 Los Angeles, April 6.—Los Angeles won yesterday's game from Portland in the first inning by pounding Steiger for six hits and seven runs, with no one out. NOT SALTS, OIL OR PILLS BUT CASCARETS

No Odds How Sick Your Stomach, How Hard Your Head Aches or How Bilious—Cascarets Make You Feel Great.

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets regulate while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

At Mobile—Mobile 5, Philadelphia Americans (second team), 1.

Baker Still Uncertain.
 Baker, Ore., April 6.—Baker probably will enter the Tri-State league, although it will not be definitely known until tonight, when the committees complete their work. It had been given up, but on the solicitation of Mr. Sweet, the Boise promoter, a few local fans took up the burden of raising the funds. Some of the people want league ball and some are opposed. This city has had bad luck with organized ball and a fast city league will furnish good sport in any event. The league supporters, however, are confident this evening that they will be successful in their efforts in spite of the indifference. The entrance of Baker now depends on whether Weiser or Ontario comes in but Sweet is confident of either one or the other.

AT THE OREGON THEATRE

TO SHOW WONDERS OF "ALASKA IN MOTION"

One of the most interesting entertainments coming to the Oregon theatre is the Tourographolog on Alaska, the Great Wonderland, by Beverly B. Dobbs.

"America has only the slightest conception of the wealth and resources of Alaska," said Dobbs this morning. "A few years more, however, and we will all realize that it is all that the term implies; a new world filled with every kind of work and pleasure. Far from being the windswept ice field which seems to be the popular conception of the country, Alaska has millions of acres of valuable farm lands, cattle ranges, and homesites, where a man may accumulate a fortune just as surely, if not so quickly, as he can digging gold from the creeks. Civilization has merely scratched at the surface of Alaska's possibilities and from the way she has responded, surely entitles her to serious consideration as a valuable undiscovered continent. Although my pictures are not wholly devoted to the exploitation of the big territory beyond the Yukon, they will undoubtedly open the eyes of America to the possibilities of Alaska, both to us and our posterity."

The moving pictures shown by Mr. Dobbs include the big Walrus Hunt, a remarkable battle with a huge polar bear, the life and customs of the Eskimos, through the heart of Alaska, the Copper River Country, to the richest copper mine in the world, and many other diverting subjects.

These pictures appeared at the Helig theater in Portland during the past winter.

URGES TEACHERS TO BE UP-TO-DATE

Spokane, April 6.—Speaking at the general session of the Inland Empire Teachers' association, Dr. E. A. Winship of Boston, urged the importance of teachers of the west keeping up to date.

He said: "John D. Rockefeller, J.

of art and imagination. A tramp after being given shelter attacked the girl, who struck him with a club. Believing him dead she and her father hid the body in the woods. In the night the man's ghost came in their cabin and after a night of terror and horror they found it was not a ghost but the man himself.

"An Indian Martyr." Bison. A thrilling story of self-sacrifice by a noble Indian, showing many exciting events and ending in a wonderfully realistic execution in which the Indian is burned at the stake. Pictured amid beautiful scenery.

"Miss Biffin's Demise." Yankee. A lively comedy. After a family row Madam decides to suicide so finding a bottle marked "poison," she imbibes and awaits the end. But it was "only" hubby's whiskey bottle, disguised, and when the doctor smells her breath he knows. A mile of smiles in this funny film.

"Desperate Desmond Almost Succeeds." Nestor. Lively comedy with western settings and some clever and amusing stunts that cause many a laugh.

"The City of Mosques." Eclair. Beautiful views of Cairo, Egypt, taken from above the city.

Coming—Madame Sarah Bernhardt in her greatest success, "Carmite."

AT THE GRAND.

Something new and novel opened at the Grand for this change. The best comedy team ever visited here and the only acrobatic act that ever made a success in Pendleton. Both are at work in one bill.

Sam Dalton and Lillian Travelle are the best quick change singing and comedy artists on the circuit. They permit fun, sketch, music and ridicule to enter their play in the few minutes they are at work in such a way as to please, all and to offend no one. It is quite a relief to get away from the monotony of the general run of sketch artists.

As a general accurance the acrobats have a very poor show in this town. The "Landy's" are making an exception with their novel way of balancing and introducing all their new features they have made a hit where the others failed. Their most daring stunt—the walk up-side-down on the ceiling is one of the cleverest acts ever worked here. This is one of the best bills and no one should miss seeing it.

Pierpont Morgan and Andrew Carnegie made their great success in life from a financial standpoint, because they never tried to sell valentines on the Fourth of July; never played football in April or baseball in November, and never played yesterday's nor today's game tomorrow."

He declared that education in the west is in advance of that in the east because the people here are more wide awake and up to date.

That the absence of mother's milk means a loss of one inch in stature for each three months the baby is deprived of its natural food was the statement of Dr. G. Stanley Hall, president of Clark university of Worcester, Mass., and he cited the results of a test of 300,000 soldiers made under government supervision as proof. Dr. Hall condemned the moving picture shows and urged that films must be closely censored.

Frank W. Cooper, superintendent of city schools of Seattle, spoke in favor of a teachers' retirement bill, which would provide for the teacher in old age. Incidentally he urged the

importance of teachers taking out life insurance policies of certain kinds.
