### TO GUARD FROM FUTURE FLOODS

#### HOW FLOOD DISTRICT WILL PREVENT FLOODS

Dayton, O.—Raised \$2,000-000 prevention fund by private subscription—Engineers preparing complete plans to prevent future floods—Temporary repairs made in levees.

Columbus, O.—City council appropriated \$20,000 for complete survey. When plans are submitted will bond itself to wipe out flood damage at any cost.

Chicago, Ill.—\$750,000 available for strengthening and raising levees—Sixty foot stage planned—New levees going up.

Hamilton, O.—Complete survey being made—Bond issue to be voted on after plans for complete protection from future floods have been submitted.

Indianapolis, Ind.—City appropriated \$10,000 for survey—Also appropriated \$150,000 for repairs.

Evanville, Ind.—Raising embankment five feet.

Cleveland, O.—Plans when carried out will provide adequately against any recurrence of floods.

Cincinnati, O.—City and federal government working out plans for permanent relief.

INDIANAPOLIS, Ind., Aug. 27.—Data gathered by the local chamber of commerce for its special committee on flood prevention shows that in many cities stricken by the floods of last March steps have been taken to prevent a repetition of the disaster. A dogged determination was shown in the replies to the chamber's queries to wipe out all danger of such floods at any cost.

This was the spirit evinced in the Dayton and Columbus replies and the officials of these two cities apparently believe that they would get the bond issues to back up the prevention plans. John Bassel, general secretary of the chamber of commerce of Columbus, said: "When these plans are received it is the purpose of the city to vote a bond issue, and no matter what the cost may be, meet for all time the issue that will present itself. We will not continue with such a menace confronting the city. In this mind the people stand as a unit."

Edward A. Deeds, a member of the Dayton flood prevention committee, wrote: "The Morgan Engineering Company has been at work three months in the field making a complete survey. They have instructions to prepare complete plans which will guarantee our city against another disaster, and expect to have within a year the plans complete and the work started."

Hamilton, O., which lost over 100 lives and over \$9,000,000 in property, reported through C. R. Greer, secretary of the citizen's relief committee, that a survey is being made and plans are in view "that will be an absolute guarantee against a second inundation."

"The question of issuing bonds," said Greer, "will be submitted to the voters of Butler county with the least possible delay. We have no doubt the bonds will be authorized and the work promptly begun." Brookville, Ind., was almost the only town that reported little or no steps toward permanent relief. This place was seriously

#### WHERE WAS ALUMNI?

Washington University's law school alumni succeeded in demolishing several articles of furniture in a recent banquet and John Cafferata, in a frenzy, sought reparation of some of the more orderly members of the assembly.

"You have done damages over \$30," exclaimed the irate proprietor.

"That's all right," was the soothing response of one of the guests. "Our alumni will fix that."

"All right, all right," said the excitable Latin. "Show me Mr. Alumni. I talk to heem."—Selected.
