THAW APPLIES FOR BAIL.

Fugitive From Matewan Again to be Opposed by Jerome. CONCORD, N. H., Dec. 10.—Harry K. Thaw, who is resisting efforts to extradite him to New York on charges of conspiracy with his escape from Matewan, applied for bail. His petition will be heard by Judge Aldrich in the United States court.

William T. Jerome, who is in charge of the case for New York, will appear in opposition. Thaw is in the custody of United States Marshal Nute and Sheriff Drew, of Coos county, pending the decision of the United States court on his appeal for a writ of habeas corpus.

Salmon Eggs Reach Wedderburn. WEDDERBURN, Ore., Dec. 10.—Deputy Fish Warden Jewell, of Portland, came here a few days ago with about 1,000,000 salmon eggs for the Indian creek hatchery. The eggs arrived in good condition, though Mr. Jewell had a strenuous trip with them coming on the Breakwater to Coos Bay, thence to Bandon by rail and boat and from Bandon to Wedderburn.

Club Meeting Tonight.

At the Commercial association rooms tonight the deferred meeting of the club will be held and owing to the fact some business of much importance will be up for transaction a good attendance is requested by President Tallman. One of the subjects up for action tonight is the matter of the increased appropriation for the federal building.

Pendleton Relief Association.

A meeting of the Pendleton Relief Association has been called for the Commercial Association rooms at 10 o'clock Thursday morning. The meeting is called by Mrs. J. S. Landers, secretary, upon instructions from the president, R. H. Wilcox. The association engages in work for the needy and the session tomorrow will be for the purpose of considering the local situation and arranging plans for giving Christmas cheer to homes that otherwise might go cheerless.

Smallpox at Kamela.

Dr. D. J. McFaul, county health officer, returned this morning from Kamela where he had been called by a case of smallpox. The patient is a woodcutter named Peterson and he has the disease in a bad form, although he is getting along very well. The man is thoroughly quarantined and Dr. McFaul is hoping to keep down the epidemic. It is the only case in the Kamela neighborhood. The disease may have been contracted in La Grande where there is smallpox in Walla Walla, where the sick man hails from.

Judgments Rendered.

Circuit Judge Phelps has handed down decrees today as follows: To Edward Le Fave against F. L. Atkinson for \$500, interest and \$50 attorneys fees and foreclosure of mortgage; to Fred Hesse against A. G. and Adelaide Nelson for \$3300, interest, \$225 attorney fees and \$30 costs and foreclosure of mortgage; to J. L. Hamrick against J. W. and G. R. Shortridge for recovery of horses within ten days. Failure to surrender the horses in that time will be equivalent to the cancellation of a debt of \$449 owed by plaintiff and an additional judgment for plaintiff of \$225.

Elk Near Milton.

Several head of elk are along the Walla Walla river, just east of Milton according to the mailcarrier on the route extending up the river from Milton. He says he saw a cow and a calf feeding at a haystack near a ranch house, not more than two miles from town, and that a bull, cow and calf were seen at what is known as "The Elbow" on the river, 12 miles from town. This is the first time any of these animals have been seen in that section for many years, though they were numerous in early days. The matter has been reported to the district game warden here, who says if the report is correct, the animals must be part of a herd brought over from Yellowstone park last winter by Walla Walla county sportsmen.

Enter Pleas of Not Guilty.

Their demurrers to their indictments having been overruled, several of the

persons arrested by Governor West's agents several months ago on charges of selling liquor illegally have appeared in the circuit court during the last two days to enter pleas of not guilty. C. H. Brown, George Darveau, John Foutts and Cora Switzer have all taken this action and Gus La Fontaine is expected to do the same. This probably means that the best case against Theodore Norman will not be appealed. It will be remembered that the facts in this case were stipulated and the court found him guilty and fined him \$100. It was the intention of his attorneys at that time to appeal to the supreme court but subsequently the fine was paid. The attorneys at that time were contending that the local option law of 1910 gave the city courts exclusive jurisdiction in liquor cases and also that the 1913 legislation in adopting a law against the sale of liquor on Sunday purposely or inadvertently restricted it to apply only to those actually engaged in a licensed liquor business.

MISTAKE IN MESSAGE LEADS TO SUITS.

(Continued from Page 1.)

ing their customer was being crowded by the Spokane bank.

Story Corroborated.

The report regarding the error in the message sent Mr. Drumheller from Spokane has been current here today and was verified this afternoon when the East Oregonian called Mr. Drumheller by phone. Though he discussed the matter reluctantly and showed a dislike for the publicity he is receiving Mr. Drumheller admitted such a mistake had been made. Asked as to whether he contemplated a damage suit against the telegraph company he said he did not wish to commit himself and referred the question to his lawyer John H. Pedigo of Walla Walla. Mr. Pedigo was called by phone and corroborated the story of the mistake in the telegram but asked to be excused from comments on the question of a damage suit. He admitted, however, he is making an investigation of the matter.

