CHILD BADLY BURNED ON LEG

Between Knee and Ankle. Skin Loose. Leg Dark Red. Cuticura Ointment Entirely Cured Her.

200 Fuller St., Redwood, Cal.—"My two-year-old daughter tipped a basin of hot water on her leg between knee and ankle. She was burned so badly, in places as large as a man's hand, that the skin was loose. The appearance of the leg was dark red. I applied the Cuticura Ointment at once and put on a bandage. I removed the bandage twenty-four hours later, opened the water blisters, applied more Cuticura Ointment and bandaged again. The skin did not come off and I did this until she was completely cured. I did not let her walk much until it was healed. She did not complain after the first day, and after the Cuticura Ointment was put on, slept as usual. The scars are gone; Cuticura Ointment entirely cured her." (Signed) Mrs. E. O. Chapman, Mar. 12, 1912.

Sometimes there were sores, and they were red and inflamed. I washed the affected parts off with the Cuticura Soap, then applied Cuticura Ointment. I only put it on three times and the sores were all gone." (Signed) Chas. Wash, Dec. 27, 1911.

EASY AND SURE WAY TO CURE COLDS

A cold generally attacks the weakest part, affecting the eyes and ears in some and producing nasal catarrh and throat troubles in others. A cold is due to an inflammation of the membrane lining the air passages, and may be promptly cured with a little Ely's Cream Balm, which immediately relieves the inflammation and all the distressing symptoms, such as sneezing, coughing, running at the nose and eyes, hoarseness, sore throat, fever and headache. One reason why this pure, antiseptic Balm acts so quickly is because it is applied directly to the tender, sore surfaces.

Even in severe, chronic cases of catarrh, Ely's Cream Balm never fails to quickly and effectually check the poisonous discharge which clogs the head and throat, causing the disgusting hawking, spitting and blowing of the nose. This remedy not only drives out the disease, but heals and strengthens the weakened membranes thus ending catarrh.

Catarrh is a filthy, disgusting disease. Don't put up with it another day. Get a 50 cent bottle of Ely's Cream Balm from your druggist and see how quickly you will be relieved. It is perfectly harmless.

BIG DECLINE IN STOCK PRICES IN NEW YORK

General Average Is Lowest for Several Months.

New York, Dec. 7.—Heavy selling of stocks set in at midday yesterday, sending the general average of prices to the lowest level in some months and in some instances the lowest of the year. The tone of the market was more feverish than at any time since last Monday, when the United States supreme court decision in the Harriman merger case awakened the market from its long apathy. The decision developed a general feeling of pessimism in financial circles.

The center of today's weakness was United States Steel, which sold under 70 before noon on extensive offerings. The Harriman issues and other standard railway shares showed acute weakness, while various specialties declined abruptly.

It was reported that local banks and trust companies were again calling loans, but a canvass of financial institutions failed to confirm this rumor. It was acknowledged, however, that banks are showing more discrimination in acceptance of industrial stocks as collateral for loans.

of the Rio Grande system.

The officials had been on a tour of inspection over the lines and when their train reached Midvale, 17 miles south of Salt Lake City, it was discovered that the fireman and engineer had been on duty 16 hours, the maximum time allowed by the regulations of the interstate commerce commission. Rather than wait for another train or a new crew, General Superintendent Apperson donned the engineer's overalls and took his seat at the throttle and Superintendent Williams secured the fireman's shovel and proceeded to fire up. The run to Salt Lake was made on time with the officials in charge of the engine while the regular crew was in the superintendent's private car "cleaning up."
