#### EIGHT SUBMARINES BEING BUILT FOR U. S.

SAN FRANCISCO, Cal., Nov. 28.—The Union Iron Works was already putting men to work in connection with the contract it has received for the construction here within the next few months of eight submarines for the United States navy. Under this contract \$3,000,000 will be spent.

Besides the men already employed the company, it was stated, will require 250 laborers, 200 machinists, 100 molders and helpers and 50 cooperatives and helpers.

Forty-six carloads of raw material for the undersea fighters have arrived thus far.

#### Swallowed Watch Taken

ST. LOUIS, Nov. 28.—A toy watch was removed from the esophagus of Corrine Shine, 9, by an operation at the City Hospital. The watch had lodged at the lower end of the tube that leads from the mouth to the stomach and although it caused but little discomfort it was decided to remove it.

While the child was under an anesthetic an incision was made in the stomach. Then an assistant worked a tube through the mouth down the esophagus to hold the watch in place while the operator inserted his finger in the opening of the stomach and thence into the cardiac opening, where he located the obstruction and removed it. The girl will recover.

#### WAR IN EUROPE MUCH LIKE FOOTBALL GAME

CORRESPONDENTS FOLLOWING THE ALLIES HAVE EXCITING TIMES.

(By William G. Shepherd, United Press Staff Correspondent.) BERNE, Switzerland, Nov. 12.—(By Mail to New York.)—You're out of bounds when you get here. This is the sidelines. No censor can stop this, so I am going to tell the truth. Did you ever watch one of those brickyard, corner lot baseball games where there is no grandstand but where the crowd follows the teams over the field?

That's this war in Europe. The "crowd" in this case is behind the allies and it is made up of every newspaper man in America who could get across the Atlantic. They're pressing the players hard, too. Often they get in the way and, by the same token, often they are punished for it—knocked down in a rush or hauled out of the way by some angry player and punished.

place they made him take a long Gelett Burgess and I were going over the list of American journalists the other day in Paris, who had been "pinched" at one time or another and it included everybody over here. Some of them have had terrible times, too.

One chap who really got onto the English firing line because he was disguised as a Salvation Army officer, stood in the way of a British cannon one day and they had to stop firing until they had pushed him into a trench. He went into a room of a chateau over night without a bite to eat! That's what he got.

Another fellow who has a habit of saying to every officer who stops him: "Why, how dare you? Don't you know who I am. I am—" and always as a result gets in extra trouble for being fresh, slept in a barn one night until he could be sent back to Paris in an automobile. In another to eat but three meals a day and not walk back to headquarters and told him that if he did not get there by a certain time they would shoot him. He landed on time, but brutal as they say some of these soldiers are, they have not been charged as yet with shooting anybody because he did not walk fast enough.

I myself was held up for five days in a town on the corner of the Alsne battlefield. A very cross colonel said to me:

"You have no right here. How did you dare to come? It's against the rules. You'll have to promise me that you won't leave this place until I tell you to go."

And for five days I was forced to stay there with nothing but a comfortable hotel to live in and nothing to eat but three meals a day and nothing to look at but the movements of tens of thousands of soldiers with all

the incidents of war. A couple of very cross English captains used to growl at me daily:

"Seeing anything interesting?" The colonel himself used to say, now and then.

"Too bad to keep you here, I suppose, but you broke the rules. You have no right here. You fellows have got to be punished one way or another."

It was terrible, but nearly every other American newspaper man over here has had experiences just as awful.

#### BASEBALL TWIRLER AND FORMER CLASSMATE WED

SALEM, Ore., Nov. 28.—Raymond K. Drake, former varsity twirler at old Willamette, married Miss Emma Wright. Both are of Salem. The couple attended the local institution for several years. Drake served as head twirler of the Salem nine for two years, having stood up against the Multnomah nine in several contests.

#### PROVISIONS FOR THE ARMY IN THE FIELD

##### Importance of Keeping Body Well Nourished.

In time of war, the greatest effort is always made toward cutting off the enemy's base of supplies. It is the well-nourished people who fight the strongest and live the longest and contribute most to human progress. Is your stomach doing its duty—does it convert food into good blood and tissue?

Dr. Pierce's Golden Medical Discovery has been so successful in the treatment of indigestion, that thousands of former sufferers owe their good health today to its wonderful power, and testimonials prove it.

It arouses the little muscular fibres into activity and causes the gastric juices to thoroughly mix with the food you eat, simply because it supplies the stomach with pure, rich blood. It's weak, impure blood that causes stomach weakness. Get good blood through the use of Dr. Pierce's Golden Medical Discovery, and you will have no more indigestion.

It is the world's proven blood purifier. It's not a secret remedy for its ingredients are printed on the wrapper. Start to take it today and before another day has passed, the impurities of the blood will begin to leave your body through the liver, kidneys, bowels and skin, and in a few days you will know by your steadier nerves, firmer step, keener mind, brighter eyes and clearer skin that the bad blood is passing out, and new, rich, pure blood is filling your veins and arteries.

The same good blood will cause pimples, acne, eczema and all skin eruptions to dry up and disappear. Dr. Pierce's Golden Medical Discovery is the helpful remedy that nearly everyone needs. It contains no alcohol or narcotics of any kind.