Advocates Federal Help.

NEW YORK, Dec. 9.—The American Automobile association at its annual meeting just held in Richmond, Va., declared unequivocally that federal participation in highways improvement should be expressed so as to obligate the several states to expend upon their market roads direct proportionate to the national expenditure on the most used commercial roads connecting the several states. It is the contention of the automobilists that the betterment of main and lateral roads shall be carried forward jointly in order to accommodate adequately increasing traffic needs.

John A. Wilson of the Pennsylvania Motor Federation, was elected to the presidency, succeeding Laurens Enos of New York, who declined a second term. Mr. Wilson's long experience in automobile organization affairs guarantees an active administration of the national body.

Dr. H. M. Rowe of the Automobile Club of Maryland, of which state association he has been the head for the past five years, was advanced to the first vice presidency; R. W. Smith of Colorado was named as second vice president; F. L. Baker of California, third vice president; H. J. Clark of Minnesota, 4th vice president; and Preston Belvin of Virginia, fifth vice president. John N. Brooks of Connecticut continues as secretary, H. A. Bonnell of New Jersey as treasurer; and A. G. Batheider as chairman of the executive board.

In the appointment of board chairmen, President Wilson named the following: Good Roads, George C. Ditch, New York; legislative, C. C. Janes, Ohio; touring, Howard Longstreth, Pennsylvania; contests, William Schrimpf, New York. The executive board contains members from practically every state.

Emphatic endorsement was given to the Adamson measure, which provides that after the automobile owner has registered his car in his own state he shall be privileged to go anywhere in the United States without additional registration. For many years the A. A. A. has sought federal registration of automobiles, but the bill put forward by Representative Adamson of Georgia, exactly meets the needs of the situation and it will enlist the unanimous support of all users of self-propelled vehicles.

ACCOUNTING PRINCIPLES IS NAME OF NEW COURSE

Professor Sowers Will Conduct Correspondence Work in Scientific Bookkeeping.

UNIVERSITY OF OREGON, Eugene, Dec. 9.—course in Accounting Principles will be offered by the University of Oregon in January. This course is connected with the principles underlying modern bookkeeping practices. It deals with the methods of designing systems of bookkeeping records and explains the philosophy of modern accounts. It is designed for the bookkeeper who wants to know the reason for the things he is accustomed to do and for the man or woman who may never expect to become a bookkeeper but who wishes to know enough about accounts to be able to understand bank statements, financial statements of clubs, churches or corporations and official reports of various kinds. Every person who expects to take some part in the conduct of government should have some knowledge of accounting. The successful management of a corporation, municipality, county, school district, state or nation depends upon the accounting system. The science of accounting is to the government of a person or a corporation what the science of navigation is to ocean travel. It must be depended upon to guide action to the desired objective point. Intelligent economy is impossible without scientific accounting that will show where economies may be effected, and this is especially true when applied to the regulation of public affairs by interested citizens.

WEST'S AGENT DISMISSED. Governor Discharges Special Officer at Baker, Whose Mission Fails. BAKER, Ore., Dec. 6.—Edward Richards, the special agent of Governor West, who appeared here several weeks ago and began accumulating evidence on which to base charges of illegal liquor selling, graft etc., and who failed to obtain any indictments as a result of his evidence before the grand jury, was dismissed by Governor West.

In Baker is at an end and says that the alleged conditions in Baker now will be handled in some other way.

Richards said he has requested the governor to appoint a special prosecutor in Baker and it is his belief that because of statements to the

governor that he was unable to obtain indictments because of lack of support in the district attorney's office. Governor West will send an outsider to handle cases of a certain class when the grand jury reconvenes.

Vulcanizing Retreading

NOW IS THE TIME TO LOOK AFTER YOUR TIRES.

Wet weather will soon be here. You should have the small cuts and tread blisters vulcanized before it is too late. If water gets into the fabric of your tires, it causes them to rot and soon blow out.

Don't Be Deceived

and make the mistake of leaving your casings and tubes with amateurs, who have had no scientific training or practical experience. Don't try to save a dollar by taking your work to these so-called vulcanizers, it will only mean a greater expense to you in the end.

Bring your casings and tubes to an expert vulcanizer and have them repaired correctly. My prices are Portland prices. My work is better than you can get done there, and I save you the expense and delay of sending your work there.

I Am Here to Stay

and give auto owners of Pendleton and vicinity REAL TIRE SERVICE.

I guarantee and back every dollars worth of work I turn out.
