for the wiring of the new high school was also let, the Standard Engineering company of Seattle being the successful bidder with a bid of \$1139. With the letting of these all of the contracts in connection with school work with the exception of those for the heating and plumbing of the annex have now been let.

Excavating Almost Done.

The excavating for the new high school will be completed by the end of the week, it is estimated, after several weeks of difficult labor.

Because of the heavy strata of cement rock encountered, this branch of the work required much longer than estimated and will also exceed the estimated cost by a thousand dollars or more. The rock formed such an impediment to progress that heavy blasts were necessary and had it not been for the help of the donkey engine it would have been almost impossible to do the work. After going for a depth of fifteen feet, the cement rock ended and the contractors experienced no difficulty in ploughing the formation beneath.

It is expected that the concrete work will be commenced early next week.

P. O. CLERKS SWAMPED WITH DELAYED MAIL

Swamped with tons of mail in dozens of sacks, the force in the Pendleton postoffice is today feeling the effect of the Mississippi river flood, which paralyzed railroad traffic for five days. This morning the first mail from east of the Mississippi since last Sunday, reached this city. Four long sections of the delayed mail train arrived in the city during this morning, after making record breaking runs from Omaha. These trains had the right of way over all other trains of all classes.

The trains carried mail out of Omaha, only for Pacific coast states and made no stops after leaving Omaha, only for water, coal and to change engines.

Passenger train No. 17, due at noon today from the east, is also carrying an extra large cargo of mail and will not reach Pendleton until late this afternoon.

Vermilyea Testimony In.

Chicago, April 5.—The testimony in the case of Mrs. Louise Vermilyea, alleged wholesale and poisoner being tried here on a charge of murdering Richard Smith, was concluded today. Arguments are being made this afternoon.

BATTERIES FOR TODAY'S COAST LEAGUE GAMES.

- At Los Angeles, Portland, Spelger and Bowley, Los Angeles, Toger and Howies, At Sacramento, Sacramento, Knight and Price, Vernon, Brackenridge and Brown, At Oakland, Oakland, Malarkey and Mitze, San Francisco, Miller and Schmidt.

N. J. TEXTILE STRIKERS RIOT

Industrialist Orator Defies Authorities and Starts Disturbance.

GUNS AND CLUBS USED

Sheriffs and Deputies in Enforcing Obsolete Law Against Public Speaking Engage in Battle With Crowd and Fire Shots.

Passaic, N. J., April 5.—Serious rioting broke out among the textile workers at Garfield across the river from here, resulting in five arrests. The trouble started when Chas. Rothsinger, an Industrial Worker, defied a manifesto against public meetings, issued by Sheriff Conklin.

The organizer was arrested and when a number of workers attempted his rescue the sheriff and his deputies used their clubs and fired a volley from their revolvers. Apparently no one was hurt.

Sheriff Conklin posted notices, reviving an obsolete law prohibiting public gatherings. The strikers declare this a violation of their constitutional rights.

When Rothsinger began to address the crowd in Garfield the deputies pushed their way through the crowd to hear. The crowd closed in to try to stop them.

A fight started on the deputies who formed a hollow square with the orator handcuffed in the center. They then fought their way out.

Some one shouted, "Use your guns," and the deputies fired.

WANT MORE FISH, GAME MEMBERS

A membership campaign reaching out into all sections of the county as well as covering the city of Pendleton was decided upon last night by the Umatilla Fish & Game association at its regular meeting in the city hall. A committee consisting of W. D. Humphrey, John Vaughan and Dan Bowman was appointed to canvass the city for recruits while a resident of each of the outlying communities of the county will be chosen to secure additional names for the roll.

The association feels that it fulfills an important mission in the county by assisting the state officials in protecting the fish and game and in providing better sport for hunters and anglers. The members also feel that every true sportsman will endorse them in their purpose and take the attitude that this support can better be given them from the inside than from the outside. Therefore, the membership campaign.

At the meeting last night the committee appointed to work on the matter of locating a hatchery near Gibbon was made permanent. It consists of G. I. La Dow, John Vaughan, W. D. Humphrey, William Hoch, L. J. McAttee and Charles Carter, besides President W. N. Matlock. The only other business transacted was the authorization of the appointment of clerical assistants to Secretary Cranston and the changing of the form of calling a meeting from personal cards to notice in the newspapers.

KAISER COMMANDS MORGAN TO CONFER WITH HIM

London, April 5.—Cables from Rome say Emperor William of Germany has "commanded" J. Pierpont Morgan to meet him in Venice soon. It is believed the conference will refer to the Turko-Italian war. Morgan recently visited King Victor Emmanuel and is said to have learned the best terms Turkey can expect. If Morgan unofficially communicates these to the kaiser, the latter will probably forward them to the Turkish government.

It is reported the kaiser will use his influence to induce Turkey to cede Tripoli to Italy, thus ending the war.

"RED-HEADED WOODPECKER"

Term When Applied to Woman is Not Justification for Assault.

Marion, Ind.—A jury in the Grant circuit court held that if a man calls a woman "a red-headed woodpecker" she must not become provoked to the extent of striking him with a broomstick.

The decision was called for in the case wherein Mrs. Estella Lang of Gas City was charged with assault and battery on Harvey Busbee, Mrs. Lang received a minimum fine of \$1. She testified that as Busbee rode past her on a bicycle he called her a "red-headed woodpecker," referring to her Auburn hair, whereupon she struck him with a broom handle.
